Kaua‘i Fire Department to conduct prescribed burns in Anahola Wednesday

ANAHOLA – The Kaua‘i Fire Department Fire Prevention Bureau will be conducting prescribed burns in Anahola near the surf break commonly known as Crack 14 on Wednesday, Oct. 27. The burn will cover approximately 8.2 acres.

“The prescribed burns are part of the ongoing fire mitigation efforts to control brush fires in the Anahola area,” said KFD Fire Prevention Capt. Jeremie Makepa.

The prescribed burns have been approved by State officials and will be conducted when the weather allows. KFD prevention officials anticipate prescribed burns to also occur in November and December, with public notifications to follow. The burn permit is good for one year and covers 400 acres of land.
