December 20, 2019

Honorable Mayor Derek S.K. Kawakami,
Honorable Arryl Kaneshio, Council Chair
And Members of the Kaua'i County Council
County of Kaua'i
4444 Rice Street
Līhu'e, Hawai'i 96766

Dear Mayor Kawakami, Chairman Kaneshiro, and Members of the Council:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the County of Kaua'i (County), State of Hawai'i (State) for the fiscal year ended June 30, 2019.

The CAFR was prepared by the Department of Finance, Accounting Division (Accounting Division). The accuracy of the financial statements and the completeness and fairness of their presentation are the responsibility of the County government. We believe the data presented in the CAFR are complete and accurate in all material respects and are provided in a manner designed to present the financial position and results of operations of the County. All disclosures necessary to convey the maximum understanding of the County's financial activities have been included.

The Department of Finance is tasked with the responsibility of establishing and maintaining an internal control structure and process that is designed to ensure that the assets of the County are protected from loss, theft, or misuse. Furthermore, it is the responsibility of the Accounting Division to compile adequate accounting data to allow for the accurate preparation of the financial statements in conformity with generally accepted accounting principles (GAAP).

Management is required to make decisions and judgments as to the concept of what constitutes reasonable assurance in reviewing the internal control mechanisms. Management must also weigh the cost of the control against the benefit that will likely be attained.

This report includes all funds of the County, including its component unit, the Department of Water (Department), established by the County Charter as a semi-autonomous body of the County government. This component unit is included in the County's reporting entity for fair presentation of the basic financial statements and to be in conformity with GAAP. The Board of Water Supply is appointed by the Mayor and is accountable for the activities of the Department. It would be potentially misleading if omitted in the County's financial reports because of its existing debt issuance, common employee benefits, and other fiscal dependence.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

The Reporting Entity

The County of Kaua'i, commonly known as the "Garden Island", includes the populated island of Kaua'i and Ni'ihau and has over 72,000 residents. The island of Kaua'i has an area of 550 square miles and approximately 137 miles of coastline. Ni'ihau is a privately owned island encompassing approximately 70 square miles and is inhabited primarily by native Hawaiians who work on the Robinson Family ranch. Owners of the island grant limited access to the general public.

Kaua'i is the fourth largest island and is the smallest in size, population, and operating budget amongst the State's four counties. The County's largest industry is tourism. The island's scenic and natural beauty continue to draw tourist to attractions such as, the Waimea Canyon or the "Grand Canyon of the Pacific", the incomparable Na Pali Coast, with its secret beaches and hidden valleys, the Fern Grotto reached by riverboat cruises, and many others.

The County has operated under the Mayor-County Council form of government since 1969. The executive branch of the County is headed by the Mayor who is elected on a non-partisan basis for a four-year term, with a two-term limit. The legislative branch is the County Council which is composed of seven members who are elected at-large on a non-partisan basis, with a limit of four consecutive two-year terms.

There are no subordinate or separate municipal entities within the County's jurisdiction. All powers of the County shall be carried into execution as provided by its Charter or by ordinance of the County Council and Mayor. The State's constitution sets limits on total bonded indebtedness of the County. Under the Constitution and laws of the State, the full faith and credit of the County are pledged to the payment of the general obligation bonds issued. For the payment of the principal and interest on the bonds, the County has the power and is obligated to levy ad valorem taxes.

On January 1, 2019, the County authorized the imposition of a county surcharge of 0.5% on State general excise (GET) and use tax. The additional surcharge is currently being used to offset operational and capital costs of public transportation systems, including roadways, public buses, pedestrian and bicycle paths, and to comply with Americans with Disabilities Act of 1990 with respect to public transportation systems.

The County provides a full range of municipal services. These services include Public Safety (police, fire, emergency management, animal welfare, outreach program, highway safety grants, drug related grants, liquor control, lifeguards), Sanitation (wastewater, recycling and solid waste operations), Public Works (engineering, building and construction inspections and approvals), Culture and Recreation (public pools, parks and beaches, golf course, neighborhood centers, recreation programs, beautification program, auditorium, stadium, janitorial, and repair and maintenance of its facilities), Public Welfare (elderly affairs, transportation, housing, community development and assistance programs), Highways and Streets (highway repairs and maintenance, street lights), and General Government (mayor's office, council services, finance, prosecuting attorney, planning, human resources, economic development, and county attorney). The proprietary funds are accounted for separately from the above expense functions because combining the costs would obscure the matching of revenues and expenses of their required fund classification.

The Reporting Entity (continued)

Services provided by the State are excluded from this report. The State provides the following services: educational, health and welfare benefits, airport and harbor functions, hospitals, State highway system and the judicial system.

The major revenue sources of the County consist of the following: real property tax, transient accommodation tax (TAT), county surcharge on GET, public service company tax, fuel tax, franchise tax, motor vehicle weight tax, commercial and residential refuse fees, and landfill disposal fees. Other revenue sources include Federal and State grants, construction fees, development and impact fees, golf, and wastewater user fees. There are no personal taxes levied by the County.

Economic Conditions and Outlook

In April 2018, historic levels of rain occurring within 24 hours triggered flooding and landslides to Kaua'i's North Shore. The historic flooding was the worst natural disaster to occur on Kaua'i since Hurricane Iniki in 1992. At the time of this event, Kaua'i was the top news item across the world. Flash flooding and landslides caused major damage to roads and bridges, including Kūhiō Highway, the North Shore's main road. The road closure completely isolated the remote towns of Wainiha and Hā'ena. Multi-agency relief efforts were in full force to evacuate residents and visitors stranded on the North Shore.

Governor David Ige issued an emergency proclamation and subsequently signed SB 192 (Act 12) into law and released \$25 million to assist with approved disaster relief projects. A Presidential Disaster Declaration soon followed, providing federal funding for emergency repairs of public facilities damaged during the flooding. Kūhiō Highway reopened in June 2019, but recovery efforts of local farmers and communities continue as the eleventh supplementary emergency proclamation was signed on Friday, October 25, 2019.

Kaua'i's economic growth is expected to see a slight decline than what was experienced in the past couple of years. Growth in the near-term will be moderate for both the visitor industry and the overall economy. More than any other county, Kaua'i's economy relies heavily on the visitor industry. The home vacation rental (HVR) market continues to play an increasingly important role on Kaua'i.

Strong visitor numbers are imperative and needed to support businesses that are either directly or indirectly involved in the visitor industry. While growth in the visitor industry is beneficial to the overall island economy, local county government only realizes a portion of the direct benefit, such as revenues generated from TAT. Over the years, the rapid growth in visitor numbers and the length of visitor stays have led to increasing concerns over long-term infrastructure challenges and roadway congestion. The adverse impacts of visitor growth continue to pose a problem for Kaua'i. The additional revenue received from the county surcharge on State GET revenue will be utilized to improve County local roadways and public transportation services.

Major airline carriers, such as Delta, United, Alaska, and Hawaiian Airlines continue to add flights and provide additional airline seats to its current routes to Kaua'i and the State. Southwest Airlines landed its inaugural flight at Honolulu's Daniel K. Inouye International Airport in March 2019 and started direct interisland routes to and from Kaua'i in November 2019.

Economic Conditions and Outlook (continued)

While Kaua'i's primary economic reliance is tourism, a continued focus to diversify Kaua'i's economy has been on agriculture and renewable energy sources to help reduce the island's dependence on imported foods and fossil fuels, as well as reduce its overall cost of living over time.

Tourism

In August 2018, the Kaua'i Tourism Strategic Plan for 2019-2021 (KTSP) was finalized and published. The plan was a collaborative effort with the Office of Economic Development, the Kaua'i Visitors Bureau, the Hawai'i Lodging and Tourism Association, Strategic Plan and Committee members, and the Kaua'i community at large. The plan outlines a range of goals and measures to provide a forward-looking approach to tourism and respond to concerns related to an increase in the number of visitors to the island and perceived impacts of tourism on residents' quality of life. The plan focused its key strategies on actions needed to better manage tourism and address challenges related to inadequate infrastructure, resource limitations, staffing needs and communication. The plan also recognized a need to refocus away from an emphasis on growing tourism and instead focus on encompassing the visitor experience, the impact on local communities, and the welfare of industry employees.

Kaua'i is marketed as a destination for relaxation and rejuvenation, and it becomes the island's challenge to live up to that promise. For those who visit Kaua'i for a unique cultural experience, the visitor industry strive to offer an authentic Hawaiian cultural experience.

Per Hawai'i Tourism Authority, the number of visitors through September 2019 amounted to approximately 1 million visitor arrivals, who stayed an average of 7.4 days and spent \$188.30 per day. As mentioned previously, growth in the near-term is expected to be moderate for the visitor industry.

Film and Technology

The Kaua'i Film Commission (KFC) was created to enhance Kaua'i's position as a premier location for film and media production. The KFC supports film, television, and commercial productions of all sizes and budgets by providing one-stop support services including location and troubleshooting assistance, permits for filming at county owned facilities, and access to resources including a digital location library. The KFC also assists as a liaison between the production community and all levels of government including local, state, and federal jurisdictions to eliminate barriers to filming in-state.

The primary objectives of the KFC are to:

- Encourage a production-friendly environment to retain/grow production jobs and economic activity statewide while remaining committed to ensuring the safety and welfare of the local community and environment.
- Further develop skills and competencies of Kaua'i based production crew, both above and below the line.
- Advocate for film funding and financial support through use of State tax incentives.
- Develop efficient and effective marketing and communication to promote the Kaua'i film sector through collaboration with Film Offices of the Hawaiian Islands (FOHI) and active participation in industry trade shows and conferences.

Film and Technology (continued)

The KFC works closely with the FOHI in setting marketing and strategy objectives for the following year. Due to budget constraints, working in collaboration with the FOHI allows for a stronger presence, while minimizing travel costs. Upcoming conferences include: the AFCI (Association of Film Commissioners International) held in Los Angeles; the AICP (Association of Independent Commercial Producers) held in New York City; the AFM (American Film Market) in Santa Monica, in collaboration with Department of Business, Economic Development and Tourism's Creative Industries division; the FOCUS International – the meeting place for International Production in the UK; and South by Southwest, held in Austin, Texas.

One of Kaua'i's biggest film productions in 2019 was Fast & Furious Presents: Hobbs & Shaw. Film production occurred on the south side of Kaua'i in March of 2019 with a budget of over \$40.2 million starring Hollywood's hottest star, Dwayne "the Rock" Johnson. Pre and post production lasted a total of six months. "Too Much Life" a full length local production by the Kaua'i Film Academy continues to wrap up their production for release in early 2020.

Other productions on Kaua'i included various reality and television shows such as: HGTV's Hawai'i Hunters, Hawai'i Life, commercials, print ads, and documentaries.

The Kaua'i Film Commission website www.filmkauai.com serves as a key resource and contact point for filmmakers seeking information about film locations on Kaua'i and also provides film-related news and information to the media via press releases through the County's Public Information Office.

Real Estate and Construction

As mentioned previously, Kaua'i's economic growth in the near-term is expected to be moderate; however, the construction industry continues to steadily increase. Overall growth in this industry can be attributable to rebuilding following last year's historic floods and a moderate stream of construction projects from both public sector and residential development.

Real estate sales were stable in 2018, but declined in 2019. Due to the increasing prices, potential buyers are holding off on purchasing homes.

According to the County's Department of Public Works, Building Division statistics, the County issued 1,407 building permits with a total value of \$246.2 million, another indication that Kaua'i's real estate and construction sector remains strong.

There were several major renovation projects in the current year. The County continues working on revitalizing Rice Street as a walkable, bike-friendly mixed use community. This project is being funded by US Department of Transportation TIGER (Transportation Investment Generating Economic Recovery) grant. Sheraton Kaua'i plans to build a new timeshare wing. Kōloa Village, which will include 47,000 square feet of commercial space and 36 residential units, is currently underway.

Real Estate and Construction (continued)

Due to the island's housing shortage, several County affordable housing projects are in pre-development or in construction phase. The Koa'e workforce housing development in Po'ipū commenced in 2018 and is scheduled to be completed in 2020. The County's Lima Ola workforce housing project is underway and will add 550-units upon completion. Pua Loke, a 60-unit project in Līhu'e is projected to begin in 2020. Lastly, Waimea Huakai affordable housing project filed a draft environmental assessment and will be built in two phases, adding 35 one to three bedroom units and 32 single-family homes.

Construction continues at Kohea Loa, a master planned community and a public-private partnership between DR Horton and the County. Ho'oluana is the first of four phases and will include 57 single-family homes, 50 single-family condominium homes, and 44 duplex condominium homes. Ho'oluana phase is now currently selling and once all phases are completed, approximately 440 new homes will be available with a portion designated as affordable units.

