Subdivision Extension Request.

Subdivision Application No. S-2018-12; AOAO KULANA CONDOMINIUM; Proposed 2-lot Subdivision; TMK: (4) 4-4-003: 089; Kapaa, Kaua‘i

Mr. Bukoski: Thank you Chair. Moving on to Item I.2, New Business I.2, and subdivision extension request. Subdivision Application No. S-2018-12; Kulana Condominium; proposed 2-lot subdivision; TMK: (4) 4-4-003: parcel 89; Kapaa, Kaua‘i.

Mr. Bukoski read the Subdivision Report for the record (on file with the Planning Department).

Mr. Bukoski: In considering the extension request, it should be noted that the applicant has been working diligently to comply with all the requirements of the tentative approval. Since it is uncertain to all the comments will be met. The applicant is requesting additional time to complete the subdivision; the additional time allows the applicant to meet all the requirements of the Government Agencies. Based on the foregoing circumstances the applicant’s reasons are justifiable and no problems are foreseen in granting the extension request. The Department of Public Works and Water have no objections to the request. I will hold off on my recommendation.

Chair Ho: Is there anyone from Kulana Condominium? Please come forward.

Mr. Max Graham: Good morning Subdivision Committee members. I am Max Graham and I represent the Kulana Association. This if you recall this subdivision is part of the, actually, it’s connected to the Kulana subdivision, this is the tank, the water tank lot for the subdivision. We have an agreement with the Department of Water, a memorandum of understanding which provides that this lot will be divided into 2-lots and the front portion adjacent to Hauiki Road is going to be dedicated to the Department of Water. The Water Tank has all been completed but we need to complete the first phase of water improvements in the Kulana subdivision before the improvements within the subdivision and the water tank. So these are the water tank improvements and the water improvements within the subdivision are dedicated to the Board of Water Supply. And so, the tanks completed and the Kulana Association is working on the first
phase of water infrastructure within the subdivision that should be completed within the year. And then we will be able to offer the entire package to the Department of Water. So, we need one more year extension to complete those.

Mr. Keawe: So that would be adequate Max, to have an additional year to May 22\textsuperscript{nd} 2020, at least? And you feel confident that at that point-

Mr. Graham: If anything comes up, I will do as suggested, I will prepare a complete report and if I didn’t need to come in again, I don’t think I will. If I did, I would prepare a Status Report.

Mr. Keawe: Alright, thank you.

Chair Ho: How many lots will this service, this water tank service?

Mr. Graham: Well, the water tank will service the Kulana Subdivision which is a 100 service connection for units within the subdivision. But it will serve the general system in the Kapaa area in that elevation.

Chair Ho: Mr. Bukoski your recommendation please?

Mr. Bukoski: Yes Chair. It is recommended that an extension until May 22\textsuperscript{nd} 2020, will be granted to obtain Final Subdivision Map Approval. However, the applicant is made aware that updated Status Report on the subdivision will be a detailed time chronology on the progress on the tentative approval requirements shall be submitted to the Planning Department for review for further extension request. The Status Report shall be submitted to the Planning Department no later than sixty (60) days prior to the expiration date. And that concludes my recommendation.

Ms. Apisa: I make a motion that we approve the one (1) year extension to May 22\textsuperscript{nd} 2020, and that a report be provided should any further extension be needed.

Mr. Keawe: Second.

Chair Ho: The motion before us is extension of time to May 22\textsuperscript{nd} 2020 for Kulana Condominium. All in favor? (Unanimous voice vote) Motion carries 3:0.

Mr. Bukosi: In consider the extension request, it should be noted that the applicant has been working diligently to comply with all the requirements of the tentative approval. Since it is uncertain as to when the All Agencies comments will be met the applicant is requesting additional time to complete the subdivision. The additional time allows the applicant to meet all the requirements of the Government Agencies. Based on the foregoing circumstances, the applicants’ reasons are justifiable and no problems are foreseen in granting the extension request. The Department of Public Works and Water have no objections to this request. And I will hold off of my recommendations Commissioners.

Chair Ho: Is there someone here representing the County of Kauai, Lima Ola Subdivision?

Mr. Bukosi: Commissioners, I did contact the County of Kauai’s consultants and they are okay with the time allotted recommendation.

Mr. Keawe: It’s just more of a Government process right, as far as time is concerned?

Mr. Bukosi: A historically, this subdivision application was vetted through the County Council process, (inaudible) process which ultimately deviates from a lot of the standards within the CZO and subdivisions. This is more of a formal request for the County of Kauai rather than we have jurisdiction over it.

Chair Ho: Your recommendation?

Mr. Bukosi: It is recommended that the extension until May 22nd 2020, be granted to obtain Final Subdivision Map Approval. However, the applicant is made aware that an updated Status report on the subdivision with a deed time, time chronology on the progress of the tentative approval requirement shall be submitted to the Planning Department review for further extension request. Mr. Bukoski read the Subdivision Report for the record (on file with the Planning Department).

