

# Parent Survey Report: One School in One Data Collection Period

**School Name:** Elsie H Wilcox Elementary School

**Set ID:** 12042

**School Group:** Kauai Safe Routes to School

**Month and Year Collected:** March 2014

**School Enrollment:** 0

**Date Report Generated:** 06/01/2015

**% Range of Students Involved in SRTS:** Don't Know

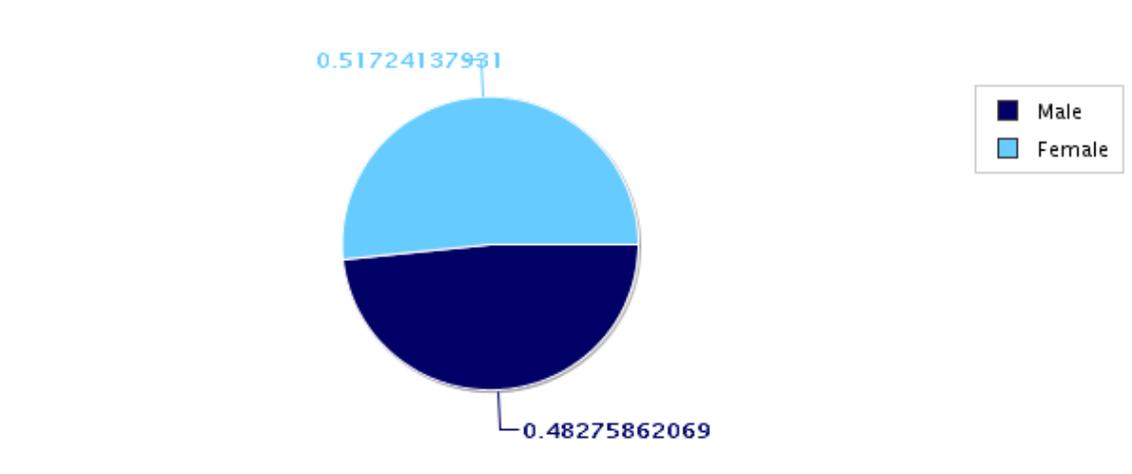

**Tags:**

**Number of Questionnaires Distributed:** 138

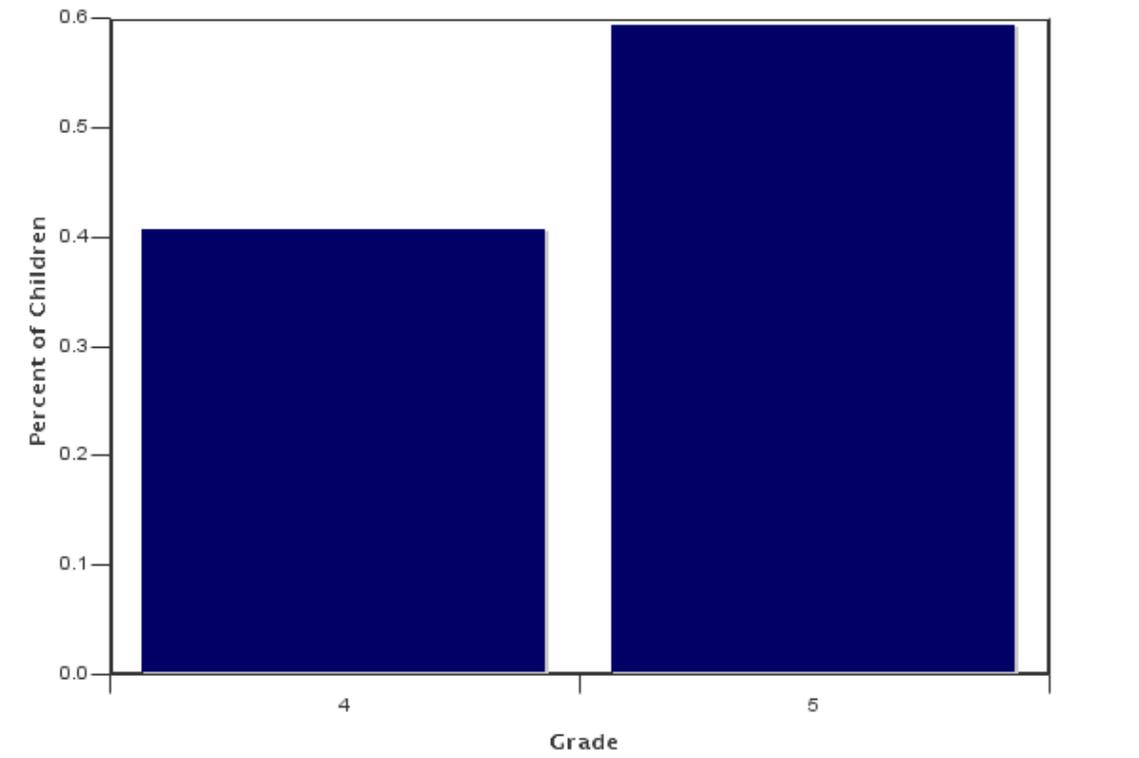

**Number of Questionnaires Analyzed for Report:** 89

This report contains information from parents about their children's trip to and from school. The