The Great Resignation—No Significant Impact to County of Kauai
As was briefly discussed in a past commission meeting, news outlets continue to report on The Great Resignation, causing businesses to be understaffed and negatively impacting operations. SHRM (Society for Human Resource Management) reported on June 1, 2022 that April was the eleventh consecutive month that more than four million workers left their jobs, representing 2.9% of the labor force.
Fortunately, the County of Kauai is not experiencing a greater number of voluntary resignations or retirements than in years past. The following tables provide the numbers of resignations and retirements and, as can be seen, there was no dramatic change since the beginning of COVID-19 in March 2020 through present.

This data supports the view that it is currently not necessary to recommend the creation of new policies that would address staffing needs and enhance retention.

[Goal 1, Objective G1A., Success Measurements 2 and 4 – ongoing]

**Grievances and Grievance Arbitration Hearings**

The HRD attended a grievance arbitration hearing from June 14, 2022 through June 16, 2022 that pertained to a termination from employment. The matter did not conclude so it was rescheduled to resume on Saturday July 16, 2022.

The HRD is scheduled to attend a grievance arbitration hearing from July 18, 2022 through July 22, 2022 pertaining to an unpaid disciplinary suspension.

The HRD attended a step 2 grievance on June 8, 2022 pertaining to a disciplinary written warning.
The allegations in these grievances do not reveal evidence of any frequent root causes that would benefit from a training plan for departments. The incidents are from different departments and divisions and the conduct is not similar.

[Goal 4, Objective G4A., Success Measurement 1 – ongoing]

**HRMS Project:**
The HRD continues to attend the numerous HRMS meetings, which average four to six per day, Monday through Friday. Some meetings start as early as 6:00 a.m. due to the vendors’ international workforce.

Testing of the various employment and payroll scenarios is close to completion. It will inform if we have met the thresholds established for variances so that the final tenant for Go-Live can be built. “Roadshows” for each department, which provide an overview of the Workday system, are happening in June with HR staff attending each department’s first Roadshow. July will entail reviewing and testing the “job aids” (how to use features in Workday) in preparation for training all employees, hopefully beginning in August. There will be in-person training, virtual training, frequently asked questions, and job aids. In addition, during the last quarter of the calendar year, employees will be able to enter their work schedules and timesheets into the new system, as if it were live. The information will then be moved over to the current payroll system which will continue to issue paychecks through December 31, 2022. This will give employees many weeks of practice prior to the go-live date.

[Goal 2, Objective G2A., Success Measurements 1 and 2. – ongoing]
[Goal 3, Objective G3A & G3B., Success Measurements 1, 2, 3.– ongoing]

**HR Trainings:**
EEO Coordinator provided two accommodation trainings for new hires during each month. Also provided ADA technical guidance to seven departments