Kaua'i Habitat for Humanity continues progress on its 'Ele'ele Iluna subdivision, delivering 20 new homes in Phase II A and builders are currently working on Phase II B.

Agriculture / Energy

Kaua'i is one of the wettest locations in the world and its landscape is fertile and green. More than one-half of the island's acreage is State forest reserves or conservation land.

Seed Corn industry continues to be Kaua'i's lead agricultural crop and its value and economic impact on Kaua'i is significant. There are currently three seed corn operations in the County: DowDuPont Inc., Hartung Brothers, Inc., and Beck's Hybrids. Combined, they have approximately 5,000 acres in production throughout the County. The weather in Hawai'i allows for three to four crop cycles of corn per year as compared to one to two crop cycles per year on the U.S. mainland.

Other agriculture-related companies that Kaua'i can be very proud of include, but are not limited to: Kaua'i Coffee, Kaua'i Shrimp, and Koloa Rum.

Kaua'i Coffee Company is Hawai'i's only vertically integrated coffee company, from orchards to retail. The company uses mechanical harvesting and other techniques to create economies of scale. With over 4 million coffees trees grown on 3,100 acres, Kaua'i Coffee Company is Hawai'i's largest coffee grower and remains the largest coffee plantation in the United States. Kaua'i Coffee Company is the sole producer of more than half of the coffee grown in the United States.

Kaua'i Shrimp is the third largest brood stock supplier in the world with customers in China, Vietnam, and India. Sales continue to climb as their product is distributed and sold in restaurants in the United States and Japan, including Sam's Club and Costco.

Koloa Rum is another success story where the company is taking advantage of synergies between agriculture and the visitor industry and the popularity of their ready-to-drink mixes.

The historic floodwaters endured by Kaua'i's North Shore last year demolished taro crops. Farmers on the North Shore continue to recuperate and work to restore and repair the damages sustained. In a typical year, Kaua'i produces 80% of the State's taro and poi; a staple of the Hawaiian diet and a culturally significant product.

Agriculture / Energy (continued)

Opportunities exist for grass-fed beef and orchard crops for export, but the entry costs in terms of processing facilities are high. They are less high for export substitution, but present a barrier to commercial expansion nevertheless. Kaua'i beef processing facilities are upgrading their plans to meet increasing demand for locally grown grass fed beef. County ranchers are improving their breeding lines in an attempt to develop cattle that thrive on the County's good pasture land freed up from sugar. The intent is to make inroads into the imported mainland beef market. Kaua'i exports approximately 6,000 calves a year while the State imports 250,000 carcass equivalents of finished beef. A large distribution facility in Oahu purchases cattle from Kaua'i for distribution throughout the State. Encouraging Kaua'i's ranchers to sell to local buyers helps to address Kaua'i's goal of food and economic security.

Floriculture and Nursery products on Kaua'i continue to see steady growth over the years.

The County's programs that are housed in OED include, but are not limited to: the County's Sunshine Markets, Kaua'i County Farm Bureau, Kaua'i Cattlemen's Association, Tropical Fruit & Flower Industry, and Kaua'i Grown Programs.

The objective of the County's Sustainability & Energy Program is two-fold: (1) to help the County lead by example in developing, adopting, and implementing sustainable practices for County operations and the island community, and (2) manage and reduce the County's fossil energy use through increased efficiency, conservation, and use of renewable energy.

A leader in renewable energy, Kaua'i Island Utility Cooperative (KIUC) continues to make significant progress of using renewable sources to generate the island's power. In 2019, approximately 55 percent of the electricity generated on Kaua'i comes from a mix of renewable resources (solar, hydropower, and biomass). To date, KIUC has two solar plus battery storage facilities that allows the storage of solar power during the day and can provide forty percent of Kaua'i's evening peak load with dispatchable solar.

Major Initiatives and Achievements

As mentioned previously, the County authorized the imposition of a county surcharge of 0.5% on State general excise (GET) and use tax. The additional surcharge took effect on January 1, 2019 and is currently being used to offset operational and capital costs of public transportation systems, including roadways, public buses, pedestrian and bicycle paths, and to comply with Americans with Disabilities Act of 1990 with respect to public transportation systems.

The County's capital improvement projects that are in-progress, completed, or substantially completed during the year include the Adolescent Drug Treatment Center, Kekaha Landfill lateral expansion Cell 2, Kawaihau elevated boardwalk, Weke Road restoration, Kahiliholo Road and culvert replacement, island-wide sheltered bus stops, Kalawai Park rehabilitation, Po'ipū Beach improvements, and Kekaha Veteran's Cemetery Communal Hall.

The Department of Public Works administers the sewer credit relief program for qualified low-income residential users. A total of 5,834 credits at \$20.00 per month were issued to eligible residential users that amounted to approximately \$117K in savings for households in fiscal year 2019. The General Fund subsidized the sewer credit relief program.

Long-term Financial Planning

No new General Obligation Bonds (GO Bonds) were issued during the current fiscal year. The appropriated balance in the Bond Fund amounted to \$23.8 million. The following major projects have been appropriated for:

Phase I Lima Ola affordable housing project	KFD helicopter hanger
KPAL, KPD training facility	Niumalu bridge replacement
'Aliomanu Road improvements	Veteran's Cemetery improvements
Maluhia and Kōloa Road improvements	Waimea wastewater treatment plant improvements
Land Information Management Plan	Auto shop improvements
KWMCH (Convention Hall) improvements	Hanapēpē Baseyard fuel tank

Budgeting Controls

The County maintains a budgetary control system that enables County departments to comply with legal provisions incorporated in the annual budget ordinance and capital improvement budgets as approved by the County Council.

The County Charter requires that the annual operating budget ordinance be balanced. Financial reports or "Detail Budget Reports" are provided monthly to each department, enabling management to monitor the enacted budget appropriations, including current budget amendments with the expenditures and encumbrances that were charged to the appropriation. The County does not perform formal multi-year forecasts and budgeting. Certain budget amendments need Council approval and are detailed in the operating budget ordinance and charter provisions.

Independent Audit

The County Charter requires an annual financial audit by licensed and independent certified public accountants at least once every two years, or as deemed necessary. The financial statements are audited on an annual basis. The basic financial statements in this report have been audited by N&K CPAs, Inc. The financial statements of the Department, an enterprise fund included in the government-wide financial statements as a discretely presented component unit, were audited by Accuity, LLP. The County is also required to have an annual “single audit” in conformity with the provisions of the Single Audit Act of 1984, as amended, and the requirements of Title 2 U.S. *Code of Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Information pertaining to this single audit, including the schedule of expenditures of federal awards, findings and recommendations, and the report of the independent auditors on the internal controls and compliance with all applicable laws and regulations are included in a separate report and has been audited by N&K CPAs, Inc.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its CAFR for the fiscal year ended June 30, 2018. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

The Certificate of Achievement is only valid for period of one year. We believe our current CAFR continues to meet the Certificate of Achievement Program’s requirements and we are submitting it to the GFOA to determine its eligibility of another certificate. The County has received this award for twenty-six consecutive years.

Acknowledgments

The preparation of the CAFR could not have been accomplished without the commitment, dedication, and efforts of the Accounting Division. We extend our appreciation to the other divisions within the Finance Department and the assistance provided from fiscal personnel in other County departments. We also thank the Mayor and the County Council for their interest and support in planning and conducting the financial operations of the County in a responsible and progressive manner.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Chair and Members of the County Council
County of Kaua'i
Lihue, Kaua'i, Hawai'i

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County of Kaua'i, State of Hawai'i (County), as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Department of Water, which is the discretely presented component unit. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Department of Water, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information for the County of Kaua'i, State of Hawai'i as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund, the Housing and Community Development Revolving Fund and the Solid Waste Disposal Fund for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 17 through 29, the County's proportionate share of the net pension liability on page 108, the schedule of employer pension contributions on page 109, the changes in the net OPEB liability and related ratios on page 110, and the schedule of OPEB contributions on page 111 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual fund financial statements, the Schedules of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and the Schedules of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information

has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and the Schedules of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 20, 2019 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

COUNTY OF KAUA'I, HAWAII
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2019

The management of the County of Kaua'i (the County) offers to readers a narrative overview and analysis of the County's financial activities for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-10 of this report and the financial statements that follow this section.

FINANCIAL HIGHLIGHTS

In June 2015, the Government Accounting Standards Board (GASB) issued Statement No. 75 (GASB 75), *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions* (OPEB). The Statement replaces GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, and GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multi-Employer Plans*. The objective of GASB 75 is to improve accounting and financial reporting by state and local governments for OPEB. It also improves information provided by the state and local government employers about financial support for its OPEB liabilities and a more comprehensive measure of OPEB expense.

The County adopted GASB 75 in fiscal year 2018. In prior years, information surrounding OPEB liabilities were disclosed in the note disclosure and required supplementary information sections of the CAFR. With the implementation of GASB 75, the net OPEB liability is reported on the face of the Statement of Net Position, impacting the reporting and accounting presentation of the County's OPEB liability and ultimately reducing its overall net position.

Changes resulting from GASB 75 requirements apply only to the government-wide financial statements and enterprise funds (Sewer and Golf); it does not apply to governmental funds. The financial reporting impact resulting from the implementation of GASB 75 included a restatement and decreased the County's overall net position.

Additional information related to GASB 75 can be found in Note 13 in the notes to the basic financial statements and required supplementary information other than MD&A.

Governmental Activities – The assets and deferred outflows of the governmental activities exceeded its liabilities and deferred inflows at the close of the fiscal year by \$183.4 million in its government-wide financial statements, an increase of \$11 million from the prior year. Restricted net position decreased \$4.9 million, ending at \$10 million. Unrestricted net position is reported as a negative (\$281.9) million, further decreasing by another negative (\$2.6) million from the prior year.

The following explains the significant changes in net position in governmental activities:

1. Expenses increased by \$11 million and ended at \$245.2 million or 4.7% from the prior year.
2. Program revenues increased by \$32 million and ended at \$86.7 million or 58.6% from the prior year.
3. General revenues and transfers increased by \$12.2 million and ended at \$169.4 million or 7.8% from the prior year.
4. Total revenues exceeded expenses and transfers by \$11 million, increasing net position.
5. Assets, including capital assets, ended at \$773.6 million; an increase of \$10.8 million or 1.5% from the prior year.

COUNTY OF KAUA'I, HAWAII

Business-type Activities – The assets and deferred outflows of the business-type activities exceeded its liabilities and deferred inflows at the close of the fiscal year by \$69.1 million in its government-wide financial statements, a slight decrease of \$0.7 million from the prior year. Restricted net position increased by \$1 million, ending at \$1.4 million. Unrestricted net position is reported as a negative (\$7.2) million, increasing by another negative (\$3) million from the prior year. The business-type activities recorded in the government-wide financial statements are identical to the proprietary funds except for some consolidation of inter-fund receivables and payables within the primary government.

The following explains the significant changes in net position in business-type activities:

1. Expenses increased slightly by \$0.4 million and ended at \$18.6 million or 2.3% from the prior year.
2. Program revenues increased slightly by \$0.9 million and ended at \$14.6 million as compared to \$13.7 million in the prior year.
3. Expenses and transfers exceeded total revenues by \$0.7 million, decreasing net position.
4. Assets, including capital assets, remained relatively flat to the prior year and ended at \$107.2 million.

Governmental Funds – As of the close of the fiscal year, the County's governmental fund financial statements reported a combined ending fund balance of \$165.3 million, an increase of \$16.5 million or 11.1% from the prior year.

The General Fund balance at June 30, 2019 amounted to \$75.1 million, an increase of \$15.8 million from the prior year. The General Fund balance consisted of \$0.5 million in restricted fund balance, \$23.1 million in committed fund balance, \$7.2 million in assigned fund balance, and \$44.3 million in unassigned fund balance. In December 2011, the County established a Reserve Fund Policy maintained within the General Fund. At June 30, 2019, the reserve fund balance amounted to \$45.6 million and is currently reported in committed fund balance (\$15.2 million) and unassigned fund balance (\$30.4 million). Additional information can be found in Note 16 in the notes to the basic financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

This MD&A serves as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements - The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. Accordingly, it presents the financial picture of the County from the economic resources measurement focus using the accrual basis of accounting.

The Statement of Net Position presents information on all of the County's assets (including capital and infrastructure assets), plus deferred outflows of resources, less liabilities (including long-term debt), less deferred inflows of resources, with the difference reported as net position.

COUNTY OF KAUA'I, HAWAI'I
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)
JUNE 30, 2019

Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. As such, revenues and expenses, including depreciation expenses, are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned, but unused vacation leave).

The government-wide financial statements distinguish functions of the County that are primarily supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include General Government, Public Safety, Public Works, Highways and Streets, Sanitation, Culture and Recreation, and Public Welfare. The business-type activities of the County include three enterprises: Public Housing Fund, Sewer Fund, and Golf Fund.

