Water conservation request issued for Wainiha-Haena customers

WAINIHA – The Department of Water (DOW) has issued an immediate water conservation request for customers located in Wainiha and Haena; until further notice, due to a recent electrical power outage affecting the well site. As a precautionary measure, customers are asked to limit water use to essential uses only; such as drinking, cooking and sanitation needs in order to avoid a water outage.

Water conservation measures include refraining from car washing and turning off appliances that automatically draw water; such as irrigation systems and ice machines, until the conservation notice has been lifted.

An update will be provided when new information is received.
