All sports organizations are required to submit a safety plan to protect players, families, and communities and slow the spread of the Coronavirus Disease 2019 (COVID-19).

All safety plans should be based on guidelines set by the Center for Disease Control (cdc.gov) and State of Hawaii – Department of Health (hawaiicovid19.com).

All safety proposals should include:
- Proof that the applicant’s national and state associations have approved league activities and that the league’s safety plan meets their requirements;
- For each location that the league is requesting a permit, site specific plans showing how safety measures will be implemented at each location (eg, spectator area with social distancing space, player areas marked off);
- Description of how safety procedures will be shared and enforced with all league staff, volunteers, parents, players and supporters.
- Name of league contact regarding COVID-19 safety plan. This will be who DOPR contacts regarding rules and/or enforcement of COVID-19 safety plan.

Failure to adhere to approved safety plans may lead to immediate cancelation of league permits.