report also reflects parents' perceptions regarding whether walking and bicycling to school is appropriate for their child. The data used in this report were collected using the Survey about Walking and Biking to School for Parents form from the National Center for Safe Routes to School.

## Sex of children for parents that provided information

### Grade levels of children represented in survey

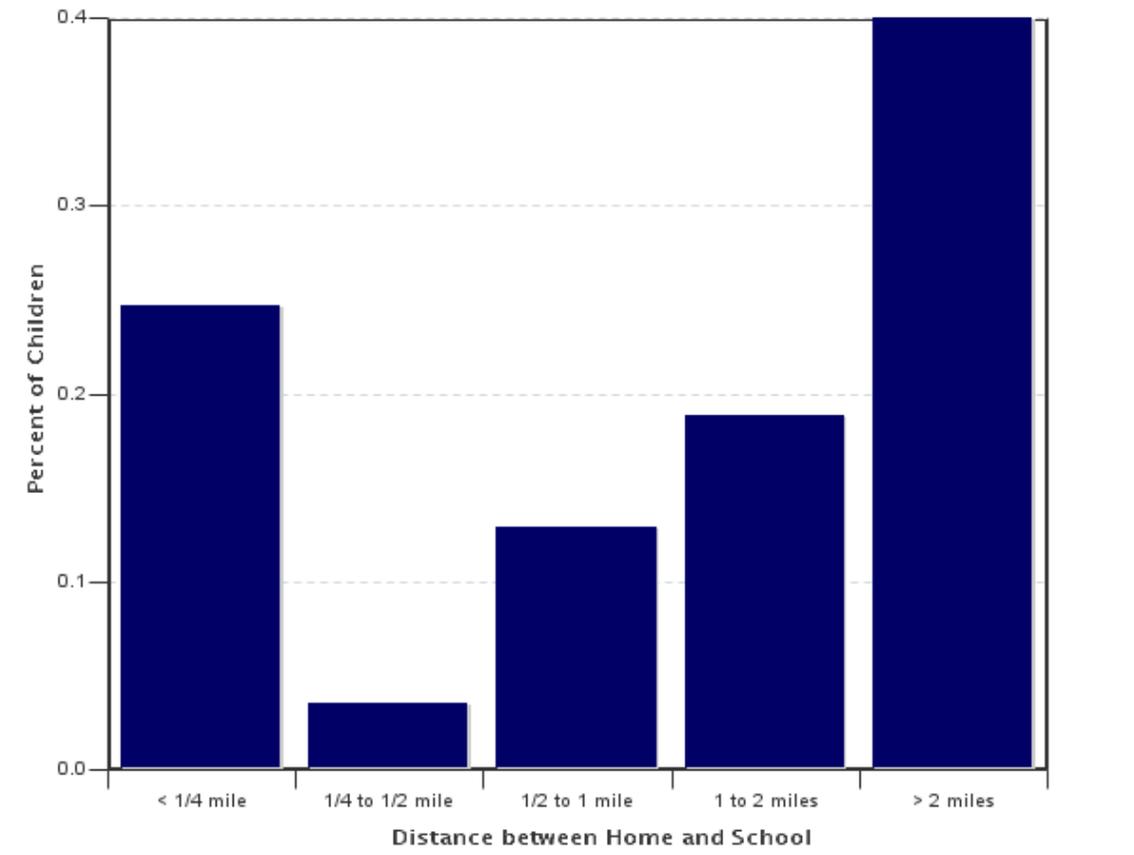

### Grade levels of children represented in survey

Grade in School	Responses per grade	
	Number	Percent
4	35	41%
5	51	59%

No response: 0

Percentages may not total 100% due to rounding.

