We offer various physical activities that improve hand-eye coordination, sensory development, and motor skills. Some of these activities include: zumba dancing, relay races, climbing on jungle gyms, as well as ball sports (i.e. soccer, basketball, football, etc.).

We provide a one-hour class session every day for children to learn about a specific topic (i.e. Hawaiiana, world cultures, recycling & conservation, etc.). These sessions are comprised of short lectures given by trained teachers, followed by arts and crafts or games that enhance your child’s cognitive skills.

One of the most important aspects of our program is that your child will have many opportunities to interact and cooperate with his or her peers. The team bonding activities that we offer will also encourage your child to build new friendships and improve communication skills.

We have at least one Water Day where kids get to enjoy slip-n-slides and other fun water activities to cool off!
