Kaua'i County Tsunami Study by University of Hawai'i

Kaua'i, Hawai'i Collaborators Report

General Information

The purpose of this report is to give our collaborators on Kaua'i a look at the first phase of the US Tsunami Awareness study prepared by the University of Hawai'i. This is a preliminary report and a more in depth report will be available at the end of the entire project. 148 households participated in this study with 92.5 % of participants defining themselves as full time resident, and 78.8 % owning their home.

The percentages in the tables below represent only those respondents who had valid responses. Participants who did not answer a question or who choose multiple answers are not included in the tally.