Parent estimate of distance from child's home to school

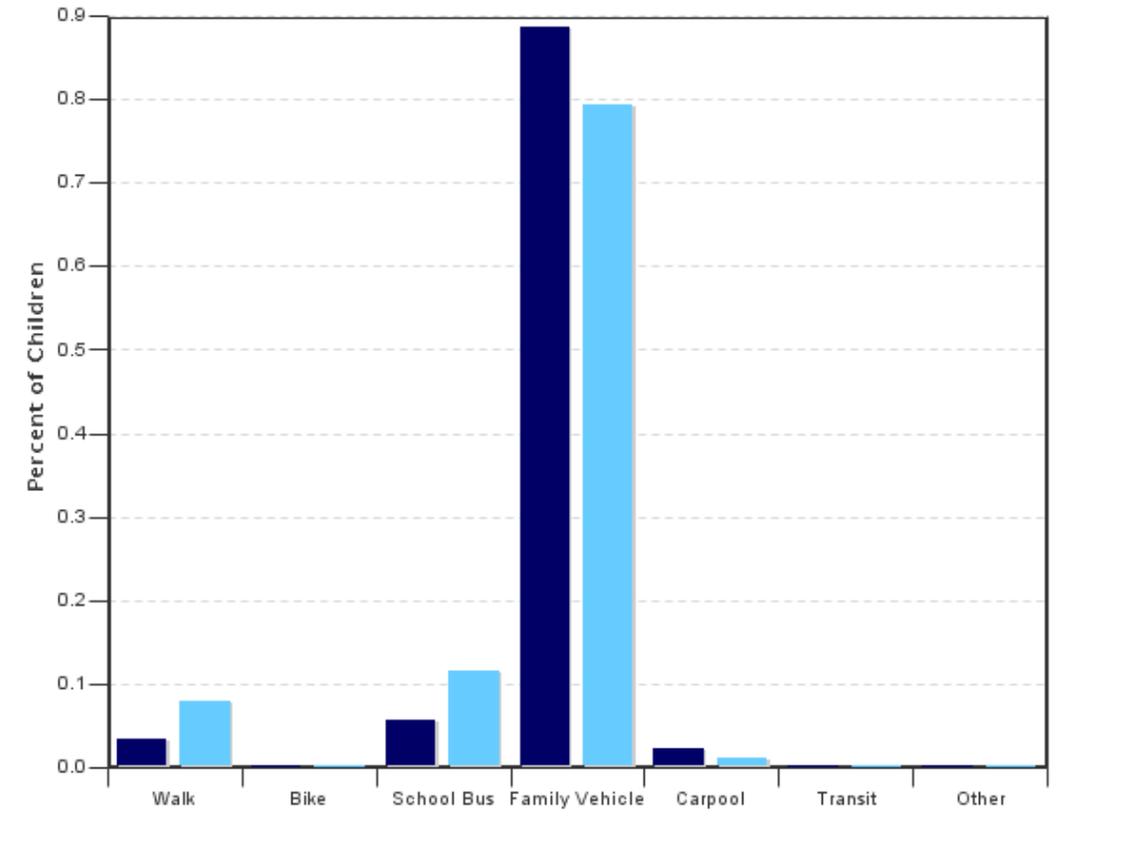

Parent estimate of distance from child's home to school

Distance between home and school	Number of children	Percent
Less than 1/4 mile	21	25%
1/4 mile up to 1/2 mile	3	4%
1/2 mile up to 1 mile	11	13%
1 mile up to 2 miles	16	19%
More than 2 miles	34	40%

Don't know or No response: 4  
 Percentages may not total 100% due to rounding.