<td><strong>G2A. Complete the process of implementing new HRMS.</strong></td>

<td>Complete the migration to the new HRMS in order to realize the benefits of the project.</td>
<td>4/6/21-G2A-1&amp;2: Notices of award were issued on February 17, 2021 to four (4) vendors: Accenture, LLP (integrators), Workday, Inc. (software solution), ADP, Inc. (tax services), and TimeClock Plus, LLC (Fire &amp; Police scheduling). We did not receive any protests to these awards and proceeded with the review of the contracts, statements of work, and services agreements with the vendors. We are continuing to work with our attorneys, Finance Department, and the vendors on acceptable terms of these contracts. Once the contracts are signed, the implementation of the new system can commence. The go-live date for the new HRMS system is still projected for January 1, 2022. 5/4/21-G2A-1&amp;2: Continued review by attorneys for the vendors and County attorneys to reach agreement regarding acceptable contract terms. 6/8/21-G2A-1&amp;2: Contracts with two of the four HRMS vendors have been executed, Accenture, LLP (integrators), Workday, Inc. (software solution). Contracts for the remaining two vendors, ADP, Inc. (tax services), and TimeClock Plus, LLC (Fire &amp; Police scheduling), are being reviewed by the attorneys for the vendors and County attorneys to reach agreement regarding acceptable contract terms. Due to significant delays in reaching agreement with the two primary vendors, mostly due to attorneys’ review and disagreements over specific contracts terms, the go-live date has been postponed from January 1, 2022. Because the vendors require a start date only on the first of a quarter, the go-live date will now occur on April 1, 2022. The Mayor has been apprised and commented that due to the magnitude of this project, delays are understandable and the April 1, 2022 go-live date is acceptable. 7/6/21-G2A-1&amp;2: Training has begun for the core implementation team, with a kick-off meeting with all department leads and Accenture, LLP (integrators) and Workday, Inc. (software solution) on June 16, 2021. The Executive Project Team are attending Workday trainings pertaining to their functional areas while also completing implementation tasks. Over the next four (4) months, the Kaua’i Workday tenant (system) is being configured for unit testing which is anticipated to begin in October. Contracts for the remaining two vendors, ADP, Inc. (tax services), and TimeClock Plus, LLC (Fire &amp; Police scheduling), are being reviewed by the attorneys for the vendors and County attorneys to reach agreement regarding acceptable contract terms. Accenture/Workday are using a project management software system and certain team members have been trained on the new system. Others will be trained via train the trainer method. 8/3/21-G2A-1&amp;2: Training continues for the core implementation team. Human Resources (HR) staff, as well as other department leads, are participating in many days and hours of training. Unfortunately, due to the trainers being located in multiple time zones on the mainland, some training sessions begin at 5:30 or 6:00 a.m. The vendors are not able to adjust their trainers’ schedules to work into the evening hours; hence, we must accommodate with early sessions for many of the trainings. Nevertheless, we have willing participants eager to learn the new system. The HR staff continues to meet and discuss with County of Maui staff since the new HRMS system is mirrored after Maui’s product. It is a benefit to the County of Kaua’i to learn from Maui’s experience. Contracts for the remaining two vendors, ADP, Inc. (tax services), and TimeClock Plus, LLC (Fire &amp; Police scheduling), continue to be reviewed by the attorneys for the vendors and County attorneys to reach agreement regarding acceptable contract terms. Accenture/Workday, who are using a project management software system, have noted that we are currently on schedule. 8/31/21-G2A-1&amp;2: The fourth and final vendor contract with ADP has been executed. 10/5/21-GSA-1&amp;2: Most implementation team members have received the required training. The next phase of the project entails testing of uploaded data to ensure accuracy. It is anticipated that certain individual employees in DHR and IT will be required to spend three to six hours per day during October/November on testing. In addition, sixty-two Change Ambassadors have been selected to assist with being the eyes and ears for the various departments and to assist with marketing the product and training employees on how to use the system. Accenture/Workday, who are using a project management software system, continue to report that the project is on schedule. Go-live date is April 1, 2022. 12/7/21-G2A-1&amp;2: The County of Kaua’i’s implementation team is currently working with our vendor, Accenture, concerning changes that need to occur to the Maui configuration of the Workday tenant. During the past two months of unit testing, the team has identified numerous examples of County processes and job profiles that differ from Maui and must be aligned to Kauai. As such, a change order will be submitted that will incorporate these changes. It will also impact the go-live date, which must start on the first day of a quarter. Both County and Accenture agree that this is the best course to assure success. 01/04/22-G2A-1&amp;2: Continued training of the core implementation team has been on-going with Human Resources (HR) staff, as well as other department leads, participating in many days and hours of training. Continued data conversion from old system to the new has occurred over a number of weeks, with both HR and IT staff involved along with the vendors, followed by making necessary corrections. Continued testing of uploaded data with various employment and payroll scenarios has been on-going over a number of weeks with thousands of test scenarios created and tested. Certain employees in HR and IT have spent three to six hours per day doing testing.</td>

No additional changes from last month’s report regarding training, data conversion, testing, and working with the field, which are repeated below.

Continued training of the core implementation team has been on-going with HR staff, as well as other department leads, participating in many days and hours of training.

Continued testing of uploaded data with various employment and payroll scenarios has been on-going over a number of weeks with thousands of test scenarios created and tested.

Update on implementation and field trainings will be published in the near future. Coordinating with the Mayor’s office for information sharing.

05/03/22-G2A-1&2: Change Order agreed to wherein additional services will be provided by the vendor assisting with preparing for implementation, e.g., building a training module to allow employees to learn the system and practice entering timesheets, overtime pay, and leaves of absence, with similar trainings for supervisors who must approve the entries. Time-line for go-live is postponed until January 1, 2023—go-live needs to occur at the beginning of the quarter and not in-between.

Communication to employees is occurring now regarding details concerning the change.

06/07/22-G2A-1&2: The HRD is now attending virtually allow HRMS meetings, which average four to six per day, Monday through Friday. The HRD is working closely with the two Project Managers and the Core Project Team (six members) to assure that the project is on-schedule, decisions are made, and that the implementation is successful.

Continued data conversion from old system to the new has occurred over a number of weeks, with both HR and IT staff involved along with the vendors, followed by making necessary corrections.

Continued testing of uploaded data with various employment and payroll scenarios has been on-going over a number of weeks with thousands of test scenarios created and tested. Once completed, the vendor will begin the final build of the new system, which will take many weeks to build.

Expanded training will begin for all employees and managers. There will be in-person training, virtual training, as well as “job aids” which give an overview of what is required in order access and input employee information into the new system. In addition, during the last quarter of the calendar year, employees will be able to enter their schedules and timesheets into the system, as if it was live. The information will then be moved over to the current system which will continue to issue paychecks through December 31, 2022. This will give employees many weeks of practice prior to the go-live date.

