County of Kaua'i **Department of Finance** Mo'ikeha Building 4444 Rice Street, Suite 280 Lĩhu'e, Kaua'i HI 96766 PH# 241-4200 FAX# 241-6529

December 15, 2010

Honorable Mayor Bernard P. Carvalho, Jr.
Honorable Jay J. Furfaro, Council Chair And Members of the Kaua'i County Council County of Kaua'i
4444 Rice Street
Lihu'e, Hawai'i 96766

Dear Mayor Carvalho, Chairman Furfaro, and Members of the Council:

The Department of Finance is pleased to submit the Comprehensive Annual Financial Report (CAFR) of the County of Kaua'i (County), State of Hawai'i for the fiscal year July 1, 2009 to June 30, 2010.

Responsibility for both the accuracy of the data and the completeness and fairness of the information presented, including all disclosures, rests with the Department of Finance. It is believed that the data presented is accurate in all material respects and that it is provided in a manner designed to fairly set forth the financial position and results of operations of the County. All disclosures necessary to gain a maximum understanding of the County's financial affairs have been included.

The Department of Finance is tasked with the responsibility of establishing and maintaining an internal control structure and process that is designed to ensure that the assets of the County are protected from loss, theft, or misuse. It is also the responsibility of the Department of Finance to compile adequate accounting data to allow for the accurate preparation of financial statements in conformity with generally accepted accounting principles (GAAP).

Management is required to make decisions and judgments as to the concept of what constitutes reasonable assurance in reviewing the internal control mechanisms. Management must also weigh the cost of the control against the benefit that will likely be attained.

This report includes all funds of the County, including its component unit, the Department of Water (Department), established by the County Charter as a semi-autonomous body of the County government. This component unit is included in the County's reporting entity for fair presentation of the basic financial statements and to be in conformity with GAAP. The Board of Water Supply is appointed by the Mayor and is accountable for the activities of the Department. It would be potentially misleading if omitted in the County's financial reports because of its existing debt issuance, common employee benefits, and other fiscal dependence.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

The County of Kaua'i, commonly known as The Garden Island, includes the populated island of Kaua'i and Ni'ihau of approximately 64,600 residents. The island of Kaua'i has an area of 549 square miles square miles and approximately 137 miles of coastline. Ni'ihau is a privately owned island encompassing approximately 70 square miles and is inhabited primarily by native Hawaiians who work on the Robinson Family ranch. Owners of the island grant limited access to the general public. Kaua'i is the smallest in size and population and operating budget among the State's four counties. The County's largest industry has been tourism, and the island's scenic and tourist attractions include the Waimea Canyon, coined the "Grand Canyon of the Pacific", the incomparable Na Pali Coast, with its secret beaches and hidden valleys, the Fern Grotto reached by riverboat cruises, and many others.

The County has operated under the Mayor-County Council form of government since 1969. The executive branch of the County is headed by the Mayor who is elected on a non-partisan basis for a four-year term and with a two term limit. In its most recent election, Bernard P. Carvalho, Jr. was re-elected to serve a four-year term starting in December 2010. The legislative branch is the County Council which is composed of seven members who shall be elected at-large on a non-partisan basis, for a two-year term with no limit on terms.

There are no subordinate or separate municipal entities within the County's jurisdiction. All powers of the County shall be carried into execution as provided by its Charter or by ordinance of the County Council and Mayor. The State of Hawai'i constitution sets limits on total bonded indebtedness of the County. Under the Constitution and laws of the State of Hawai'i, the full faith and credit of the County are pledged to the payment of the general obligation bonds issued. For the payment of the principal and interest on the bonds, the County has the power and is obligated to levy ad valorem taxes, without limitation as to rate or amount, on all real property subject to taxation by the County. The County did not issue any special assessment debt nor is there any overlapping bonded debt on general obligation bonds.

The County provides a full range of municipal services. These services include Public Safety (police, fire, civil defense, humane society, outreach program, highway safety grants, drug related grants, liquor control, lifeguards), Sanitation (wastewater, recycling and solid waste operations) Public Works (engineering, building and construction inspections and approvals, janitorial and repair and maintenance of its facilities) Culture and Recreation (public pools, parks and beaches, golf course, neighborhood centers, recreation programs, beautification program, auditorium, stadium) Public Welfare (elderly affairs, transportation, housing, community development and assistance programs) Highways and Streets (highway repairs and maintenance, street lights) and General Government (mayor's office, council services, finance, prosecuting attorney, planning, personnel services, economic development, county attorney's office). The proprietary funds are accounted for separately from the above expense functions because combining the costs would obscure the matching of revenues and expenses of their required fund classification.

