SECTION 5. Chapter 5A, Article 11, Kaua'i County Code 1987, as amended, is amended by adding a new section to be appropriately designated and to read as follows:

"Sec. 5A-11.30 Commercial Alternative Energy Facilities Exemption.

(a) Definitions. When used herein:

"Director" means the Director of Finance or the Director's duly authorized representative;

"Commercial Alternative Energy Facility" means an energy production facility that generates, stores, or distributes energy from alternative renewable energy sources with the selling of more than twenty-five (25%) percent of the energy produced to the electric utility.

"Energy Generation Improvements" refers to machinery, equipment, structures, transmission lines, generators, associated prime movers, measuring and regulating equipment, and any other physical improvements that are normally operated together to produce electric power, but does not include the owner's residence or other property improvements that are non-essential to the production, storage, or distribution of alternative renewable energy.

"Alternative Renewable Energy Source" means a form of energy or matter that is capable of being converted into useful and marketable forms of energy, including electricity, from sources that are not deemed exhaustible. The term includes but is not limited to:

- (i) Solar energy;
- (ii) Geothermal energy;
- (iii) Conversion of Biomass;
- (iv) Fuel Cells that do not require hydrocarbon fuel;
- (v) Hydroelectric generators;
- (vi) Methane from solid waste.

(b) Eligibility; Application. Energy generation improvements shall be 100% exempt from real property taxes and the lands underlying areas that are designated and approved for commercial alternative energy facilities shall be 50% exempt from real property taxes provided the form of energy being produced originates from an alternative renewable energy source; the commercial alternative energy facility sells at least twenty-five (25%) percent of the energy being produced at the facility to the electric utility; the energy generation improvements are located on and affixed to the property under consideration for the exemption; and, the property owner, lessee, or qualified representative applies for the Commercial Alternative Energy Facilities Exemption on or before September 30 of the year preceding the tax year in which the exemption is being sought.

The Director shall prescribe the form of the application for the exemption which shall be filed with the Director by **September 30** of any year and shall contain such information as the Director prescribes by rules. The application shall include, but not be limited to the following:

- 1) Name and contact information of applicant;**
- 2) Physical address and tax map key number of said property or properties;**
- 3) A site plan, including defined land area(s), indicating where the commercial alternative energy facility and associated energy generation improvements are located;**
- 4) A copy of the approved use permit for constructing (or adding additional energy generation improvements to) the commercial alternative energy facility;**
- 5) Photographs of the energy generation improvements; and**
- 6) Copies of energy purchase agreement contracts with the electric utility, if any.**

The application form must be signed by the property owner or duly appointed legal representative.