### Typical mode of arrival at and departure from school

### Typical mode of arrival at and departure from school

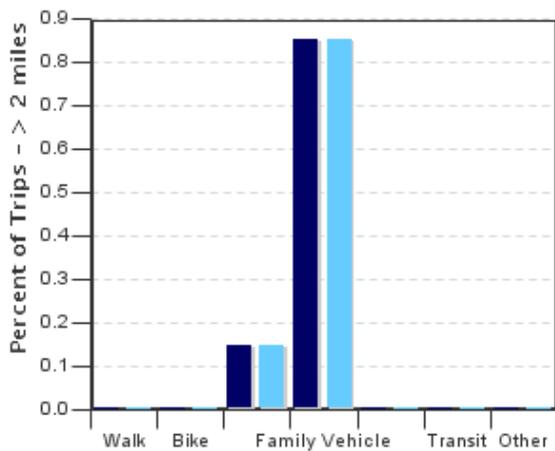

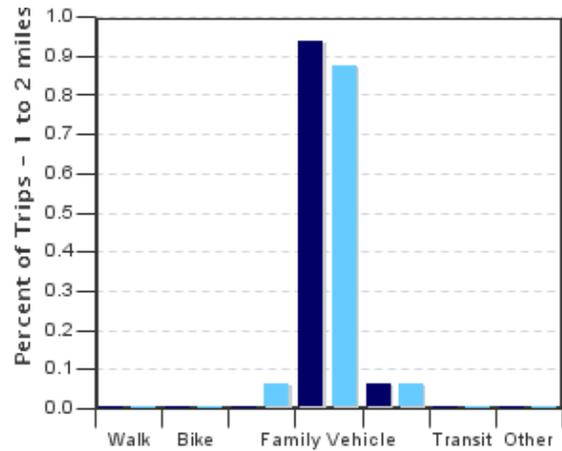

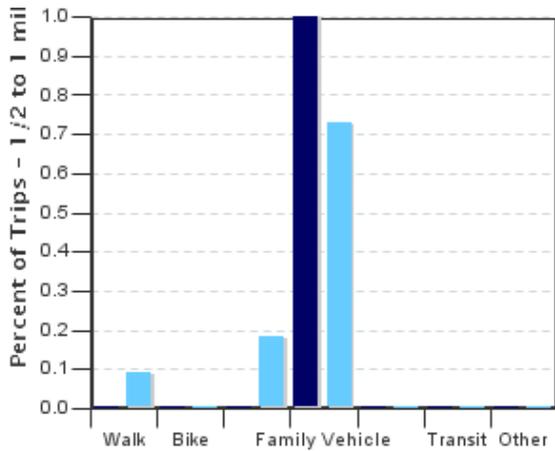

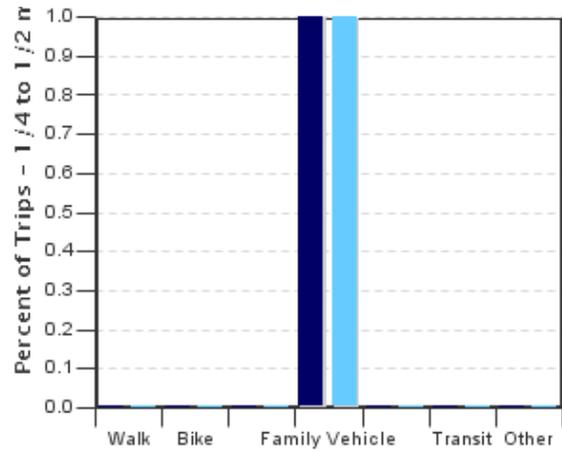

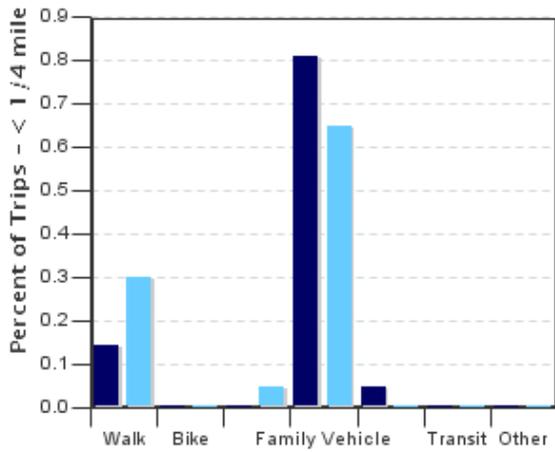

Time of Trip	Number of Trips	Walk	Bike	School Bus	Family Vehicle	Carpool	Transit	Other
Morning	88	3%	0%	6%	89%	2%	0%	0%
Afternoon	87	8%	0%	11%	79%	1%	0%	0%

No Response Morning: 1

No Response Afternoon: 2

Percentages may not total 100% due to rounding.