Services provided by the State of Hawai'i are excluded from this report. The State provides the following services: educational, health and welfare benefits, airport and harbor functions, hospitals, State highway system and the judicial system.

The major tax revenue sources of the County are real property tax, public service company tax, fuel tax, franchise tax, and motor vehicle weight tax. Other revenue sources include transient accommodations tax, Federal and State grants, construction fees, development and impact fees, and golf and wastewater user fees. There are no personal taxes levied by the County.

Economic Conditions and Outlook

Kaua'i's economy suffered a severe recession since the early 2008 deep global downturn. The 2009 decline in non-farm payroll jobs of 8.1% was the largest among counties. 2009 also saw Kaua'i's seasonally adjusted unemployment rate surpassed 9% in March, then increased and hovered around 9.5% during the middle of the year. Since that time, Kaua'i's unemployment has eased down to 8.5% as of October 2010.

-2-

We are cautiously optimistic that Kaua'i's economy is rebounding, but recovery will be slow and gradual over a 3-5 year period.

<u>Tourism</u>

0

 \bullet

•

•

Ŏ

Ō

Ŏ

•

 Kaua'i is dominated by tourism and is its main "economic engine". Kaua'i had one of the largest increases in visitor arrivals during the 2003-2007 time period. In 2009, total visitor arrivals fell 9.6%, and was the largest decline among the four counties. Kaua'i's decline started in early 2008 before the fall of Aloha and ATA airlines, and accelerated when the U.S. recession hit and fewer Americans traveled in late 2008 and early 2009. Largely dependent on U.S. visitors, it accounts for 85% of Kaua'i's visitor count.

Since that time, Kaua'i's visitor arrivals have steadily improved due to several factors. The County of Kaua'i, in partnership with the Kaua'i Visitors Bureau implemented a Visitor Stimulus Plan in early 2009 to stem the tide of declines mentioned previously. \$1 million was approved by the County Administration and County Council to implement an aggressive marketing plan that included top producing wholesale tour operators and online travel agents such as Expedia, Orbitz and Travelocity. The marketing campaign also addressed the "kama'aina" and military segments, as well as sales blitzes in cities like Los Angeles, San Francisco, Seattle and Vancouver, British Columbia.

Latest reports from the State of Hawai'i DEBDT and Hawai'i Tourism Authority reflect Kaua'i's Visitor Arrival increases where the month of October reflected a 7.9% increase over October 2009, and an overall increase of 3.1% year to date from last year. Overall visitor spending and spending per person per day (PPPD) increased in October by 29.4% and 17.3% respectively, and year to date compared to last year where overall spending was up by 12.5% and PPPD by 7.5%.

<u>Film</u>

Like the other industries on Kaua'i, major motion productions were also affected by the global economic downturn during 2008 and 2009. In 2007, Dreamworks' "Tropic Thunder", directed and starring Ben Stiller, Robert Downey Jr. and Jack Black spent nearly 10 months on Kaua'i scouting, prepping, filming and breaking down, infusing close to \$63 million into Kaua'i's economy, the most ever spent by a Hollywood studio on Kaua'i.

Kaua'i's film industry had a banner year in 2010 with three Hollywood movies produced in just the first seven months of the year. These film productions were scheduled back to back, starting in February and ending in August this year. The beginning of the year started with the movie, *Descendants*. One of the rare moments where Kaua'i will, in fact, be Kaua'i in the film. Having doubled for many other locations in the world, the Phillipines, Cambodia, Vietnam, Venuzuela, etc., this will be one of the rare moments where Kaua'i will be playing herself. Kaua'i then welcomed Adam Sandler's *Just Go With It* starring Adam Sandler and Jennifer Aniston, and then the summer welcomed Jerry Bruckheimer's *Pirates of the Caribbean: On Stranger Tides* starring Johnny Depp and Penelope Cruz.

An estimated \$64 million from not only the three major film productions mentioned previously, but also the movie "Soul Surfer" about Kaua'i's own Bethany Hamilton, and an Armani commercial that filmed for a few days that contributed a million dollars.