The government-wide financial statements include the governmental activities and business-type activities of the County (known as the primary government) and the Department of Water (Department), which is a semi-autonomous entity, and is reported separately from the primary government as a discretely presented component unit. Complete financial statements of the Department, which include its MD&A, may be obtained from the Department of Water at 4398 Pua Loke, Līhu'e, Kaua'i, Hawai'i, 96766.

Fund Financial Statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and GASB Statement No. 54 to define and classify the existing governmental fund types. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. These funds are reported using the modified-accrual basis of accounting.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities which is required for Generally Accepted Accounting Principles (GAAP) reporting.

COUNTY OF KAUAI, HAWAII
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)
JUNE 30, 2019

The County's governmental fund types are the General, Special Revenue, Debt Service and Capital Improvement Funds. Governmental fund financial statements include a Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances. The General Fund, Housing and Community Development Revolving Fund, Solid Waste Disposal Fund, Bond Fund, Federal Grants Fund, State Grants Fund, Grants Capital Improvement Fund, and General Capital Improvement Fund are considered major funds. Balances from the remaining 17 non-major governmental funds are combined into a single, aggregated presentation as Other Governmental Funds. Budgetary comparisons have been provided for the General Fund and major Special Revenue Funds (Housing and Community Development Revolving Fund and Solid Waste Disposal Fund) to demonstrate compliance with its annual appropriated budget as required for GAAP financial statements.

Proprietary Funds – Services for which the County charges fees to customers are reported as proprietary funds. Similar to the government-wide financial statements, the proprietary fund statements report both long-term and short-term financial information. The County's proprietary funds include the Public Housing Fund, Sewer Fund, and Golf Fund.

Fiduciary Funds - Fiduciary funds are used to account money received, held and disbursed in a trustee capacity or as an agent for individuals, other governmental units, and other funds. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements, and is part of the basic financial statements.

Other Required Supplementary Information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. The combining statements referred to earlier in connection with non-major governmental funds and budgetary comparison schedules (including Capital Improvement Funds and Bond Fund) for legally adopted annual budgets are presented immediately following the notes to the financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the County's financial condition. The largest portion of the County's net position reflects its net investment in capital assets, at \$530.3 million or 210% of net position. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

The County's restricted net position category represents \$11.3 million or 4.5% of net position. These restrictions on net position are imposed by enabling legislation or parties outside the government (such as creditors, grantors, contributors, laws or regulations of other governments).

The difference between total net position and the two categories just discussed (net investment in capital assets and restricted net position) is the unrestricted net position, amounting to a negative (\$289.1) million or (114.5%) of net position. The County previously implemented

GASB 68 and GASB 71 (fiscal year 2015), GASB 82 (fiscal year 2016) and GASB 75 (fiscal year 2018). The County is reporting a net pension liability, net other postemployment benefits liability, and deferred outflows and deferred inflows of resources related to pensions and other postemployment benefits on the accrual basis of accounting. The implementation of the above pronouncements resulted in a negative unrestricted net position.

In the current fiscal year, the government-wide revenues increased from the prior year by approximately \$47.5 million and government-wide expenses increased by approximately \$11 million.

The major components of the changes in government-wide revenue were:

Operating grants and contributions increased \$22.3 million from the prior year. As mentioned previously, historic levels of rain triggered flooding and landslides to Kaua'i's North Shore in April 2018. Increases in operating grants and contributions were primarily attributable to receiving a portion of the \$25 million in Act 12 disaster relief funds in the current fiscal year. Majority of the damages sustained were to roads and bridges, resulting in increases in public works, highway and street disaster projects such as bridge and road repairs.

COUNTY OF KAUA'I, HAWAI'I
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)
JUNE 30, 2019

Capital grants and contributions increased by \$9.2 million primarily due to construction of the Adolescent Treatment and Healing Center, Lihue Town Core project, Kekaha Landfill expansion Cell 2, and other highway and street disaster projects such as bridge and road repairs.

The County's real property taxes billed (revenues on full accrual basis) increased by \$10.6 million or 8.4%, which was primarily attributed to the increasing growth in billable assessed values and new construction being added to the assessment list. Additionally, a small portion of the increase in revenue may be attributable to increasing enforcement of the County's various tax classifications. In the current fiscal year, the total amount billed was \$137.7 million as compared to \$127.1 million in the prior year. The gross assessed values increased by approximately \$0.9 billion (or 4.3%) from \$22.2 billion to \$23.1 billion in the current year, while the net taxable values increased by approximately \$0.9 billion (or 4.7%) from \$19.1 billion to \$20 billion in the current year. Additionally, there was an increase in the total number of appeals while the aggregate value of the appeals increased slightly. There were 269 appeals as compared to 127 appeals in the prior year. The total assessed value being contested was approximately \$185.2 million, compared to \$178 million in the prior tax year. Tax credits for the County's two tax relief programs, Very Low Income and Home Preservation Limit, amounted to approximately \$0.2 million and were awarded to 185 recipients.

The major components of the changes in government-wide expenditures were:

Overall expenses increased by approximately \$11 million and were primarily attributable to continuous disaster relief projects to repair major damages to roads and bridges, increases in pension related expenses for both general government and public safety employees, overall increase in landfill closure and post-closure care cost liability, increases in repair and maintenance expenses, and financing of newly acquired capital assets.

Additionally, a large expense came from the funding of OPEB; whereby, qualified employees are promised specific healthcare benefits upon separation or retirement. Funding for these OPEB benefits are made through a combination of pay-as-you-go contributions and monthly pre-funding contributions into the OPEB Trust. The County's OPEB liability as of July 1, 2018 actuarial valuation, was \$149.2 million. The overall OPEB liability increased \$2.2 million from the previous valuation report primarily due to decreases in net investment income, increases in health benefit claims and payments, and assumption changes during the current measurement period for health care trends.

The County has continued to pay the annual required contribution (ARC) as calculated by the actuary contracted by the Hawai'i Employer-Union Health Benefits Trust Fund (EUTF). The actuary also provided the information needed for financial statement reporting and footnote disclosures. EUTF administers the healthcare benefit plan and develops the annual funding requirements based on the present value of benefits of the actuarial accrued liability using the entry age normal method for calculation.

The County paid 100% of its ARC, of which, amounted to \$16.6 million in the current fiscal year. Additional information can be found in Note 13 in the notes to the basic financial statements and required supplementary information other than MD&A.

ANALYSIS OF GOVERNMENTAL FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

Governmental Funds - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. The County follows GASB 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which primarily establishes a hierarchy of fund balance classifications based on constraints placed on the use of these resources.

As of the end of the current fiscal year, the County's governmental funds ending fund balances increased by \$16.5 million, ending at \$165.3 million. The increase in fund balances are primarily attributable to an increase in the General Fund for real property taxes and an increase in the General Excise Tax Fund for revenue received from the State for the County's surcharge of 0.5% on State general excise (GET) and use tax. Fund balances are reserved to indicate that it is not available for new spending because it is in non-spendable form (\$0.6 million), has already been committed to liquidate contracts and purchase orders (\$32 million), pay debt service (\$1.8 million), and/or certain other restricted and/or designated purposes (\$131 million).

The following table summarizes the changes in fund balances for the County's governmental funds as of June 30, 2019 in comparison to fiscal year 2018:

The Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position can be found on page 34. The major differences relate to certain financial resources and expenditures such as debt financing and capital outlays that are included in the changes in governmental fund balances but are not reported in the changes in net position.

General Fund - The General Fund is the chief operating fund of the County. Total revenues in the General Fund amounted to \$165.2 million, or an increase of \$13.1 million as compared to the prior year. As stated earlier, the County reported an unassigned fund balance of \$44.3 million, of which, includes \$30.4 million that represents a portion of the County's Reserve Fund. The unassigned fund balance increased \$8 million, as compared to \$36.3 million in the prior year. The increase in the overall fund balance may be attributable to the cumulative effect of the following key factors:

- An increase of \$10.6 million or 8.3% in property tax revenue, primarily due to results from growth in billable assessed value and increasing enforcement of the County's tax classifications.
- An increase of \$3.6 million or 313% in interest earned from investments, due to increases in investments from bonds issued in the prior year, stronger performance of investments, and positive market value adjustments at the end of the fiscal year.
- Total expenditures remained relatively flat to the prior year, increasing by \$2.1 million and ended at \$127.5 million.

Major Governmental Funds – The State Grants Fund continues to be presented as a major governmental fund. The threshold criteria to be classified and presented as a major governmental fund were met, due to the amounts reported on its Balance Sheet.

Major governmental fund revenues amounted to \$52.4 million, or a \$19.2 million increase in comparison to the prior year. The increase was primarily attributable to:

- State Grants Fund increase of \$9.2 million was primarily due to increases in public safety, public works, and public welfare Act 12 disaster relief funds received from the State. Additionally, the County received approximately \$0.5 million of federal public assistance disaster grants. Approximately 40 approved federal disaster grant projects remain in open.
- Grants Capital Improvement Fund increase of \$9.3 million was primarily due to the construction of the Adolescent Treatment and Healing Center, Līhu'e Town Core project, Kekaha Landfill expansion Cell 2, and other highway and street projects such as bridge and road repairs in the current year.

Total expenditures increased by \$22.2 million from \$45.2 million to \$67.4 million in the current fiscal year. Significant variances included the following:

- State Grants Fund increase of \$9.2 million was primarily due to increases in public safety (e.g. police, fire, emergency management, etc.), public works, and sanitation expenditures for disaster relief projects, including increases in salaries, overtime, and related fringe and benefit expenditures in the current year.

COUNTY OF KAUAI, HAWAII
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)
JUNE 30, 2019

- Grants Capital Improvement Fund increase of \$9.1 million was primarily due capital type expenditures (e.g. highway and street improvements, landfill and public welfare improvements, etc.) in the current year.

All Other Governmental Funds – As mentioned previously, the County authorized the imposition of a county surcharge of 0.5% on State GET and use tax. The additional surcharge took effect on January 1, 2019 and is currently being used to offset operational and capital costs of public transportation systems, including roadways, public buses, pedestrian and bicycle paths, and to comply with Americans with Disabilities Act of 1990 with respect to public transportation systems. In the current year, the County created the General Excise Tax Fund to report the revenues received and expenditures of this surcharge.

Other governmental fund total revenues increased \$15.2 million from \$25.9 million to \$41.1 million in the current fiscal year. The increase is primarily due to revenues received from the County's surcharge on State GET.

Other governmental fund total expenditures increased slightly by \$1.9 million from \$47.3 million to \$49.2 million in the current fiscal year. Significant variances included the following:

- General Excise Tax Fund reported initial expenditures of \$5.1 million primarily attributable to salaries and fringe related benefits. Revenues exceeded expenditures by \$7.9 million; overall positive net change in fund balance of \$7.9 million.
- Highway Fund increase of \$2.1 million primarily due to increases in salaries and fringe related benefits and other capital expenditures. Expenditures exceeded revenues collected by \$2.3 million, offset by new capital leases of approximately \$2 million; overall net change in fund balance was a decrease of \$0.4 million.
- Open Space Capital Improvement Fund expenditures decreased by \$5 million due to land acquisition expenditures of \$5.6 million in the prior year; ultimately offsetting the overall increase in total other governmental expenditures. Net change in fund balance resulted in a decrease of \$0.6 million.

BUDGETARY HIGHLIGHTS

The General Fund exceeded its estimate of budgeted revenues by \$6.1 million. The General Fund lapsed \$8.6 million of budgeted appropriations at year end. The General Fund contribution to other funds amounted to \$24.9 million in the current fiscal year, a decrease of \$1.4 million as compared to the prior year. Fund budgetary expenditures differ from the fund expenditures in that the encumbrances at year end are accounted for as expenditures for budgetary purposes. The original budget amount in the Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) include re-appropriated and committed prior-period encumbrances.

The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) provides the reader the assurance of compliance to the budget ordinance. Only budgeted funds have this type of financial statements.

Estimated budgeted General Fund revenues for the fiscal year ended June 30, 2019 was \$159.1 million as compared to \$150.6 million in the prior year, an increase of \$8.5 million.

COUNTY OF KAUAI, HAWAII
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)
JUNE 30, 2019

Positive revenue budget variances of \$6.1 million occurred primarily because of the volatility of predicting certain types of revenues and the conservative approach in estimated revenues. The major positive variance occurred in revenue from real property taxes of \$2.3 million and interest earned of \$3.2 million.

Final amended budgeted expenditures in the General Fund for fiscal year ended June 30, 2019 increased by \$1.1 million, ending at \$142.1 million. The general government function budget increased by 2.8%, public safety function increased 3.3%, public works function increased 2.1%, culture and recreation function increased 7.7%, and public welfare function decreased by 52%. The significant decrease in the public welfare function was primarily due to the movement of certain salary, fringe benefits, and operational budget items to the GE Tax Fund in the current fiscal year.

