Comment:

Even though using the Convention Hall parking lot as public parking is not part of the TIGER project, this is a concept that is vital to the long term economic growth of Rice St.
I know that maintenance is an issue, but the landscaping that was put in on Hardy St is very attractive. It would be nice for Rice street if it could also be nicely landscaped. I think it is better for it to be consistently maintained so there will be consistency throughout the street.

Comment:

In the mid Rice Street stretch between Hardy Street intersection and the new cross walk at H A coffee, consider an asymmetrical distribution of parking and increased curb parkway to exaggerate the turn in alignment of Rice street and decrease the linear extension with room for landscape shifting from one side to the other, north to south for example. See Town Core Plan offset alignment suggested for Elua street,

Comment:

Please make sure that any intersections, roads &/or roundabouts will comfortably accommodate large commercial vehicles, - school & tour buses, delivery trucks.
The Hardy St. roundabout does not allow a school bus that services Wilcox School to use it.

Comment:

COOL presentation, great turnout!
I saw a glimpse of younger families (lets have more of them)
I'd appreciate police presence/enforcement/tacitations to encourage automobiles yielding to pedestrians (and discourage jaywalking & reckless reckless bicycling too)
PS. Where is the love for skate boarders?
PS Other than parking in County parking spaces across street, any other way to ppl to park for go th post office during the day?

Comment: For Rice Street

1. ^{increase} Visual Appeal & Pedestrian/Bikers Accessibility + Parking
2. Increase businesses for economic revitalization of area
- Zoning for more open retail businesses in "dead zones" Main St. Rice.
3. Addition of an Interactive Contemporary Museum for Youth that emphasizes Kauai Resources
4. Grocery/Super market accessible to Seniors living in area
5. Theater or Strip Mall - (Mini) walking distance
6. Childcare facilities for working families including infant care
7. Interactive gaming activity for youth
8. Businesses - Support Services Center

Comment:

<p>This would be a good opportunity to introduce bio swales to help reduce the storm water runoff and add to the greenery on the street.</p>
<p>Minimizing storm runoff helps to keep our reefs healthy and so this responsible practice should be added to the Rice Street project scope of work.</p>

Comment:

1. Plse leave as much parallel parking on Rice so our customers can find on street parking.
2. Give M. Moule and L. Tabata and M. Dahilig a raise
3. Give L. Stelnetz a promotion.
4. Add landscaping and shade trees to encourage walking down Rice.

Comment:

Making any roadway safe is a positive step for the future of the island and its revitalization.
More parking, bike lanes, and sidewalks without widening the road(s) are fantastic.

Comment:

Stone Farm museum owns a large portion of Nawiliwili Valley adjacent to the Lihue Town. As such, much of County building and drainage affects the museum property.

- The County should have meetings with the museum personnel regarding this proposal to make sure further damage does not occur to the museum's property.*
- Every effort should be made to preserve the historic character of "Old Lihue" and avoid a "homogenized mainland appearance" on Kauai.*
- Stone Farm museum is a National Register Site and can not be negatively impacted by Federally funded projects. We would like to work with you to avoid that.*

PLANNING DEPT.
MARISA
P3 51

- Any money going into old Lileux should be for preservation of the scale and design and of this original historic rural community.
- The lobbyists used by the County said that a TIGER grant is for pro bike / pro walk approaches. In fact it is for alternate transportation methods, including locomotives.
- The email address listed on the front side of this paper does not work. I tried several times.