Lodging for cast and crew of these films contributed the lion's share of the \$64 million. The St. Regis Princeville, Westin Princeville, Waipouli Beach Resort, Aston Kaua'i Beach Resort at Makaiwa, Best Western Plantation Hale, Kaua'i Marriott, Grand Hyatt Kaua'i and selected vacation rentals were temporary homes to stars and staff. This influx and demand helped the visitor industry recover from a 30% drop in occupancy a year prior. Hundreds of jobs were either maintained or restored because of these productions.

Many locations were filmed on private estates and these owners also kept their employees on payroll from temporary leases.

Restaurants, grocery stores and other small businesses not only enjoyed the economic boost, but also the notoriety that came with hosting Hollywood celebrities. Although the film companies brought their own caterers from California, most, if not all of the food prepared was purchased from Kaua'i's markets.

Kaua'i's talented workforce of carpenters, plumbers, heavy equipment operators, contractors, security personnel and others received gainful employment between these film productions.

Kaua'i residents hired as extras for these films helped bring the reach of the film production even further this year, especially on the Pirates of the Caribbean movie.

Real Estate and Construction

•

•

•

•

•

•

Large decreases in home prices and even larger declines in resale volume have caused developers to cut back on plans to add more housing inventory to a slow market. The median single family home price fell to just under \$470,000 in 2009, about 31% lower than the peak in 2006. The median condo price reached a high of \$574,000 in 2007, only to fall 47.5% to \$313,875 in 2009. Resales volume, of which, 2008 fell to its lowest level since the late 1990's, remained low in 2009, and continues through 2010.

Residential construction which began its decline in 2008, also continues to slide. Residential permits that saw an annual increase of 3.1% in 2007 and 2008, experienced a severe drop (as much as 74% in the fourth quarter) in 2009. The value of residential permits issued declined more than 21% to its lowest level since 2004.

The non-residential construction slowdown was not only reflected in resort-related development, but also several commercial projects. The construction of a 56,000 square foot Safeway, one of the anchor tenants of the new Hokulei Shopping Center projected for completion in 2010 has been delayed until 2011. The same can be said for the controversial Shops at the Koloa project, is also looking at a 2011-12 timeframe.

Government capital improvement projects, some of which are backed with ARRA funds from the Federal government will help to offset the private sector decline. In May 2010, the Governor's CIP website reported that 30% of the value of Kaua'i's projects were underway and almost 20% of the statewide average. Much needed construction jobs and important improvements to public services and infrastructure were realized in the \$30 million Wailua Cane Haul Bridge widening, \$4.7 million Kaiakea Fire Station outside of Kapa'a Town, and the \$17 million Waimea Wastewater Treatment Plant Expansion.

Agriculture / Energy

Agriculture and agriculture processing provided more than 25% of jobs on Kaua'i in the early 1970's, and have declined dramatically during the last three decades to where agriculture comprises only 4% of the jobs.

The seed corn industry has helped to bolster the agriculture landscape by increasing their leased land holdings throughout the island and providing job opportunities for West Kaua'i. Kaua'i's rich soil and excellent growing conditions are now home to companies like Syngenta, Pioneer, BASF and Dow Agroscience.

There is also further reason for optimism as Kaua'i transitions its agricultural assets to energy-focused projects. Although they are in the planning stages, some of these projects will help Kaua'i to become less dependent on importing fossil fuels for electricity generation, provide much need jobs to replace those lost from sugar plantation closings, and diversify the economy.

In April 2010, Grove Farm announced it plans to develop some of its former sugar lands into mixed-use residential projects near the Lihue Airport. These plans also include conservation and energy design elements intended to qualify for the U.S. Green Building Council's LEED certification. Although construction is at least 2 years away, it will add 300-500 jobs in Kauai's economy.

Pacific Light & Power is also planning to construct a \$70 million concentrated solar project on 100 acres of former sugar plantation lands in Kekaha.

Major Initiatives and Achievements

0

0

•

Of the 32,870 total taxable parcels, 10,561 parcels qualified for the tax relief programs in fiscal year 2010. The County continued to provide tax relief to its citizens by extending the "Circuit Breaker", "Personal Home Use Exemption (PHU)", and the long term affordable lease credits. These programs provided tax credits totaling \$9.9 million in fiscal year 2010 as compared to \$12.8 million in fiscal year 2009. Although tax credits may not have a direct effect on real property taxes billed, residents that have owned and lived in their homes since 2004 have received significant savings.