The following represent major variances in the final amended budget to actual expenditures in the General Fund:

- Council Services had a favorable variance of approximately \$0.7 million, of which, were primarily attributable to unexpended salaries, fringe and benefits, unexpended consulting services, travel, special projects, and other miscellaneous items.
- Office of the County Attorney had a favorable variance of approximately \$0.6 million, of which, were primarily attributable to unexpended salaries, fringe and benefits, unexpended consulting services, travel, and other miscellaneous items.
- Less than anticipated claims were paid out of the self insurance account in the current fiscal year, creating a favorable variance of \$0.7 million. The purpose of this account is to prepare for unanticipated and unpredictable future claims.
- Less than anticipated claims were paid out of the County-wide claims account in the current fiscal year, creating a favorable variance of \$0.6 million.
- Human Resources had a favorable variance of \$0.5 million, of which, were primarily attributable to unexpended salaries, fringe and benefits, unexpended consulting services, training, and other miscellaneous items.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets - The County's capital assets for its governmental and business-type activities as of June 30, 2019 amounted to \$641.1 million, an increase of \$12.3 million. Net capital assets include land, buildings and improvements, machinery and equipment, infrastructure (e.g. roadways, bridges, and sewer), and construction-in-progress, less accumulated depreciation. Most capital projects pass through construction-in-progress before being capitalized because of the multi-year completion process. The following is a summary of the capital assets as of June 30, 2019 in comparison to fiscal year 2018:

Additional information on the County's capital assets can be found in Note 7 in the notes to the basic financial statements.

Long-term Debt – At the end of the current fiscal year, the County had total bonds and loans outstanding of \$135.2 million (\$117.1 million related to governmental activities and \$18.1 million related to business-type activities). Of this amount, \$112.6 million is comprised of debt backed by the full faith and credit of the government (general obligations) and \$22.6 million represents State Revolving Fund (SRF) loans used to finance construction of wastewater and landfill projects.

At the end of the fiscal year, Standard and Poor's Ratings Services, Moody's Investors Service and Fitch, Inc. assigned the County's GO Bonds ratings of AA, Aa2, and AA, respectfully.

State statutes limit the amount of general obligation debt the County may issue up to 15 percent of its net assessed valuation. The current debt limitation for the County is \$3 billion. As of June 30, 2019 the County's current outstanding debt applicable to the legal debt margin totaled \$112.6 million or 3.8% of the County's debt limitation.

On December 17, 2019, approximately \$20.3 million of Series 2019 Special Tax Revenue Bonds bearing the County's name were issued to finance the Kukui'ula Development Project. The proceeds from the bonds will be utilized for acquiring or constructing certain public facilities, funding a deposit to a reserve account, paying a portion of the interest payable in future years, and paying the costs of issuance.

Additional information on the County's long-term debt can be found in Note 11 in the notes to the basic financial statements.

COUNTY OF KAUAI, HAWAII
GOVERNMENTAL FUNDS
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2019

Net Change in Fund Balance - Total Governmental Funds \$ 16,471,869

Amounts reported for governmental activities in the Statement of Activities are different due to:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period:

Capital outlay	\$	34,711,874	
Depreciation expense		<u>(20,640,231)</u>	
Net Capital Outlay			14,071,643

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, CIP closures/transfers, contributed/donated capital assets) is to decrease Net Position. (1,420,992)

Capital leases and loans are recorded as current financial sources in the Statement of Revenues, Expenditures, and Changes in Fund Balances. However, in the Statement of Net Position, capital leases and loans are recorded as long-term debt and capital assets. (4,594,045)

Real property taxes in the Statement of Activities includes all billed amounts which differ from the current financial resource measurement of the governmental funds. This is the net difference of both measurement focuses. 381,939

The County's proportionate share of pension expense requiring immediate recognition, but not reported as expenditures in the governmental funds. This is the net difference between FY19 employer paid contributions, recorded as deferred outflows in the current year, FY18 employer paid contributions being expensed, and FY19 pension expense in the Statement of Activities. (21,587,177)

The County's OPEB expense requiring immediate recognition, but not reported as expenditures in the governmental funds. This is the net difference between FY19 employer paid contributions, recorded as deferred outflows in the current year and FY18 OPEB expense in the Statement of Activities. 396,687

Bond and loan proceeds are reported as other financing sources in governmental funds and contribute to the increase in fund balance. Bond, loan, and capital lease principal payments are reported as an expenditure in governmental funds and reduce fund balance. In the government-wide statements, however, issuing debt increases long-term liabilities while debt repayment reduces long-term liabilities and affects the Statement of Activities.

Bond principal retirement and loan payments		6,197,025	
Loan proceeds		(368,813)	
Capital lease principal payments		<u>2,712,611</u>	
Net Long-term Debt Repayment			8,540,823

Some items reported in the Statement of Activities do not involve current financial resources and, therefore, are not reported as expenditures in the governmental funds. These activities are:

Amortization of premium from bond issuance		175,978	
Amortization of deferred refunding costs		(115,408)	
Decrease in compensated absences		360,927	
Decrease in claims and judgments		89,059	
Increase in landfill closure and post-closure care		(1,884,359)	
Decrease in accrued interest payable		<u>103,532</u>	
Net Increase in Expenditures			<u>(1,270,271)</u>

Change in Net Position - Governmental Activities \$ 10,990,476

NOTES TO THE FINANCIAL STATEMENTS

COUNTY OF KAUA'I, HAWAI'I
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Financial Reporting Entity

The County of Kaua'i (County) is a municipal corporation governed by an elected Mayor and a seven-member County Council. The County operates under a County Charter, which was originally adopted in 1969 and last amended in 2018.

The accompanying financial statements present the operations of the County, the primary government, as well as its discretely presented component unit, the Department of Water. The County's operations are organized into the following general functions: general government, public safety, public works, highways and streets, sanitation, culture and recreation, public welfare, housing, sewer, and other enterprises. For financial reporting purposes, the County includes all funds, agencies, boards, commissions, and authorities that are fiscally dependent upon the County and for which the County is financially accountable.

State of Hawai'i (State) agencies assume responsibility for several major functions often performed by local governments; including education, welfare, health, and judiciary functions. State agencies are not fiscally dependent on the County and, therefore, are not included in these financial statements. There are no separate city, county or township governments, nor any school districts, special districts, authorities, nor public corporations with overlapping authority presented in the accompanying financial statements.

The financial statements of the County have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its Codification of existing Governmental Accounting and Financial Reporting Standards, which, along with subsequent GASB pronouncements (*Statement and Interpretations*), constitutes GAAP for governmental units. The County's more significant accounting policies are described below.

The County follows GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, GASB Statement No. 37, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments: Omnibus - An Amendment of GASB Statements No. 21 and No. 34*, GASB Statement No. 38, *Certain Financial Statement Note Disclosures*, GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Post Employment Benefits Other Than Pensions*, GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflow of Resources, and Net Position*, GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - An Amendment of GASB Statement No. 27*, GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement*

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Date - An Amendment of GASB Statement No. 68, GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, and GASB Statement No. 77, Tax Abatement Disclosures. The statements contained herein reflect the changes in reporting and presentation.

Discretely Presented Component Unit

The component unit column in the financial statements includes the financial data of the County's discretely presented component unit, the Department of Water (Department), which is a semi-autonomous proprietary agency of the County. It is reported in a separate column to emphasize that it is legally separate from the County.

A majority of the members of the Department's governing body are appointed by the Mayor and confirmed by the County Council. The Department is granted corporate powers by the County Charter. The County Council does not have the authority to modify or approve the Department's budgets. Revenue bonds and loans payable of the Department are general obligations of the County. As the County would be obligated to repay these bonds in the event of default by the Department, the County is financially accountable for the debts of the Department. The Department is audited separately. Complete financial statements of the Department may be obtained from:

Department of Water

Government-wide Statements

The basic financial statements include both government-wide and fund financial statements. The reporting model under GASB Statement No. 34 focuses on the County as a whole in the government-wide financial statements and major individual funds in the fund financial statements. Both types of statements categorize primary activities as governmental or business-type. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

The government-wide financial statements (i.e., the *Statement of Net Position* and the *Statement of Activities*) report information on all of the nonfiduciary activities of the County and the Department. For the most part, the effect of interfund activity has been removed from these statements. Internal activities are treated as reimbursements (reductions and increases in expenses) from various functional categories and accordingly adjusted in the *Statement of*

Activities. Charges to governmental functions for centralized services are made to recover administrative costs incurred by the general government function as outlined in the operating budget ordinance and are also treated as reimbursements. Certain capital asset payments from governmental activities are treated as capital contributions in the business-type activities and, therefore, are capitalized. Interfund contributions are eliminated among governmental activities, but are recorded as transfers in the fund financial statements if between governmental and business-type activities. Interfund payables and reported receivables have been eliminated among governmental activities, but are recorded as internal balances between governmental and business-type activities. In the *Statement of Net Position*, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column and (b) are on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The *Statement of Activities* reflects the direct expenses of each functional category or identifiable activity, which are supported by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include (a) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Taxes and other items not properly included in program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements.

Fund Financial Statements

The financial transactions of the County are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that is comprised of assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The County reports the following major governmental funds:

General Fund - Accounts for all financial resources traditionally associated with the government which are not required legally, or by sound financial management, to be accounted for in another fund.

Housing and Community Development Revolving Fund - Monies collected from the Home Disaster grant loans, Housing Preservation grant loans, and Special Purpose grant loans fund the Housing and Community Development Revolving Fund. This fund

supports administrative costs for the Development staff and also supports the "Homebuyer Loan Program" for eligible homebuyers and future project development costs.

Solid Waste Disposal Fund - Accounts for the costs of operating the County's solid waste disposal system. Financing is provided by charges to commercial users for solid waste disposal services and General Fund contributions for other users.

Federal Grants Fund - Accounts for federal grant revenues and related expenditures.

State Grants Fund - Accounts for expenditures of state and county grants.

Grants Capital Improvement Fund - Accounts for revenues and capital improvements financed by federal and state grants.

General Capital Improvement Fund - Accounts for the costs of capital projects financed by the General Fund.

Bond Fund - Accounts for proceeds from and the costs of constructing County capital improvements financed by general obligation bond proceeds.

The County reports the following major proprietary funds:

Public Housing Fund - Accounts for the acquisition, development, sale, and rental of low-income housing. Financing is provided by low-income housing sales and operating contributions.

Sewer Fund - Accounts for the costs of operating the County's sewer system. Financing is provided by service charges to users.

Golf Fund - Accounts for the costs of operating the County's golf course. Financing is provided primarily by golf fees, rents, and concessions.

The County's fiduciary funds are limited to agency funds. Agency funds are custodial in nature (assets equal liabilities) and thus do not involve measurement of results of operations. Agency funds are accounted for using the accrual basis of accounting.

Fiduciary funds include the following agency funds:

Trust and Agency Fund - This fund is used to account for other monies collected in an agency capacity and include motor vehicle registration fees collected on behalf of the State of Hawai'i.

COUNTY OF KAUA'I, HAWAII

Treasury Trust Fund - This fund is used to account for performance and payment bond monies, monies collected from public auctions, monies collected for application fees for public notices, and other monies collected and held for specific purposes as agent or custodian.

Real Property Trust Fund - This fund is used for refunds and/or adjustments to real property taxes.

The County has adopted GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. GASB Statement No. 54 establishes the criteria for classifying governmental fund balances, to the extent to which a government entity is bound to honor constraints on the specific purposes for which amount in that fund can be spent. The fund balances reported on the governmental fund financial statements consist of the following categories:

Nonspendable Fund Balance - This includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance - This includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation. Sources of these externally enforceable legal restrictions include creditors, grantors, contributors, federal regulations, the State Constitution, State Statutes, and/or County Charter.

Committed Fund Balance - This includes amounts that are subject to constraint created by the County's highest level of formal action and can only be changed by the County's highest level of formal action. The County Council and Mayor of the County of Kaua'i are the highest decision-making authorities. The formal action to constrain resources is ordinances passed by the County Council and signed by the Mayor.

Assigned Fund Balance - This includes amounts that are constrained by the County's intent to be used for specific purposes but are neither restricted nor committed. The Director of Finance is authorized to assign amounts for specific purposes and permit disbursements to be made pursuant to policies established by the County Council.

Unassigned Fund Balance - This is the residual classification that includes all spendable amounts not contained in the other classifications. The General Fund is the only fund that reports a positive unassigned fund balance.

When expenditures are incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) fund balances are available, the County's policy is to apply restricted fund balances first.