# Typical mode of school arrival and departure by distance child lives from school

No response: 4

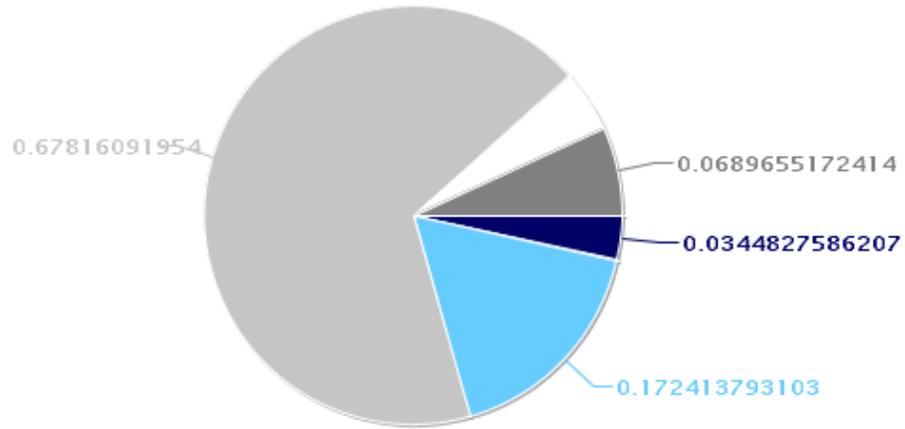

Note:

--Factors are listed from most to least influential for the 'Child does not walk/bike to school' group.

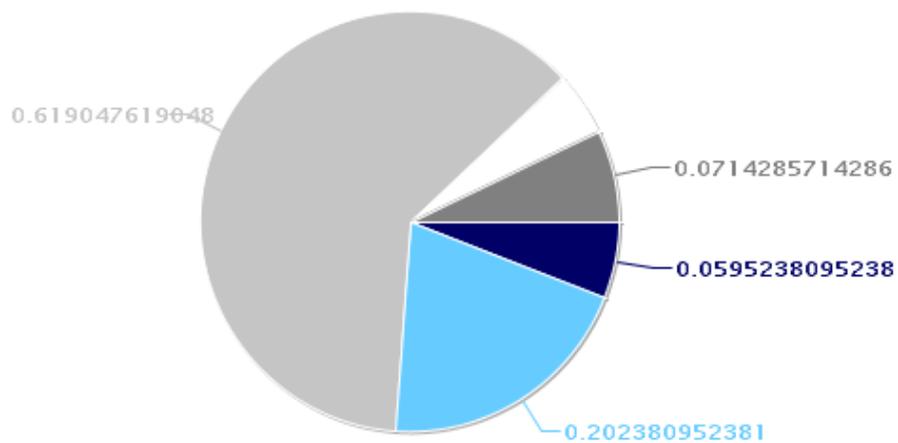

--Each column may sum to > 100% because respondent could select more than issue

--The calculation used to determine the percentage for each issue is based on the 'Number of Respondents per Category' within the respective columns (Child does not walk/bike to school and Child walks/bikes to school.) If comparing percentages between the two columns, please pay particular attention to each column's number of respondents because the two numbers can differ dramatically.