During fiscal year 2010, the County's \$113.8 million capital improvement budget helped stimulate the economy. The County's capital improvement projects that are in progress or completed during the year include Kaiakea Fire Station, the renovation of the Historic County Building Annex, the island-wide ADA sidewalk improvement project, and the island-wide road resurfacing program.

Also, \$13.9 million in Federal Stimulus ARRA funding was approved by County Council for new construction projects including Waimea Wastewater Treatment Plant, Līhu'e Pipeline Replacement, Kapa'a bike path expansion, and Keālia Fire Station photovoltaic power system.

The Department of Public Works has administered the sewer credit relief for qualified low-income residential users for the sixth consecutive year. A total of 8,681 credits at \$20.00 per month were issued to eligible residential users that amounted to \$173,620 savings to households in fiscal year 2010. The General fund subsidized the sewer relief program.

The County early adopted GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions. GASB 54 has provided a more structured classification of fund balances bound by constraints on resources reported in the funds. This approach is intended to provide users more consistent and understandable information about a fund's net resources. The County also determined that all funds were properly classified and consistent with the new definitions.

Long-term Financial Planning

On March 24, 2010, the County issued \$60.0 million in General Obligation Bonds (2010A Series Bonds) to fund various capital improvement projects. The balance at June 30, 2010 was \$76.9 million. The following major projects have been appropriated, most of which are in various stages of procurement or construction:

Park/Open Space land acquisition Lighting retrofits installation Drug treatment center Island-wide SCADA system County-wide storage facility Affordable housing programs New Kapa'a fire station Landfill site acquisition Kekaha landfill expansion Waimea Wastewater Treatment Plant Improvements

The County continues its goal to maintain a strong fund balance surplus and reduce expenditures to offset anticipated decreases in real property tax collections and declining economic environment.

Budgeting Controls

The County maintains a budgetary control system that enables County Departments to comply with legal provisions incorporated in the annual budget ordinance and capital improvement budgets as approved by the Kaua'i County Council.

The County Charter requires that the annual operating budget ordinance be balanced. Financial reports (Detail Budget Reports) are presented monthly to each department, enabling management to monitor the

-5-

enacted budget appropriations, including current budget amendments with the expenditures and encumbrances that were charged to the appropriation. The County does not perform formal multi-year forecasts and budgeting. Certain budget amendments need Council approval and are detailed in the operating budget ordinance and charter provisions.

Cash Management

•

۲

County investment is limited to State statute and conservative county investment policy. Due to additional amounts invested, investment earnings increased \$2.1 million as compared to previous year. County funds are distributed in local banks. Temporarily idle cash available for investment for all funds averaged \$201.7 million for the fiscal year that provided an average weighted yield of 1.5%. All investments are fully collateralized and covered by FDIC insurance, within applicable limits. Investments are in time certificates deposits (TCD's), U.S. Government Sponsored Entities and bank repurchase agreements (REPO's). The County's portfolio also included accounts with Multi-Bank Securities, Inc., Capital Securities of America (TDI), Merrill Lynch, and UBS Financial Services, Inc.

Risk Management and Insurance

The County continues to follow a multi-faceted disciplined approach to its risk management and insurance program. The approach includes risk identification and assessment, risk assumption, risk transfer and risk control. The insurance premiums remained unchanged as compared to the prior year. The County continues to follow the strategy of self-insuring the retention amounts while purchasing excess insurance layers to protect the County from catastrophic losses. The County does not carry collision coverage for its vehicles. The property insurance covers windstorm, flood and earthquake damages and/or expenses arising out of any on occurrence less the retention amounts. The County maintains excess liability and excess workers' compensation insurance for all its employees including the volunteers.

Workers' Compensation medical and temporary disability cost processed for the fiscal year ending June 30, 2010 decreased by 3.5% as compared to the previous fiscal year. The County continues to reduce costs by assigning employees to modified or light duty work assignments. This practice has provided significant cost savings. Risk Management also instituted various loss control measures to identify, analyze and account for losses within each respective Departments/Divisions. Measures such as, making the respective Departments accountable for their employees' safety training programs, streamlining claims reporting procedures, and the participation in the quarterly claims review process helped in reducing the annual cost.