When expenditures are incurred for purposes for which committed, assigned or unassigned fund balances are available, the County's policy is to apply committed fund balance first, then assigned fund balance and finally unassigned fund balance.

COUNTY OF KAUA'I, HAWAII
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements and the proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable means the amounts are determinable. Revenues are considered to be available when they are collectable within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recognized when a liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, claims and judgments, and landfill post-closure costs are recognized only when payment is due.

Significant revenues that are susceptible to accrual are as follows:

- *Property taxes collected within sixty days after year end*
- *Rents and concessions*
- *Federal and State financial assistance (to the extent that related expenditures that are eligible for reimbursements have been incurred)*
- *Interest*
- *Revenues collected by the State on behalf of the County, such as fuel taxes, general excise tax surcharges, and transient accommodation taxes*

All other revenue items are considered to be measurable and available only when cash is received.

Intergovernmental revenues are susceptible to accrual based on the compliance, legal, and contractual requirements of the individual programs. There are essentially two types of these revenues. For one type of revenues, monies must be expended for a specific purpose or project and revenues are recognized to the extent of such expenditures. Revenues of this type are deferred for monies received in advance of expenditures and accrued for expenditures in advance of monies received. For the other type of revenues, monies are virtually unrestricted as to the purpose of the expenditure. These resources are recognized as revenues when received, or earlier if susceptible to the accrual criteria.

COUNTY OF KAUA'I, HAWAI'I
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The County and the Department has implemented GASB Statement No. 62 *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* and its subsequent amendment, GASB Statement No. 66, *Technical Corrections - 2012 – an amendment of GASB Statements No. 10 and No. 62*. GASB No. 62 incorporates Financial Standards Board pronouncements, not conflicting with GASB pronouncements, and issued on or before November 30, 1989, into the GASB authoritative literature. GASB No. 66 resolved any conflicting guidance resulting from the issuance of GASB No. 62. Proprietary funds are reported using the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized as incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds are charges to customers for services. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary fund types are accounted for according to the nature of the fund. These funds account for money received, held and disbursed in a trustee capacity or as an agent for individuals, other governmental units, and other funds. The County has only Agency funds, which are purely custodial in nature (assets equal liabilities) and thus do not involve measurement of results of operations. Agency funds are accounted for using accrual basis accounting.

The Agency funds are used to account for the (1) money collected and held for specific purposes by certain County agencies as escrow agent or custodian and (2) money and property held by the County as trustee or custodian such as refundable deposits.

Cash and Cash Equivalents

The County's cash and cash equivalents include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash on deposit with financial institutions is collateralized in accordance with State statutes.

Investments

The County generally invests in certificates of deposit, repurchase agreements, money market funds, and government agency securities with federally insured financial institutions. Investments are reported at fair value. The County's investments are consistent with the investment guidelines contained in the Hawai'i Revised Statutes (HRS).

COUNTY OF KAUA'I, HAWAI'I
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

HRS authorizes the County to invest, with certain restrictions, in obligations of the State of Hawai'i, the United States or agencies of the United States, time certificates of deposit and repurchase agreements with federally insured banks and savings and loan associations authorized to do business in the State of Hawai'i.

Real Property Taxes

Real property taxes are assessed and billed annually. The County's real property taxes, which are levied on July 1 and billed on July 20 of each year, are based on assessed valuations as of the previous January 1. Real property taxes are due in two equal installments on August 20 and February 20. Accordingly, all real property taxes receivable as of June 30 are delinquent and are reported as deferred revenue for amounts not collected within 60 days after the fiscal year end in the fund financial statements. A lien for real property taxes attaches as of July 1 of each year.

Real Property Tax Abatement Programs

The County provides four real property tax abatement programs –

Commercial Alternative Energy Improvement Exemption – Section 5A-11.30 of the Kaua'i County Code (K.C.C.) provides abatement for properties that produce electricity from renewable sources and sell at least 25% of the onsite electricity produced to the public utility. The exemption application must show the land area where energy production occurs as well as details about the improvements installed to produce the energy. Sources of energy may include, but are not limited to, solid wastes, hydroelectric, solar, fuel cells, biomass, or tides or currents. Under this exemption, all improvements that are directly related to the production of energy are 100% exempt and the land underlying the commercial alternative energy facility is assessed as though zoned industrial with a 50% exemption applied to the land. Although no annual application is required by the taxpayer after the initial petition has been submitted, after one year of being fully operational the applicant may elect to re-petition to have both the land and the improvements fully exempt, and rather pay the in-lieu of tax which is based on 1% of the gross revenue generated from the energy facility. (Ordinances 916, 920, and 932).

Historic Residential Dedication Exemption - Section 5A-11.22 of the K.C.C. provides abatements to encourage the preservation of residential structures that have been places on the Hawai'i Register of Historic Places and which are more than fifty years old. The property owner must provide visual access on a year-round basis or open the property to the public for twelve days per year. The improvements must meet or exceed average condition and must be maintained structurally sound and weather tight throughout the ten-year dedication period. The owner must attest to the soundness and integrity of the historical improvements by submitting a certification of the structural soundness and weathertightness every 5 years. Historic residential properties that are used as the owner's primary residence receive an abatement of 100% of the assessed value for the qualified area and structures, but not less than the minimum tax of \$150.00 (or \$75.00 if receiving the additional low-income exemption).

COUNTY OF KAUA'I, HAWAII
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Non-owner-occupied historic residential properties receive an exemption of 75% for the qualifying area and structures. Dedications must be recorded at the Bureau of Conveyances and renewed every ten years. (Ordinances 434, 467, 564, 637, and 920).

Low and Moderate-Income Housing Exemption - Section 5A-11.20 of the K.C.C. provides abatement to property owners that participate in long-term housing projects that have regulatory agreements mandating rent levels. Applicants must submit an application form along with a copy of the recorded regulatory agreement. Abatement is equal to 100% of the assessed value for the portion of the real property that is dedicated as low- and moderate-income rentals. If the entire property is dedicated, then the net taxable is zero but the property is still subject to the minimum tax of \$150.00. The application is a one-time filing and runs concurrent with the termination of the regulatory agreement. If the rental units do not comply with the regulatory conditions, the property would be subject to roll back taxes, including penalty and interest. (Ordinances 394 and 954, Section 53-38 H.R.S.).

Agricultural Use Dedication - Section 5A-9.1 of the K.C.C. provides reduced assessments to encourage local agricultural production as well as the preservation of agricultural lands that could otherwise be further developed, by valuing the dedicated lands at the agricultural use value as opposed to the market value. An application form must be filed along with a plot plan, a management plan, and a marketing plan that provide details as to what agricultural activities will be conducted on the property. Upon review and approval, the owner is required to record the dedication at the Bureau of Conveyances. There are two available dedication lengths, 10 years or 20 years, and the dedications do not automatically renew. Valuation consideration is given to both the type of agricultural activity, diversified agriculture or pasturing of livestock, as well as the length of the dedication. Those that dedicate for 20 years receive 50% of the agricultural value ascribed to 10 year dedications. Any breach to the terms of the recorded dedication would result in the cancellation of the dedication, or portion thereof, and the immediate rollback on taxes abated plus penalties and interest. (Ordinances 394, 464, 520, 547, 679, 741, 822, 915, 920, and 932).

The gross amount by which the County's tax revenues were reduced during the year as a result of the tax abatement programs were as follows:

	<u>Amount</u>
Agricultural Use	\$ 8,055,725
Historic Residential Dedication	289,849
Low and Moderate Income Housing	608,513
Other	<u>110,367</u>
 Total	 \$ <u>9,064,454</u>

COUNTY OF KAUA'I, HAWAI'I
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Receivables

Loans receivable consist of housing rehabilitation loans made with federal funds by the Housing and Community Development Revolving Fund (HCDRF), Federal Grants Fund, and special revenue funds. The loans are partially offset by an unearned revenue account. Revenue is recognized and included in intergovernmental revenues when the loans made with federal funds are collected. Receivables for federal and state financial assistance are recognized as revenue, in all fund types, as related expenditures are made.

Receivables of the Department are recognized when revenue is earned, including charges for services rendered but not billed, net of allowance for doubtful accounts approximating \$252,000 of billed receivables.

Materials and Supplies

Materials and supplies are stated at the lower of average cost (which approximates the first-in, first-out method) or market. The cost of materials and supplies is recorded as an expense when consumed rather than when purchased.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The County utilizes the consumption method to account for prepaid items.

Capital Assets

Capital assets, which include property, plant, machinery and equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The County defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life of more than one year. The Department defines capital assets as assets with an initial, individual cost of more than \$1,000. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value.

COUNTY OF KAUAI, HAWAII
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the asset constructed.

Depreciation on all assets is provided for on the straight-line basis over the following estimated useful lives:

Primary Government

Motor vehicles	3 to 15 years
Furniture and equipment	5 to 20 years
Building and improvements	20 to 50 years
Transmission and distribution equipment	25 to 40 years
Infrastructure	30 to 60 years

Component Unit

Motor vehicles	7 to 10 years
Furniture and equipment	5 to 20 years
Building and improvements	40 to 50 years
Transmission and distribution equipment	18 to 63 years

Restricted Assets

The County sets aside certain resources for the repayment of enterprise fund revenue bonds. These resources are classified as restricted assets on the *Statement of Net Position and Balance Sheet* because their use is limited by bond covenants. The Department sets aside certain resources to fund future capital improvements of the water supply system.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted funds first, then unrestricted resources as they are needed.

Interfund Transactions

Interfund receivables and payables are reported in each fund. Transfers of financial resources between agencies and activities within the same fund, which are recorded as revenues by the transferee and expenditures by the transferor, have been eliminated. Transactions that represent reimbursements to a fund for expenditures or expenses initially made from it that are properly applicable to another fund are recorded as expenditures or expenses in the reimbursing fund and as reductions of expenditures or expenses in the fund that is reimbursed.

Transfers include subsidies and authorized transfers from funds receiving revenues to funds that will expend those resources.

COUNTY OF KAUAI, HAWAII
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Interfund receivables and payables represent borrowing arrangements between governmental fund types that are current interfund loans and expected to be paid off within one year. Advances to and from other funds represent borrowing arrangements between nongovernmental fund types that are noncurrent. All other outstanding current balances between funds are reported as "Due To/From Other Funds."

Deferred Outflows of Resources and Deferred Inflows of Resources

Deferred outflows of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense or expenditure) until that time. The County and Department has three items that qualifies for reporting in this category. The County and Department reports the deferred loss on refunding and contributions to the pension and other postemployment benefits (OPEB) plans from the employer subsequent to the measurement date of the net pension liability and OPEB liability, respectively, and before the end of the reporting period are reported as a deferred outflows of resources in its *Statement of Net Position*.

Deferred inflows of resources represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The County has five items that qualifies for reporting in this category. Property taxes and fees collected in the fiscal year, for the ensuing fiscal year are reported in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amount becomes available. The County also reports deferred inflows of resources related to the deferred gain on refunding, and deferred inflows of resources related to pensions and OPEB.

Net Position

The County's net position is comprised of the various net earnings (losses) from operating and nonoperating revenues, expenses, transfers, and contributed capital. The County's net position is classified in the following three components: net investment in capital assets; restricted; and unrestricted. Net investment in capital assets, consists of capital assets, net of accumulated depreciation and outstanding debt attributable to the acquisition, construction or improvement of those assets. Debt related to unspent proceeds or other restricted cash and investments at year end is not included in the calculation of the amount of net investment in capital assets. Restricted net position consists of the County's net position thereon by external parties, such as lenders, grantors, contributors, laws, regulations, and enabling legislation, including self-imposed legal mandates. Restricted net position is based on the same criteria used to report restricted governmental fund balances. Unrestricted net position consist of all other net position not included in the above categories.

Compensated Absences

Vacation leave and other compensated absences are accrued as a liability as the benefits are earned if the leave is attributable to past service and it is probable that the employees will be compensated for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

COUNTY OF KAUA'I, HAWAII
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Vacation pay is recognized as an expenditure in the governmental fund types when the amounts, if any, are due and payable. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured as a result of employee retirement or termination. Vacation credit payout is recorded in the respective funds where the employees' salary is incurred.

Sick Leave

Permanent full-time County employees accrue sick leave. Sick leave is calculated based upon current compensation levels. Sick pay can be taken only in the event of illness and is not convertible to pay upon termination of employment. Sick pay is recognized when leave is taken because it does not vest when earned. As a result, no liability for sick pay is recognized in the accompanying financial statements. Accumulated sick leave (including the Department) was approximately \$36.0 million at June 30, 2019.

Capital Leases

Leases that substantially transfer all of the risks and benefits of ownership are accounted for as capital leases. Capital leases are included in capital assets and, where appropriate, are amortized over the shorter of their economic useful lives or lease terms. The related capital lease obligations are included in long-term liabilities in the government-wide financial statements.

