Water conservation request issued for Eleʻele until further notice

(6 a.m.) ELE’ELE- The Department of Water (DOW) has issued a water conservation request for Eleʻele customers until further notice due to an issue affecting the booster pumps on the Eleʻele water system. Customers are advised to limit water use to essential needs only; such as drinking, cooking and sanitation needs in order to avoid a full water service outage.

Water conservation measures also include turning off fixtures that automatically draw water; including ice machines and irrigation systems and refraining from car washing.

An update will be provided when the water conservation request has been lifted.