Mr. Bukoski: In considering the Extension Request, it should be noted that the applicant has been working diligently to comply with all the requirements of tentative approval. Since it is uncertain as to when all the agency comments will be met the applicants requesting additional time to complete the subdivision. The additional time allows the applicant to meet all the requirements of the Government Agencies. Commissioners, I just want to add to include as well is that this subdivision is...we don’t really have jurisdiction on it, the County doesn’t and the State is subdividing 2-lots to dedicated one of the lots to the County of Kauai, Department of Water.

Mr. Keawe: So that’s the purpose of the 2-lot subdivision?

Mr. Bukoski: Correct, Commissioner Keawe.

Mr. Keawe: So it’s a dedication to County for water use.

Mr. Bukoski: Correct.

Chair Ho: Commissioners, I need a motion please.

Mr. Keawe: I move to approve Subdivision Application S-2018-16, State of Hawaii, proposed 2-lot subdivision, TMK: (4) 2-4-009: lot 3, Koloa, Kauai and Extension approved to June 26th 2020, with a Status Report due sixty (60) days prior.

Mr. Bukoski: Thank you Chair. Moving on to the last Item on the Agenda Item 2d, Subdivision involving Subdivision Application No. S-2018-18; Yama-Umi, LLC. Proposed 2-lot Boundary Adjustment; TMK: (4) 4-3-009: Parcel 042; Waipouli, Kauai.

Mr. Bukoski read the Subdivision Report for the record (on file with the Planning Department).
Mr. Bukoski: In considering the extension request it shall be noted that the applicant has been working diligently to comply with all of the requirements of the tentative approval. Since it is uncertain as to when the all agencies comments will be met, the applicant is requesting additional time to complete the subdivision. The additional time allows the applicant to meet all the requirements of the Government Agencies. And I will hold off on my recommendation Commissioners.

Chair Ho: Is there someone in the audience representing Yama-Umi, LLC? Please come forward.

Ms. Maren Arismendez-Herrera: Good morning. Maren Arismendez-Herrera from Esaki Surveying. Here we have the owners, Yama-Umi, LLC. The main reason for the extension is additional water improvements of water meter which needs to be installed. The request has been made to the Department of Water but as a requirement to install the water meter the owners needed to obtain an easement for the water meter. So just to explain why the easement is necessary, the water meters is going to be installed on the back side of the lot where there is a County Road instead of at the frontend, instead of the highway. So the water line will have to go through an adjoining lot. The owner has acquired approval from the adjoining lot owner for the easement and it is in the process of recording that water easement that they need. Once that is recorded, then we can go ahead with Department of Water and get that water meter installed. And then they’ll give their recommendation for approval. So we just need more time to get that whole process done with Department of Water.

Mr. Keawe: Question? So Maren, the purpose obviously is to make the lot comply with code, is that right? The purpose of this-

Ms. Arismendez-Herrera: The Subdivision?

Mr. Keawe: Two-fold yes. But the underlying is that they comply with code?

Ms. Arismendez-Herrera: Right.

Mr. Keawe: Thank you.

Chair Ho: Who is granting the easement?

Ms. Arismendez-Herrera: I don’t recall the name but it is a private property on the back side of the lot. So it’s an adjoining lot owner.

Chair Ho: You are doing it, you have the permission to do the easement?

Ms. Arismendez-Herrera: Yes. They have acquired the lot owner, adjoining lot owner’s approval for the easement. But now it just has to go through Bureau of Conveyances so that it is recorded.
Mr. Keawe: Okay, so that would be part of the closing documents legal description of the easement.

Ms. Arismendez-Herrerra: Yes and that's where we are right. it will eventually made it-

Chair Ho: This is your second request for extension?

Ms. Arismendez-Herrerra: This is the first request for this subdivision.

Chair Ho: First?

Mr. Keawe: Yes, first.

Chair Ho: Mr. Bukoski your recommendation please.

Mr. Bukoski: It is recommended that the extension until June 26th 2020, be granted to obtain final subdivision nap approval. However, the applicant is made aware that an updated Status Report on the subdivision with a detailed time chronology be on the progress of the tentative approval requirement shall submitted to the Planning Department for review for further extension request. The Status Report shall be submitted to the Planning Department no later than sixty (60) days prior to the expiration date. That concludes my recommendation Commissioners.

Ms. Apisa: I move that we go ahead and approve the extension to June 26th 2020, with the provision that a formal report be provided should any further extension be required.

Mr. Keawe: Second.

Chair Ho: The motion before us is for time extension request for Yama-Umi, LLC, to June 26th 2020. All in favor? (Unanimous voice vote) Motion carries 3:0.

Ms. Arismendez-Herrerra: Thank you.

ADJOURNMENT

Mr. Bukoski: Thank you Chair. Moving on to Item J, Adjournment.

Mr. Keawe: I move to adjourn.

Ms. Apisa: Second.

Chair Ho: Motion on the floor is for adjournment. All in favor? (Unanimous voice vote) Motion carries 3:0. We are adjourned. Thank you.