Long-term Obligations

In the government-wide financial statements, proprietary fund financial statements, and Component Unit financial statements, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, proprietary fund, or Component Unit's *Statement of Net Position*. Initial-issue bond premiums and discounts are deferred and amortized over the life of the bonds using the effective-interest method. The difference between the reacquisition price of refunding bonds and the net carrying amount of refunded debt (deferred amount on refunding) is amortized over the shorter of the life of the refunding debt or the remaining life of the refunded debt. Amortization of bond premiums or discounts, and deferred amounts on refunding are included in interest expense. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental funds recognize bond premiums, discounts, and issuance costs during the period issued. The face amount of debt issued is reported as other financing sources. Premiums received are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Employees' Retirement System of the State of Hawaii (ERS) and additions to/deductions from the ERS's fiduciary net position have been determined on the same basis as they are reported by the ERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at their fair value.

Postemployment Benefits Other Than Pensions

For purposes of measuring the net Postemployment Benefits Other Than Pensions (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) and additions to/deductions from EUTF's fiduciary net position have been determined on the same basis as they are reported by EUTF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Facility Reserve Charges

The Department assesses a fee to commercial and residential developers based upon the number and size of water meters installed at the respective projects. These fees are restricted to fund the capital improvements of the water supply system and recorded as contributions in the Department's statements of revenues, expenses and changes in net position.

Use of Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues, expenses/expenditures, and other financing sources and uses during the reported period. Actual results could differ from these estimates.

COUNTY OF KAUA'I, HAWAII

NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING

Annual appropriated budgets are adopted for the following funds:

General	Public Access
Housing and Community Development Revolving	Sewer Trust
General Excise Tax	Development Capital Improvement
Solid Waste Disposal	Bikeway Capital Improvement
Highway	Highway Capital Improvement
Liquor	Public Housing Enterprise
Beautification	Sewer Enterprise
Criminal Asset Forfeiture	Golf Enterprise
Parks and Playground Capital Improvement	

Budgets are adopted on a basis consistent with GAAP except that expenditures include encumbrances as budgetary expenditures in the year the commitments are made and exclude claims and judgments and landfill closure and postclosure liabilities. Annual appropriations, except enterprise funds, lapse at fiscal year end. Project ordinances are adopted for capital projects funds.

The County uses the following procedures in establishing the budgetary data reflected in the financial statements:

- On or before March 15, the Mayor submits a proposed operating and capital projects budget for the year commencing the following July 1 to the County Council. The operating and capital project budgets include proposed expenditures and the means to finance them.
- Public hearings are conducted to obtain citizen comments. The Council may amend the Mayor's budget. On or before June 7 of the fiscal year currently ending, the Council legally enacts the budget through the passage of a budget ordinance.
- Amendments to the enacted budget ordinances may be proposed by the Mayor and enacted by the Council (under the same procedures prescribed for the enactment of the annual budget ordinance), provided that no amendment increases the aggregate of authorized expenditures to an amount greater than the estimate of available financial resources for the fiscal year.
- The Mayor is authorized to transfer appropriations between programs within a department without Council approval; however, any transfer that alters the total expenditures of any department must be approved by the Council.

Formal budgetary integration is employed in the annual operating budgets as a management control device during the year for the General Fund and Special Revenue Funds (except for Section 8, Plans and Permits, and State Grants). Accordingly, budget figures are included in the respective *Statement/Schedules of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual*. The Capital Projects Funds budgets were adopted on a project basis and they are included in this presentation.

COUNTY OF KAUA'I, HAWAII
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING (Continued)

Formal budgetary integration is also employed for the Public Housing, Sewer, and Golf Funds. Accordingly, budget figures are included as additional information in the respective *Schedules of Revenues, Expenditures, and Changes in Fund Equity - Budget and Actual* for these funds.

Formal budgetary integration is not employed for the Debt Service Fund, Bond Fund, Agency Funds, certain Special Revenue Funds, and Capital Projects Funds, as noted above. Budgetary control for these funds is achieved through bond indentures, contractual or grant provisions, project oversight, and legislation.

Flexible budgeting is employed by the Department. Expenditures may not exceed appropriations at the departmental level. Individual fund budgetary comparisons (by object code and by year of appropriation) are reported in separate budgetary reports, which can be obtained from the County's Director of Finance.

The final budget figures presented include all amendments during the year. Amendments to the budget ordinance for the fiscal year were made in compliance with the procedures described above. Several budget amendments were made during the year.

NOTE 3 - BUDGET TO GAAP RECONCILIATION

Encumbrance accounting is employed as an extension of formal budgetary integration in the General Fund and budgeted Special Revenue Funds. Capital Projects Funds also employ encumbrance accounting to reserve for construction contracts. Actual expenditures on a budgetary basis include current year reserves for encumbrances and exclude payments on prior year encumbrances. Encumbrances outstanding at year end do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year. Budgeted deficiencies are funded by the estimated unreserved-undesignated fund balances as of June 30, 2019.

The County's budget is prepared differently from GAAP. Therefore, the *Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - General Fund, Housing and Community Development Revolving Fund, and Solid Waste Disposal Fund* are presented on the budgetary basis, using budgetary expenditure categories.

COUNTY OF KAUA'I, HAWAII
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 3 - BUDGET TO GAAP RECONCILIATION (Continued)

The following is a reconciliation of the differences between the budgetary basis and GAAP basis for the excess of revenues and other sources over expenditures and other uses for the aforementioned financial statements:

	<u>General Fund</u>	<u>Housing and Community Development Revolving Fund</u>	<u>Solid Waste Disposal Fund</u>
GAAP excess (deficiency) of revenues and other financing sources over (under) expenditures and other financing uses	\$ 15,807,726	\$ (111,401)	\$ 935,891
Encumbrances and unexpended allotments, current year	<u>(7,859,421)</u>	<u>(230,351)</u>	<u>(4,153,312)</u>
Non-GAAP budgetary basis excess (deficiency) of revenues and other financing sources over (under) expenditures and other financing uses	\$ <u>7,948,305</u>	\$ <u>(341,752)</u>	\$ <u>(3,217,421)</u>

NOTE 4 - DEPOSITS AND INVESTMENTS

The County maintains a cash and investment pool that is used by all funds, including the Department. Each of the fund's and component unit's portion of this pool are displayed in the accompanying financial statements.

Deposits

The deposits of the County consist of cash and cash equivalents, money market accounts, and negotiable and non-negotiable certificates of deposit. At year end, the carrying values (book balances) of these deposits with banks and savings institutions approximated \$71,369,000 and the balances carried by the bank were approximately \$78,952,000. The Department's carrying value of these deposits with banks and savings institutions approximated \$10,266,000 and the balances carried by the bank were approximately \$10,169,000. All of these deposits are covered by federal depository insurance or collateralized by securities held by financial institutions in the County's name.

Investments

As of June 30, 2019, the County and the Department held approximately \$93,488,000 and \$35,856,000, respectively, or 66% and 63% of their investments in Federal Government Sponsored Entities and Government Securities.

Interest Rate Risk

As a means of limiting exposure to fair value losses arising from rising interest rates, State law limits the County from holding investments with maturities in excess of five years.

As of June 30, 2019, the County and the Department had the following investments:

County

Credit Risk

State law limits investments to the top rating issued by nationally recognized statistical rating organizations (NRSRO's) or investments that have the faith and credit of the United States pledged for the payment of principal and interest. The County and Department have no investment policy that would further limit its investment choices. As of June 30, 2019, the County and Department's investments had an AA or greater rating.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the County and Department's investments are held in its name.

NOTE 4 - DEPOSITS AND INVESTMENTS (Continued)

Concentration of Credit Risk

The County places no limit on the amount which may be invested in any one issuer. As of June 30, 2019, the County and the Department held more than 5% of their investments in the following:

	<u>County</u>	
FHLB - Federal Home Loan Bank	\$ 24,779,699	17.6%
FHLMC - Freddie Mac	22,920,939	16.2%

First Hawaiian Bank	<u>21,751,257</u>	<u>15.4%</u>
Total	\$ <u>115,239,490</u>	<u>81.6%</u>

As of June 30, 2019, more than 5% of the Department's investments are held in the following: Federal Farm Credit Bank (20%), First Hawaiian Bank (16%), Freddie Mac (16%), U.S. Treasury (11%), Fannie Mae (9%), Federal Home Loan Bank (8%), and Blackrock (6%).

NOTE 5 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that a government can access at the measurement date. An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 – Inputs other than quoted prices included within level 1 that are observable for an asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a level 2 input must be observable for most of the full term of the asset or liability. Level 2 inputs include:

- Quoted prices for similar assets or liabilities in active markets,
- Quoted prices for identical assets or liabilities in markets that are not active,
- Inputs other than quoted prices that are observable for the asset or liability,
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

On February 19, 2004, the Department entered into a Water Treatment and Delivery Agreement (Agreement) with an unrelated third party developer. The Agreement requires the developer to build, operate, and maintain a surface water treatment plant (SWTP) with a capacity of 3.0 million gallons per day (MGD). The Department is required to purchase, at a minimum, 2.0 MGD, and to provide the developer a credit towards its facility reserve charge. The term of the Agreement is 15 years and the Agreement provides the Department with the option of accepting the dedication of the SWTP at no cost after the reimbursement date, as defined. The Department commenced water purchases on January 1, 2006. This arrangement has been recorded as a capital lease in the Department's basic financial statements.

The capital lease obligation is amortized at an implicit rate of approximately 6.0%. The utility plant related to the SWTP facility was approximately \$7,181,000 as of June 30, 2019. The accumulated depreciation related to the SWTP facility was approximately \$7,181,000 as of June 30, 2019. The approximate annual requirements to amortize the Department's capital lease obligation as of June 30, 2019 approximated \$4,000.

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 11 - LONG-TERM LIABILITIES (Continued)

General Obligation Bonds - The County issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. These bonds have been issued by the County for both primary government and component unit activities.

General obligation bonds are direct obligations of the County. The County has pledged its full faith and credit. Additionally, the Department has pledged to maintain and collect revenues sufficient to pay all operating costs and to pay the principal and interest on such bonds as they become due.

The County and the Department issued general obligation bonds through the Build America Bonds and Recovery Zone Economic Development Bonds programs that provide 35% and 45%, respectively, in federal subsidies on the total interest requirements. The interest is paid to the County and the Department on a semi-annual basis corresponding with the interest payment dates to the bondholders. Subsidy payments of \$676,645 and \$302,315 were received in fiscal year 2019 for Build America Bonds and Recovery Zone Economic Development Bonds, respectively.

Claims and judgments - Claims and lawsuits have been filed against the County in the normal course of its operations and are paid from the General Fund. The liability for probable losses has been accrued in the government-wide statement of net position.

Landfill closure and post-closure - The County recognizes a portion of the closure and post-closure care costs each operating period in the Solid Waste Fund. The liability for these costs is included in the government-wide statement of net position and is based on the landfill capacity used as of the balance sheet date.

Compensated absences - Compensated absences consist of accrued vacation leave and compensated time earned. For the fiscal year ended June 30, 2019, the liability was liquidated from the general and highways funds. The liability for the accumulated unpaid portion has been accrued for in the government-wide statement of net position.

NOTE 12 - EMPLOYEE BENEFIT PLANS

Pension Plan

Plan description. The ERS is a cost-sharing, multiple-employer public employee retirement system established as a defined benefit pension plan to administer a pension benefits program for all eligible employees of the State and counties of Hawaii. Benefit terms, eligibility, and contribution requirements are established by Chapter 88 of the Hawaii Revised Statutes and can be amended through legislation.

The ERS provides retirement, disability and death benefits that are covered by the provisions of the noncontributory, contributory and hybrid retirement membership classes. The three classes provide a monthly retirement allowance equal to the benefit multiplier (generally 1.25% or 2.25%) multiplied by the average final compensation multiplied by years of credited service. Average final compensation is an average of the highest salaries during any three years of credited service, excluding any salary paid in lieu of vacation for employees hired January 1, 1971 or later and the average of the highest salaries during any five years of credited service including any salary paid in lieu of vacation for employees hired prior to January 1, 1971.

For members hired before July 1, 2012, the original retirement allowance is increased by 2.5% each July 1 following the calendar year of retirement. This cumulative benefit is not compounded and increases each year by 2.5% of the original retirement allowance without a ceiling (2.5% of the original retirement allowance the first year, 5.0% the second year, 7.5% the third year, etc.). For members hired after June 30, 2012, the post-retirement annuity increase was decreased to 1.5% per year.

Noncontributory Class

Retirement Benefits - General employees' retirement benefits are determined as 1.25% of average final compensation multiplied by the years of credited service. Employees with 10 years of credited service are eligible to retire at age 62. Employees with 30 years of credited service are eligible to retire at age 55.

