

The Honorable Anthony Foxx
Secretary, U.S. Department of Transportation
1200 New Jersey Avenue, SE
Washington, D.C. 20590

Dear Secretary Foxx,

Wilcox Memorial Hospital strongly supports the County of Kaua'i's TIGER grant application to assist in completing the Lihu'e Town Core Mobility and Revitalization Project.

Our organization has partnered with the County of Kaua'i on numerous health initiatives. Most recently, we worked together on our County's Community Health Needs Assessment and Community Health Improvement Initiative. These comprehensive plans identified the need to encourage active transportation through changes in our built environment as a top priority in improving the health of Kaua'i County residents. The County's TIGER application transforms the Lihu'e Town Core to become the pedestrian-, bicycle- and transit-friendly heart of our island, connecting people, especially disadvantaged populations, to jobs, education and social services.

We are pleased to be a partner with the County of Kaua'i in promoting and achieving changes to the built environment that encourage tangible health improvements. The Lihu'e Town Core Mobility and Revitalization project will enable us to achieve this goal.

Sincerely,

Kathy Clark, RN, BSN, MBA, FACHE
President and Chief Executive Officer
