Water services restored to customers in Hanalei

HANALEI – Water services have been restored to Department of Water (DOW) customers located on Kūhiō Highway; between Malolo Street and the Hanalei River in Hanalei as of approximately 11 a.m. this morning. The required work to tie-in a new water line onto the existing system has been completed and customers may now resume normal water use.

Customers are advised that when the water main is turned back on after a shutdown, air and or existing sediment may be mixed into the water causing it to appear white or discolored. This is normal and if it occurs, customers may flush water out from an outside hose bib until water is clear.

DOW thanks Hanalei customers for their patience and cooperation during the water service shutdown.