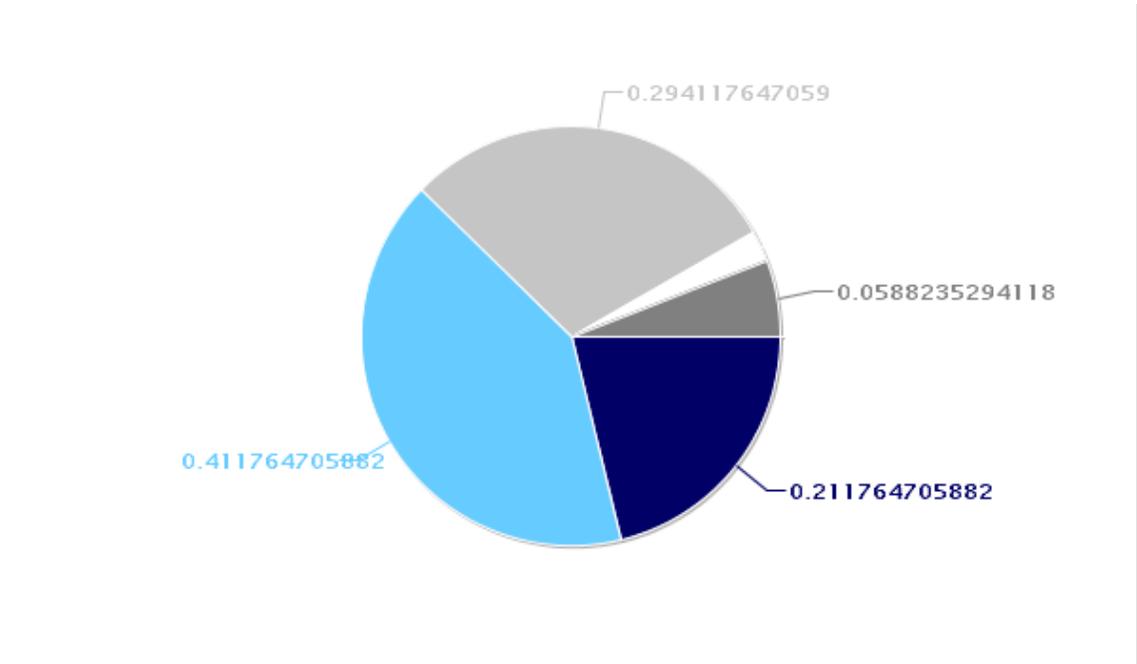

Parents' opinions about how much their child's school encourages or discourages walking and biking to/from school

Parents' opinions about how much fun walking and biking to/from school is for their child

Parents' opinions about how healthy walking and biking to/from school is for their child

## Comments Section

SurveyID	Comment
1209531	We need to be more courteous at schools when driving through
1209542	My child feels responsible about herself walking home. also she would also be with her classmates or friends from school. The only thing that worries me is crossing at traffic light.
1209545	Our drivers have bad habits. Driving etiquette should be enforced in drivers ed. People have bad attitudes when "we" get into our cars. Car safety doesn't mean human inconsideration.
1209572	Biking to school is not safe, dangerous to one student.
1209595	She will walk or bike to middle school since the factors above are not present for that location
1209541	One of the issues that also affected my decision to not allow my child to walk or bike to/from school is that my child is a female walking or biking alone
1209546	We live in Hanamaulu. if My daughter was across the street from Wilcox then it's a possibility. But people drive crazy on the island.
1209547	We are out of district. We have an exemption so can not answer properly.
1209571	We need to encourage the children walking and biking to/from school. It is good for children healthy.
1209576	Lack of sidewalks
1209585	Suggestion: crosswalk between the "old police station" and the old court house should be lighted up. That's a very dangerous crosswalk. The lighted up crosswalk sign can catch more drivers attention when pedestrians waiting/crossing to walk. Please add this, don't wait for an accident t happen.
1209580	They sometimes walk to school but we watch them/ walk with them to the crosswalk
1209589	We live too far, but middle school (attending next year) is much closer, but we'll see. Truly depends on the maturity level of my child.
1209594	I allow my child to walk to his grandmothers house after school, when he does. It's right across the street from the school and is a safe route
1209568	I think having my child or any child walk or bike to school is very dangerous. Especially if they, we live far. There is a lot of dangerous things that can happen to and from school. It's a bad idea to let your child walk or bike to school.
1209534	Do you walk/bike to work? Then why let your child?
1209553	We live way to far from my child's school to answer these questions
1209577	For my child to walk to school would take 35-45 minutes. No safe route to walk and on rainy days, he'd arrive soaked. walking would be nice, but not to Wilcox Elem.