Parks & Recreation—To address workplace issues, HR coordinated individual employee trainings with WorkLife Hawaii on best practices for addressing employee/team conflict.  
Department of Water—At the DOW’s request, HR developed a training program and provided training to DOW supervisors regarding timesheets for various bargaining unit employees.  
Police—HR is developing a training program, with handouts, regarding policy against discrimination, harassment and retaliation.

Goal #4 – Review employee complaints in an effort to identify common root causes and implement appropriate training programs designed to address the most frequent root causes.

**Objectives**

G4A. Review complaints filed over the past five years, if possible, to identify most frequent root causes.

G4B. Work with Department Heads and key management personnel to review most frequent root causes and assess related training needs.

G4C. Based on assessment, develop a training program for County of Kauai departments to address highest priority root causes.

**Success Measurements**

1. Five year, if possible, review is completed and frequent root causes identified.
2. Department Heads and key management personnel participate in the development of the training plan.
3. A training plan/schedule is developed and implemented.
4. Claims are reduced over time.
5. Quarterly progress reports are provided to the CSC including statistics on the number of HR related litigation/lawsuits and settlements or awards that they are aware of. Report shall also include statistics by category on separation, termination, retirements, etc. to identify trends.

**Desired Outcome**

Employee complaints are reduced for the County of Kauai, saving money, time and resources and creating a more positive work environment for all employees.

**Status**

5/4/21-G4A&G4B-1&5:

The following is the first quarterly report regarding employee complaints, root causes, and training:

**Review of Previous Complaints**

- HR has maintained a directory of complaints filed by employees since January 2020. Previous complaints are located in multiple folders and/or directories, with some under names of HR staff assigned, thus, efforts to review five years back, if possible, will take longer.
- Root causes—Over half of the complaints submitted to HR since January 2020 pertain to one or more of the following allegations: harassment, discrimination, hostile work environment, retaliation. The remaining complaints involve allegations against management such as unprofessional conduct, misuse of grant funds, disclosure of personal information, recruitment and/or civil service violations, and wrongful termination.
- For the next quarterly report, there will be further analysis, including if the complaints were substantiated, and options for reducing future complaints.

**Training**

- For the next quarterly report, there will be further analysis to determine if and when further training should occur with respect to the COK’s policy against Discrimination, Harassment, and Retaliation. All employees are trained upon hire and receive the policy. Periodic updated training within individual departments occur as needed. There have been additional methods used in the past including mediation and talk story sessions to address the issues as well.

8/3/21-4: HR is not aware of any new litigation/lawsuits/settlements related to HR matters. This serves as the second quarterly progress report for Goal 4.

10/5/21-G4A,G4B-2&3: DHR is aware of one new lawsuit related to non-selection and alleged race discrimination. Numerous Internal Complaints were filed by employees in one department/section regarding workplace issues such as bullying, harassment, behavioral issues, etc. during August and September. DHR is working directly with the Deputy Director and Division/Section heads to address the issues. EEO/ADA Coordinator is also conducting investigations concerning the various issues.

12/07/21-G4A&G4B-2&3: DHR is aware of one new lawsuit related to non-selection and alleged race discrimination. DHR has compiled data from the past six years regarding the type of employee complaints received in an effort to identify common root causes and implement appropriate training programs designed to address the most frequent root causes.

**YEAR**  | **Age** | **Race** | **Sexual** | **Wkpl Violence** | **Retaliate** | ***Other** | **Total**

*e.g., resume falsification, improper use of authority, unfair treatment, improper handling of grant funds, unprofessional management, violation of Civil Service Laws, promotion process unfair, wrongful termination, Drug and Alcohol testing discriminatory practices, applicant claims to meet minimum qualification requirements, applicant denied entry to testing due to late arrival, questions on Fire Captain exam vague or misinterpreted.

01/04/22-G4A-1/4/5: No new complaints or lawsuits received since the submission of last month’s meeting.

03/03/22-G4A,G4B,G4C-2,3,4: In addition to reviewing internal complaints submitted by employees, the HRD is required to handle either Step II or Step III grievances (depending upon the bargaining unit) and render decisions as the last step prior to grievance arbitrations. After the decision is issued, the employee/union may elect to take the matter to grievance arbitration. Over the past two months, there has been an increase in grievance filings. An analysis by the HRD shows that they are being filed by different unions, i.e., UPW, HGEA, SHOPO, and HFPA, and for many different
reasons, e.g., suspensions/terminations, transfers/promotions, temporary hazard pay, holiday pay, etc. There is no specific pattern detected, nor are they coming from one particular department. With respect to the grievances that proceed to arbitration, there is some evidence that the unions are pursuing matters which, in the past, would not have warranted the time and expense of arbitration, i.e., grieving written warnings. As such, at present there is no evident root causes, which would warrant development of training plans for the departments that would result in reduced grievances/arbitrations.
