Asbestos disposal at Kekaha Landfill suspended through March 2020

KEKAHA – The Department of Public Works is announcing that asbestos disposal at the Kekaha Landfill is suspended through March 2020 due to construction at the facility.

“Contractors are urged to either delay production of asbestos containing waste, make accommodations to temporarily store the waste, or seek out other appropriate options until such time that the County of Kaua’i issues an announcement to resume asbestos disposal operations at the landfill,” said Deputy County Engineer Lyle Tabata.

Contractors may also dispose of asbestos with PVT Land Company. Asbestos disposal information can be viewed at the company's website at:

<http://www.pvtland.com/landfill/asbestos>.

For more information, please call the Solid Waste Division at 241-4841.
