Water conservation request continues for Kalaheo customers

10:00 A.M. (Update) KALAHEO – The water conservation request remains in effect for customers in Kalaheo until further notice. An electrical power outage continues to affect our Kalaheo pump station. The Department of Water (DOW) was able to get a generator to our pump station, however, due to the limited power supply, only one water well is in operation at this time. Residents and businesses are asked to continue to limit water use to essential needs only; such as drinking, cooking and sanitation needs, in order to avoid a full water outage.

Water conservation measures include refraining from car washing, turning off automatic irrigation systems, ice machines and using water wisely indoors and outdoors.

An update will be provided as soon as new information becomes available. To monitor updates online, visit www.facebook.com/KauaiDOW.
