Seal Coating Roadwork in Ulu Ko Subdivision scheduled through Jan. 23, 2020

LĪHU'E – The Department of Public Works is announcing that GP Maintenance Solutions will be doing roadwork in Ulu Ko Subdivision on weekdays through Jan. 23, 2020.

The scope of the work is seal coating the roadway. Portions of the subdivision through Jan. 23, from 7:30 a.m. to 6 p.m. will be affected. No vehicle access on the roadway, or grassy shoulders within the County Road Right-of-Way. No entering or exiting until the seal coat is dry and road reopened. No walking on wet seal coat. The work zone will be coned off to prevent anyone from driving or stepping on wet materials.

Please see map below for specific locations and be on the lookout for “No Parking” barricades and signs. This will be an indication that work is in the area. Please make the appropriate arrangements to accommodate the necessary road work. Vehicle parking on the streets and grassy road shoulders within the work zones during seal coating will not be allowed. Any vehicle left on the street or grassy road shoulders within the work zones after 7:30 a.m. will be towed at the owner's expense. Work may be extended pending weather conditions. Vehicles and pedestrians should stay off the wet seal coating until the road is re-opened.

For questions regarding this project, please call GP Maintenance Solutions at 808-864-0323.
