CHECK ENGINEERING ON MINIMUM ROUND-A-BOUT ENGINEERING. PUT THEM EVERYWHERE IT BECOME CONGESTED. EUROPE IS FILLED WITH VERY SMALL ROUND-A-BOUTS THAT FLOW REALLY WELL WITH HEAVY LOADS.

Comment:

Attended both July 13th and July 21st, 2016 Tiger Project Meetings. Listened to proposals. Planners - Dahilig: "no sidewalks." Instead, center street divider lines to be removed, and "bicycle printed outline" would be added to Puaole Street's asphalt surface. 7/13/16
 Turned-in Petition from residents/owners/visitors at properties on Puaole St, Unaha Street, Huala Street, and Kawili Street (all to be affected by these proposals). All 46 signatures are from above (residents/owners/visitors) day of petition signing on July 20, 2016 (house to house visits). All are against Tiger Project proposals that will directly affect our homes, safety, and way of life. Turned-in Petition (original copies) at Mtg. to Michael Dahilig, ^{Planning Director - County of Kauai} who rolled it up and stuck into his pants back pocket. Copy of same given (in person) to Mayor Carvalho (7/21/16).

Comment:

After attending July 21st meeting (Lihue Town Core Tiger Project Public Open House), I would like to suggest adding sidewalks on existing County roadway. I believe that when County adds the sidewalk, they will also address the drainage system. The existing drainage system does not work. During rainy season (whenever heavy rain), the water flows onto Puale Street. It puddles on both sides of our street. My position is if no sidewalk, then no bicycle path use either.
