### **Water conservation notice issued for Hanalei until further notice**

(10 p.m.) HANAIEI - The Department of Water (DOW) has issued a water conservation notice for Hanalei customers until further notice due to low water storage tank levels caused by a severely damaged hydrant in the area. Customers are advised to limit water use to essential needs only and to keep toilet flushing to a minimum.

Some customers may be experiencing low water pressure to no water service.

Water conservation measures also include turning off fixtures that automatically draw water such as irrigation systems and ice machines.

DOW crews are monitoring tank levels and an update will be posted when the conservation notice is lifted.
