

# New Kaua'i Landfill Environmental Impact Statement Community Meetings

## Purpose:

These four initial public meetings are being conducted to:

1. **Solicit public input to help identify environmental and cultural issues to be considered and addressed in the upcoming EIS.**
2. Inform the public regarding ongoing activities and the upcoming EIS process.

## Initial public meetings:

- Tues., May 22, 2012, 6:00-8:00 pm, King Kaumuali'i Elementary, Hanama'ulu
- Wed., May 23, 2012, 6:00-8:00 pm, Kekaha Neighborhood Center, Kekaha
- Tues., May 29, 2012, 6:00-8:00 pm, Kīlauea Elementary School, Kīlauea
- Wed., May 30, 2012, 6:00-8:00 pm, Kōloa Courthouse/Neighborhood Center, Koloa

## EIS Process

The EIS process includes the following milestones and opportunities for public input:

1. **Initial Public Meetings**
2. **FEA/EIS PN** – approx. August 2012
  - 30 Day Public Comment Period, including 2 additional public meetings
3. **DEIS** – Draft EIS approx. May 2013
  - 45 Day Public Comment Period, including 2 additional public meetings
4. **FEIS** – Publication of Final Environmental Impact Statement
  - FEIS expected approximately November 2013

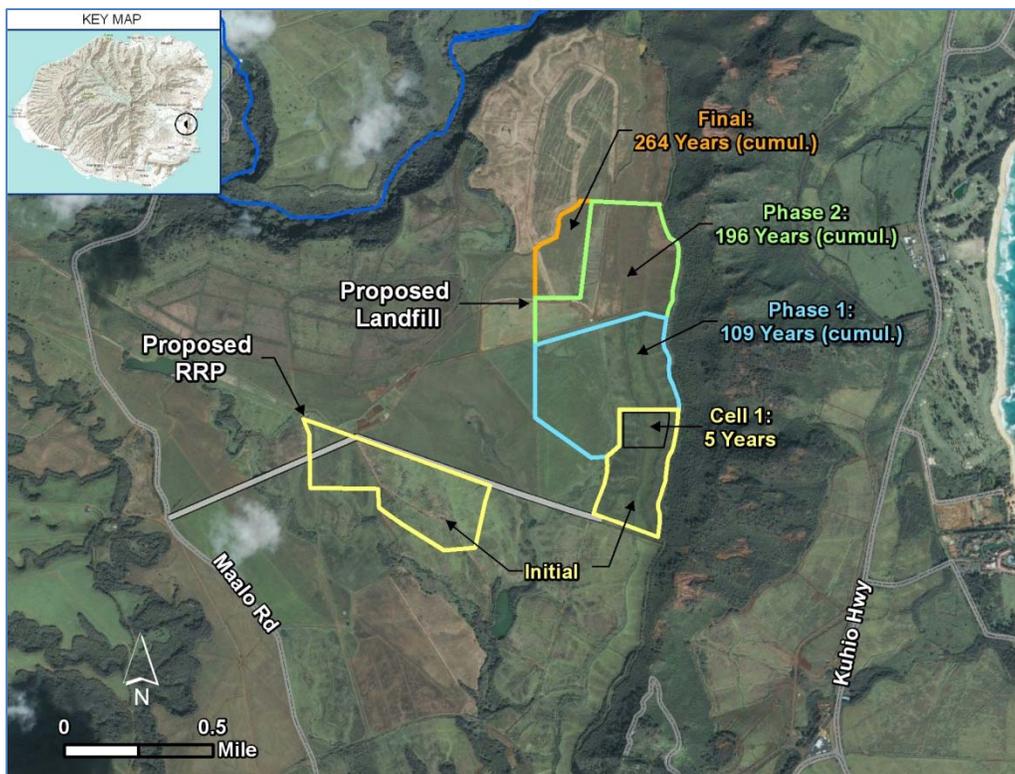

Documents and news will be posted to the County's New Landfill Website:

<http://www.kauai.gov/NewLandfillSite>

## Ma'alo is the proposed landfill site.

- The only willing landowner.
- Longest site life – estimated 264 years.
- Overall least annual cost.
- Ranks highest on the Community Criteria Evaluation.
- Central location = cost savings and positive sustainability effects.
- Landowner willing to site adjacent RRP.
- Anticipated relatively low nuisance factor due to local topography.

The Final Siting Study Report will be available on the County's website.

Preliminary schematic: subject to change.