Disability Benefits - Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 35% of their average final compensation. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are determined in the same manner as retirement benefits but are payable immediately, without an actuarial reduction, and at a minimum of 12.5% of average final compensation.

Death Benefits - For service-connected deaths, the surviving spouse/reciprocal beneficiary receives a monthly benefit of 30% of the average final compensation until remarriage or re-entry into a new reciprocal beneficiary relationship. Additional benefits are payable to surviving dependent children up to age 18. If there is no spouse/reciprocal beneficiary or dependent children, no benefit is payable.

COUNTY OF KAUA'I, HAWAII
NOTES TO THE FINANCIAL STATEMENTS

NOTE 12 - EMPLOYEE BENEFIT PLANS (Continued)

Ten years of credited service is required for ordinary death benefits. For ordinary death benefits, the surviving spouse/reciprocal beneficiary (until remarriage/reentry into a new reciprocal beneficiary relationship) and dependent children (up to age 18) receive a benefit equal to a percentage of member's accrued maximum allowance unreduced for age or, if the member was eligible for retirement at the time of death, the surviving spouse/reciprocal beneficiary receives 100% joint and survivor lifetime pension and the dependent children receive a percentage of the member's accrued maximum allowance unreduced for age.

Contributory Plan for Employees Hired Prior to July 1, 2012

Retirement Benefits - General employees' retirement benefits are determined as 2% of average final compensation multiplied by the years of credited service. General employees with 5 years of credited service are eligible to retire at age 55.

Police and firefighters' retirement benefits are determined as 2.5% of average final compensation for each year of service up to a maximum of 80%. Police and firefighters with five years of credited service are eligible to retire at age 55. Police officers and firefighters with 25 years of credited service are eligible to retire at age 55, provided the last five years is service credited in these occupations.

Disability Benefits - Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 50% of their average final compensation. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are determined as 1.75% of average final compensation multiplied by the years of credited service but are payable immediately, without an actuarial reduction, and at a minimum of 30% of average final compensation.

Death Benefits - For service-connected deaths, the surviving spouse/reciprocal beneficiary receives a lump sum payment of the member's contributions and accrued interest plus a monthly benefit of 50% of the average final compensation until remarriage or re-entry into a new reciprocal beneficiary relationship. If there is no surviving spouse/reciprocal beneficiary, surviving children (up to age 18) or dependent parents are eligible for the monthly benefit. If there is no spouse/reciprocal beneficiary or dependent children/parents, the ordinary death benefit is payable to the designated beneficiary.

Ordinary death benefits are available to employees who were active at time of death with at least 1 year of service. Ordinary death benefits consist of a lump sum payment of the member's contributions and accrued interest plus a percentage of the salary earned in the 12 months preceding death, or 50% Joint and Survivor lifetime pension if the member was not eligible for retirement at the time of death but was credited with at least 10 years of service and designated one beneficiary, or 100% Joint and Survivor lifetime pension if the member was eligible for retirement at the time of death and designated one beneficiary.

NOTE 12 - EMPLOYEE BENEFIT PLANS (Continued)

Contributory Plan for Employees Hired After June 30, 2012

Retirement Benefits - General employees' retirement benefits are determined as 1.75% of average final compensation multiplied by the years of credited service. General employees with ten years of credited service are eligible to retire at age 60.

Police and firefighters' retirement benefits are determined as 2.25% of average final compensation for each year of service up to a maximum of 80%. Police and firefighters with 10 years of credited service are eligible to retire at age 60. Police officers and firefighters with 25 years of credited service are eligible to retire at age 55, provided the last five years is service credited in these occupations.

Disability and Death Benefits - Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 50% of their average final compensation plus refund of contributions and accrued interest. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are 1.75% of average final compensation for each year of services for police and firefighters and are payable immediately, without an actuarial reduction, at a minimum of 30% of average final compensation.

Death benefits for contributory plan members hired after June 30, 2012 are generally the same as those for contributory plan members hired June 30, 2012 and prior.

Hybrid Plan for Employees Hired Prior to July 1, 2012

Retirement Benefits - General employees' retirement benefits are determined as 2% of average final compensation multiplied by the years of credited service. General employees with 5 years of credited service are eligible to retire at age 62. General employees with 30 years of credited service are eligible to retire at age 55.

Disability Benefits - Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 35% of their average final compensation plus refund of their contributions and accrued interest. NOTE 12 - EMPLOYEE BENEFIT PLANS (Continued)

Ordinary death benefits are available to employees who were active at time of death with at least five years of service. Ordinary death benefits consist of a lump sum payment of the member's contributions and accrued interest plus a percentage multiplied by 150%, or 50% Joint and Survivor lifetime pension if the member was not eligible for retirement at the time of death but was credited with at least 10 years of service and designated one beneficiary, or 100% Joint and Survivor lifetime pension if the member was eligible for retirement at the time of death and designated one beneficiary.

Hybrid Plan for Employees Hired After June 30, 2012

Retirement Benefits - General employees' retirement benefits are determined as 1.75% of average final compensation multiplied by the years of credited service. General employees with 10 years of credited service are eligible to retire at age 65. Employees with 30 years of credited service are eligible to retire at age 60. Sewer workers, water safety officers, and EMTs may retire with 25 years of credited service at age 55.

Disability and Death Benefits - Provisions for disability and death benefits generally remain the same except for ordinary death benefits. Ordinary death benefits are available to employees who were active at time of death with at least ten years of service. Ordinary death benefits consist of a lump sum payment of the member's contributions and accrued interest, or 50% Joint and Survivor lifetime pension if the member was not eligible for retirement at the time of death but was credited with at least ten years of service and designated one beneficiary, or 100% Joint and Survivor lifetime pension if the member was eligible for retirement at the time of death and designated one beneficiary.

Contributions - Contributions are established by HRS Chapter 88 and may be amended through legislation. The employer rate is set by statute based on the recommendations of the ERS actuary resulting from an experience study conducted every five years. Since July 1, 2005, the employer contribution rate is a fixed percentage of compensation, including the normal cost plus amounts required to pay for the unfunded actuarial accrued liabilities. The contribution rates for fiscal year 2019 were 31.00% for police and firefighters and 19.00% for all other employees. Contributions to the pension plan from the County and the Department were approximately \$20,076,000 and \$1,109,000 respectively, for the fiscal year ended June 30, 2019.

On May 18, 2017, the Governor signed into law Act 17 SLH 2017. Per Act 17, future employer contributions from the State and counties are expected to increase pursuant to a phased-in contribution rate increase over four years beginning July 1, 2017. The rate for police and firefighters increases to 31.00% on July 1, 2018; 36.00% on July 1, 2019; and 41.00% on July 1, 2020 and the rate for all other employees increase to 19.00% on July 1, 2018; 22.00% on July 1, 2019; and 24.00% on July 1, 2020.

NOTE 12 - EMPLOYEE BENEFIT PLANS (Continued)

The employer is required to make all contributions for members in the noncontributory plan. For contributory plan employees hired prior to July 1, 2012, general employees are required to contribute 7.8% of their salary and police and firefighters are required to contribute 12.2% of their salary. For contributory plan employees hired after June 30, 2012, police and firefighters are required to contribute 14.2% of their salary. Hybrid plan members hired prior July 1, 2012 are required to contribute 6.0% of their salary. Hybrid plan members hired after June 30, 2012 are required to contribute 8.0% of their salary.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2019, the County and Department reported a liability of \$299,878,624 and \$16,156,668 respectively, for their proportionate share of net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County and Department's proportion of the net pension liability was based on a projection of the County and Department's long-term share of contributions to the pension plan relative to projected contributions of all participants, actuarially determined. At June 30, 2018, the County's proportion was 2.252% which was an increase of 0.212% from its proportionate share measured as of June 30, 2017. At June 30, 2018, the Department's proportion was 0.121% which was an increase of approximately 0.001% from its proportionate share measured as June 30, 2017.

There were no significant changes in actuarial assumptions in 2018. There were no other changes between the measurement date, June 30, 2018, and the reporting date, June 30, 2019, that are expected to have a significant effect on the proportionate share of the net pension liability.

For the fiscal year ended June 30, 2019, the County and the Department recognized pension expense of approximately \$44,015,000 and \$2,212,000, respectively. At June 30, 2019, the County and the Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Assumptions - The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions adopted by the ERS's Board of Trustees on December 12, 2016, based on the 2015 Experience Study for the five-year period from July 1, 2010 through June 30, 2015:

Inflation	2.50%
Payroll growth	3.50%
Investment rate of return, including inflation	7.00% per year, compounded annually, including inflation

There were no changes to the ad hoc postemployment benefits including cost of living allowance. Post-retirement mortality rates are based on the 2016 Public Retirees of Hawaii mortality table with adjustments based on generational projections of the BB projection table for 2016 and full generational projections in future years. Pre-retirement mortality rates are based on multiples of RP-2014 mortality table based on the occupation of the member.

The long-term expected rate of return on pension plan investments was determined using a "top down approach" of the Bespoke Client Constrained Simulation-based Optimization Model (a statistical technique known as "re-sampling with replacement" that directly keys in on specific plan-level risk factors as stipulated by the ERS Board of Trustees) in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are then combined to produce the long-term expected rate of return by weighting the expected future nominal rates of return (real returns and inflation) by the target asset allocation percentage. The target allocation and best estimates of geometric real rates of return for each major asset class used in the actuarial valuation are summarized in the following table:

Strategic Allocation (risk-based classes)	Strategic class weights	Expected long-term geometric average strategic range	Expected long-term real return*	Expected annual standard deviation
Broad growth	63.00 %	7.10%	4.85%	17.35%
Principal protection	7.00 %	2.50%	0.25%	3.50%
Real return	10.00 %	4.10%	1.85%	6.10%
Crisis risk offset	<u>20.00 %</u>	4.60%	2.35%	9.45%
	<u>100.00 %</u>			

*Uses an expected inflation of 2.25%

Discount Rate - The discount rate used to measure the net pension liability at June 30, 2018 was 7.00%, consistent with the rate used at the prior measurement period. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from the County will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Sensitivity of the County and Department's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the County and Department's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the County and Department's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.00%) or 1-percentage point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
County's proportionate share of the net pension liability	\$ <u>395,225,291</u>	\$ <u>299,878,624</u>	\$ <u>221,279,953</u>
Department's proportionate share of the net pension liability	\$ <u>21,009,134</u>	\$ <u>16,156,668</u>	\$ <u>12,156,556</u>

Pension Plan Fiduciary Net Position - The pension plan's fiduciary net position is determined on the same basis used by the pension plan. The ERS's financial statements are prepared using the accrual basis of accounting under which expenses are recorded when the liability is incurred, and revenues are recorded in the accounting period in which they are earned and become measurable. Employer and member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investment purchases and sales are recorded as of their trade date. Administrative expenses are financed exclusively with investment income.

There were no significant changes after the report measurement date. Detailed information about the pension plan's fiduciary net position is available in the separately issued ERS financial report. ERS's complete financial statements are available at <http://www.ers.ehawaii.gov>.

Payables to the Pension Plan

As of June 30, 2019, the County and the Department had payables to the pension plan of \$1,326,370 and \$0, respectively.

NOTE 13 - POST EMPLOYMENT HEALTHCARE PLAN

Postemployment Benefits Other Than Pensions (OPEB)

Plan Description - The County provides certain healthcare and life insurance benefits to all qualified employees through the Hawaii Employer - Union Health Benefit Trust Fund (EUTF), an agent multiple-employer defined benefit plan that replaced the Hawaii Public Employees Health Fund effective July 1, 2003. The EUTF was established to provide a single delivery system of health benefits for state and county workers, retirees, and their dependents. As an agency of the State, the EUTF contracts with providers of medical, dental, vision, and life insurance plans. The EUTF plan currently provides medical, dental, vision, and life insurance benefits. The EUTF issues an annual financial report that is available to the public. That report may be obtained by writing to the EUTF at P.O. Box 2121, Honolulu, Hawaii 96805-2121.

For employees hired before July 1, 1996, the County pays the entire base monthly contribution for employees retiring with 10 years or more of credited service and 50% of the base monthly contribution for employees retiring with fewer than 10 years of credited service. A retiree can elect a family plan to cover dependents.

For employees hired after June 30, 1996 but before July 1, 2001, and who retire with less than 10 years of service, the County makes no contributions. For those retiring with at least 10 years but fewer than 15 years of service, the County pays 50% of the base monthly contribution. For those retiring with at least 15 years but fewer than 25 years of service, the County pays 75% of the base monthly contribution. For those employees retiring with at least 25 years of service, the County pays 100% of the base monthly contribution. Retirees in this category can elect a family plan to cover dependents.

