COUNTY OFKAUAI

Instructions to Applicant for Road Tests

Identified below are the requirements that the applicant will have to adhere to, while taking the road test:

1. The applicant must: 1) possess a valid instructional permit; 2) have an appointment for the road test; and 3) appear at the appointment with an accompanying driver who possesses a valid driver’s license and is over the age of 21 years old.

2. The applicant and any accompanying passengers must be able to pass a health screening. If the applicant does not pass the health screening (Has a temperature above 100.4F or 38C and/or answers “yes” to any of the questions), the road test will be rescheduled to another day that is at least fourteen (14) days later. The health screening questionnaire must be signed by the IP and retained by the DL Office.

3. The applicant and the accompanying driver must wear a face mask when they report to the Driver License office for the road test. If the applicant does not have a face mask, the road test will be rescheduled. If the accompanying driver does not have a face mask when he/she reports for the appointment, the accompanying driver will need to leave the facility. If the accompanying driver needs to leave the facility, the road test can continue; provided that the accompanying driver’s documents are first validated.

4. The vehicle with which the applicant desires to conduct the road test, must have the accompanying documents:
   i. Valid vehicle registration;
   ii. Valid vehicle safety check;
   iii. Valid vehicle insurance.

5. The vehicle must also pass the pre-trip portion of the road test (inspection), which will be conducted prior to executing the road test. If the vehicle does not pass the pre-trip inspection, the road test will be rescheduled.

6. The applicant will perform the road test and follow the instructions of the Driver License Examiner (DLE).

7. To ensure the health and safety of both the applicant and the DLE, the following proactive measures will be used:
   i. The applicant is required to wear and keep their face mask on at all times, including when the applicant is taking the road test. The face mask must be worn as it is intended to be worn. When worn properly, the face mask will cover the applicant’s nose and mouth; and it will be secured to the applicant’s face with a strap or two.
   ii. During the road test, the car’s air conditioner will be turned off and all windows of the vehicle will be rolled down.

If the applicant does not agree with these requirements, the road test will be rescheduled. If, during the road test, it begins to rain, the applicant will follow the instructions of the DLE, as to whether or not the road test will have to be canceled.

8. Upon completion of the road test, the applicant will continue to follow the instructions of the DLE and return the vehicle back to the driver license facility as directed by the DLE.

9. After the vehicle is safely parked, the applicant will be debriefed by the DLE. The results of the road test will be explained to the applicant.

10. A copy of the road test evaluation will be provided to the applicant. If the applicant successfully passes the road test, the DLE will direct the applicant to the DL facility for processing for a Provisional Driver’s License. If the applicant fails the road test, the DLE will instruct the applicant to reschedule a road test for another time.