For employees hired on or after July 1, 2001, and who retire with less than 10 years of service, the County makes no contributions. For those retiring with at least 10 years but fewer than 15 years of service, the County pays 50% of the base monthly contribution. For those retiring with at least 15 years but fewer than 25 years of service, the County pays 75% of the base monthly contribution. For those employees retiring with at least 25 years of service, the County pays 100% of the base monthly contribution. Only single plan coverage is provided for retirees in this category. Retirees can elect family coverage but must pay the difference.

Contributions - The County's contribution levels are established by Chapter 87A of the HRS and may be amended through legislation. For the fiscal year ended June 30, 2019 contributions to the OPEB plan from the County and the Department were \$16,595,000 and \$1,011,000, respectively. The employer is required to make all contributions for members.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflow of Resources Related to OBEP – At June 30, 2019 the County and Department reported a net OPEB liability of \$149,242,257 and \$8,459,304, respectively. The net OPEB liability was measured as of July 1, 2018 and the total OPEB liability to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

There were no changes between the measurement date, July 1, 2018, and the reporting date, June 30, 2019, that are expected to have a significant effect on the net OPEB liability.

For the fiscal year ended June 30, 2019, the County and Department recognized OPEB expense of approximately \$15,572,000 and \$926,000, respectively. At June 30, 2019, the County and Department reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

NOTE 13 - POST EMPLOYMENT HEALTHCARE PLAN (Continued)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of July 1, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Non U.S. equity	17.00%	6.50%
U.S. equity	15.00%	5.05%
Private equity	10.00%	8.65%
Core real estate	10.00%	4.10%
Trend following	9.00%	3.00%
U.S. microcap	7.00%	7.00%
Global options	7.00%	4.50%
Private credit	6.00%	5.25%
Long treasuries	6.00%	1.90%
Alternative risk permia	5.00%	2.45%
TIPS	5.00%	0.75%
Core bonds	3.00%	1.30%
	<u>100.00%</u>	

Single Discount Rate - The discount rate used to measure the total OPEB liability was 7.00% based on the expected rate of return on OPEB plan investments of 7.00% and the municipal bond rate of 3.62% (based on the daily rate closest to but not later than the measurement date of the Fidelity "20-year Municipal GO AA Index"). Beginning with the fiscal year 2019 contribution, the funding policy of the County is to pay the recommended actuarially determined contribution, which is based on layered, closed amortization periods. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Deferred Compensation Plan

The County participates in a deferred compensation plan established by the State of Hawaii in accordance with Internal Revenue Code Section 457. The plan is available to all the County employees, and permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All plan assets are held in a trust fund to protect them from claims of general creditors. The County has no responsibility for loss due to the investment or failure of investment of funds and assets in the plans, but does have the duty of due care that would be required of an ordinary prudent investor.

COUNTY OF KAUA'I, HAWAII
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 13 - POST EMPLOYMENT HEALTHCARE PLAN (Continued)

The County has met the requirements for the Small Business Job Protection Act of 1996 for its Internal Revenue Code Section 457 Plan, and in accordance with the criteria set forth in the GASB Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*, the County has excluded the plan assets and liabilities from the government-wide financial statements because the County does not have significant administrative involvement in the Plan or perform the investment function for the Plan. All such amounts are not subject to the claims of the County's general creditors.

NOTE 14 - COMMITMENTS AND CONTINGENCIES

Claims and Judgments

The County is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County maintains certain comprehensive general liability and property insurance, public official and law enforcement liability insurance, and excess auto liability insurance for claims. It is the opinion of management and legal counsel that such claims and lawsuits are either covered by the County's insurance policies, or if they should exceed the County's retained risk, are recorded in the government-wide financial statements. There was no reduction in insurance coverage during the year from coverage in the prior year. During the past four fiscal years, the amount of settlements in cases covered by insurance have not exceeded the insurance coverage. The County is substantially self-insured for its vehicles as well as for all other perils including workers' compensation and general liability below \$500,000. Claims against the County are paid out of the General Fund.

Liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claims liabilities, including IBNR, are based on the estimated ultimate cost of settling the claims, and include incremental costs for the hiring of special counsel and expert witnesses. Claims liabilities are estimated on a case-by-case review of all claims and the application of historical experience to outstanding claims.

Estimates of IBNR are based on historical experience. The liability for claims and judgments is reported on the government-wide *Statement of Net Position*. At June 30, 2019, the amount of this liability was approximately \$8.6 million. This is the County's best estimate based on available information. Changes in the reported liability since July 1, 2017, are given below:

<u>Fiscal Year</u>	<u>Liability at Beginning of Year</u>	<u>Current Year Claims and Changes In Estimates</u>	<u>Claim Payments and Adjustments</u>	<u>Liability at End of Year</u>

Puhi Metals Recycling Center

The County of Kaua'i is facing potential contingent liability for contracting the operation and management of the Puhi Metals Recycling Center (PMRC) from October 11, 2001 to October 11, 2011 to a private contractor. The County leased the property comprising the PMRC from land owner Grove Farm, Inc. for the aforementioned ten (10) year period. Under its contract with the contracted operator, the County was to be defended, indemnified and held harmless for any and all damages to persons and or property during the operation, including its obligations under the land license between the County and Grove Farm, Inc. After the expiration of the contract with the contracted operator, the County was informed by the Grove Farm, Inc. that their property was allegedly damaged by the contracted operator. The County has since procured and obtained environmental studies on the property and based upon the recommendation by the County's consultant, the County began to implement an environmental remediation plan. At June 30, 2019, the remaining outstanding liability accrued by the County was approximately \$2.05 million.

Purchase Commitments

The outstanding portion of contractual commitments for capital projects, supplies, and other expenditures at June 30, 2019, was approximately \$32 million. Contractual commitments are generally reflected in the governmental fund financial statements as committed fund balance.

NOTE 15 - LANDFILL CLOSURE AND POST-CLOSURE CARE COSTS

GASB Statement No. 18, *Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs*, which is based on the October 9, 1991 United States Environmental Protection Agency (EPA) rule, "Solid Waste Disposal Facility Criteria," establishes closure requirements for all municipal solid waste landfills that receive waste after October 9, 1991. In accordance with GASB Statement No. 18, the County estimates in advance the total cost of closure and post-closure care during the life of those landfills rather than after their closings. Federal and State laws and regulations require the County to place final covers on certain landfill sites when they stop accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. Annual additions to the liability for closure and post-closure care costs are based on landfill capacity used as of each balance sheet date.

The County has three landfill sites - Kekaha Landfill Phases I and II, and Halehaka Landfill. The County has closed the Kekaha Landfill Phase I and Halehaka Landfill. The County estimates the closure costs for the Kekaha Landfill Phase II to be approximately \$14.9 million based on estimates provided by project engineers. At June 30, 2019, approximately 97.3% of the total capacity of the Kekaha Landfill Phase II had been used, and the estimated remaining landfill life is approximately 9 months.

NOTE 15 - LANDFILL CLOSURE AND POST-CLOSURE CARE COSTS (Continued)

The County completed the construction phase for the lateral expansion of the Cell II of the Kekaha Landfill Lateral Expansion. The expansion extended the life of the Kekaha Landfill by an additional 3.5 years. Cell II of the lateral expansion provided additional capacity for waste by the construction of a baseliner and leachate collection system in the area between Phase I and Phase II, further extending the landfill footprint. Department of Public Works, Solid Waste Division is in the process to further extend the life of Kekaha Landfill is anticipating completing construction in fiscal year 2020.

The total estimated closure costs accrued in the government-wide financial statements for the Kekaha Landfill Phase II, and the remaining post-closure costs for the Kekaha Landfill Phases I and II, and Halehaka Landfill was approximately \$41.6 million, which may change due to inflation, technology or applicable laws or regulations. This amount is fully accrued in the government-wide financial statements.

The County has provided for financial resources that will be available to provide for closure, post-closure care and remediation or containment of environmental hazards at the above landfills. The Environmental Protection Agency's financial assurance rules include a local government financial test consisting of a financial component, a public notice component, and a recordkeeping component. Local governments are required to satisfy each of the three components to pass the annual test. Management believes that the County has satisfied each of the components of the local government financial assurance requirements.

NOTE 16 - FUND BALANCE CONSTRAINTS

Stabilization Arrangements - The County Resolution 2011-77 established the Reserve Fund and Reserve Fund Policy which was amended by County Resolution 2017-28. The County intends to maintain the Reserve Fund within the General Fund in the range of 30% of the previous year's actual operating general fund revenues. The Reserve Fund was established for the following purposes: Extreme events / natural disasters (10.0%), revenue volatility (18.5%) and expenditure volatility (1.5%). The Reserve Fund can only be used to provide a short-term solution to maintain necessary services until revenue growth and/or expenditure reductions are instituted to balance the budget and normalize cash flow. In the event that the funds from the Reserve Fund are utilized, the County Council and Administration shall timely propose and approve a financial plan to replenish the Reserve Fund to prescribed policy levels, not to exceed 3 years.

The balance of the Reserve Fund is reported in the fund balance in the General Fund as follows:

	<u>Amount</u>
Committed fund balance	\$ 15,209,883
Unassigned fund balance	<u>30,419,766</u>

NOTE 16 - FUND BALANCE CONSTRAINTS (Continued)

Encumbrance accounting is employed in the governmental funds. Under this method, purchase orders, contracts, and other commitments outstanding at the fiscal-year end do not constitute expenditures or liabilities. These amounts generally will become liabilities in future periods as the services are rendered or goods purchased.

Encumbrances at June 30, 2019 include:

General Fund	\$ 7,859,421
Housing and Community Development Revolving Fund	230,351
Solid Waste Disposal Fund	4,153,312
Bond Fund	6,264,854

NOTE 17 - COMPONENT UNIT DISCLOSURES

Safe Drinking Water Act - The Department is subject to the requirements of the Safe Drinking Water Act (the Act) which is administered by the State of Hawai'i Department of Health on behalf of the United States Environmental Protection Agency. Management indicated that the Department is in full compliance with the requirements of the Act and is not aware of any matters under the Act that materially affected or are currently affecting the Department's customer service area.

Other - Other commitments, primarily for utility plan construction, approximated \$17,941,000 at June 30, 2019.

NOTE 18 - RELATED PARTY TRANSACTIONS

The Department charges the County for fire protection services (hydrant use) at agreed-to rates that approximate the costs for such services. The County provides certain services to the Department and charges the Department for these services at an amount equal to the charge for fire protection services. The amounts charged approximated \$2,174,000 for the fiscal year ended June 30, 2019. At June 30, 2019, amounts due from the Department for reimbursement of payroll expenses were approximately \$175,000.

COUNTY OF KAUA'I, HAWAII
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 19 - NEW ACCOUNTING PRONOUNCEMENTS

The GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (ARO). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Management has adopted the applicable requirements of this new standard as presented in the County's financial statements.

The GASB issued Statement No. 84, *Fiduciary Activities*. This Statement establishes specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business-type activities should report their fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Management has not yet determined the effect this Statement will have on the County's financial statements.

The GASB issued Statement No. 87, *Leases*. This Statement requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Management has not yet determined the effect this Statement will have on the County's financial statements.

The GASB issued Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. This Statement defines debt for purposes of disclosure in notes to financial statements and establishes additional financial statement note disclosure requirements related to debt obligations of governments, including direct borrowings (for example, a government entering into a loan agreement with a lender) and direct placements (for example, a government issuing a debt security directly to an investor). Direct borrowings and direct placements have terms negotiated directly with the investor or lender and are not offered for public sale. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Management has adopted the applicable requirements of this new standard as presented in the County's financial statements.

NOTE 19 - NEW ACCOUNTING PRONOUNCEMENTS (Continued)

The GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. Changes adopted to conform to the provisions of this Statement should be applied prospectively. Management has not yet determined the effect this Statement will have on the County's financial statements.

The GASB issued Statement No. 90, *Majority Equity Interest - an Amendment of GASB Statement No. 14 and No. 61*. This Statement improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information of certain component units. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged. Changes adopted to conform to the provisions of this Statement should be applied retroactively, except certain provisions that should be applied on a prospective basis. Management has not yet determined the effect this Statement will have on the County's financial statements.

The GASB issued Statement No. 91, *Conduit Debt Obligations*. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged. Management has not yet determined the effect this Statement will have on the County's financial statements.

NOTE 20 - SUBSEQUENT EVENTS

The County has evaluated subsequent events through December 20, 2019, the date the financial statements were available to be issued. On December 17, 2019, approximately \$20.3 million of Series 2019 Special Tax Revenue Bonds bearing the County's name were issued to finance the Kukui'ula Development Project. The proceeds from the bonds will be utilized for acquiring or constructing certain public facilities, funding a deposit to a reserve account, paying a portion of the interest payable in future years, and paying the costs of issuance.