Employee Union Contracts

The negotiated union contracts along with the effective period of the contract for all County employees are listed by union as follows:

Public Safety: Four years effective July 1, 2007 to June 30, 2011:

- 5% each fiscal year increase across the board for Bargaining Unit 11, Hawai'i Fire Fighters Association (HFFA).
- 6% each fiscal year increase across the board for Bargaining Unit 12, State of Hawai'i Organization of Police Officers (SHOPO).

<u>Clerical and professional</u>: Two years effective July 1, 2007 to June 30, 2009:

• 4% each year increase across the board and continue step movements for Bargaining Units 2, 3, 4, and 13, Hawai'i Government Employees Association (HGEA). For fiscal years July 1, 2009 to June 30, 2011, no increases for all units and furloughs up to eighteen (18) days for the first year and up to twenty-four (24) days the second fiscal year.

Utility and janitorial: Two years effective July 1, 2007 to June 30, 2009:

• 4% each year increase across the board for Bargaining Unit 1, United Public Works (UPW). For fiscal years July 1, 2009 to June 30, 2011, no increases and furloughs up to thirteen (13) days for the first year and up to twenty-four (24) days the second fiscal year.

Independent Audit

lacksquare

•

The County Charter requires an annual financial audit by licensed and independent certified public accountants. The basic financial statements in this report have been audited by RC Holsinger Associates, Certified Public Accountants. The financial statements of the Department, an enterprise fund included in the government-wide financial statements as a discretely presented component unit, were audited by KMH LLP. The County is also required to have an annual "single audit" in conformity with the provisions of the Single Audit Act of 1984, as amended, and the U.S. Office of Management and Budget Circular A-133, "Audit of States, Local Governments, and Non-Profit Organizations." Information pertaining to this single audit, including the schedule of expenditures of federal awards, findings and recommendations, and the report of the independent accountants on the internal controls and compliance with all applicable laws and regulations are included in a separate report and has been audited by RC Holsinger Associates.

By contract the auditor must express an opinion on the fair presentation of the County's basic financial statements in conformity with accounting principles generally accepted in the United States of America and in accordance with auditing standards as set by the American Institute of Certified Public Accountants and the General Accounting Office. The Management's Discussion and Analysis is subjected to limited auditing procedures but is not included in the auditor's opinion. The supplemental and other supporting schedules are also presented for additional analysis and are subjected to certain limited auditing procedures and an "in relation to" audit coverage. The introductory and statistical section of the CAFR are unaudited which is explicitly stated in the audit opinion.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its CAFR for the fiscal year ended June 30, 2009. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

This award is valid for a one year period only. We believe our current CAFR continues to meet the requirements and we are submitting it to the GFOA to determine its eligibility of another certificate. The County has received this award for the thirteenth consecutive year.

Acknowledgments

The preparation of the comprehensive annual financial report on a timely basis was made possible by the efficient and dedicated services of the entire staff of the Department of Finance and fiscal personnel in other County departments. We also want to thank the Mayor and the County Council for their interest and support in planning and conducting the financial operations of the County in a responsible and progressive manner.

Respectfully submitted,

Wallas On b

INDEPENDENT AUDITORS' REPORT

To the Chair and Members of the County Council of Kaua'i, Hawai'i Līhu'e, Kaua'i, Hawai'i

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the budgetary comparison, and the aggregate remaining fund information of the County of Kaua'i, Hawai'i (the County), as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Department of Water, which represents 100 percent of the component units. Those financial statements were audited by another auditor whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amount included for the Department of Water, is based on the report of the other auditor.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Kaua'i, Hawai'i, as of June 30, 2010, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2010, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

117 VIP Drive, Suite 220 • Wexford, PA 15090 (724) 934-4880 • Fax (724) 934-3990 • 1-800-570-4272

Seven Waterfront Plaza 500 Ala Moana Boulevard, Suite 400

Honolulu, HI 96813 (808) 548-0808

Fax (808) 543-1160

The Management's Discussion and Analysis, Combining and Individual Fund Financial Statements and Schedules, and budgetary comparison information on pages 13 through 23 and 88 through 107 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual non-major fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Ŏ

The management of the County of Kaua'i (the County) offers to readers a narrative overview and analysis of the County's financial activities for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-7 of this report and the financial statements that follow this section.

FINANCIAL HIGHLIGHTS

ŏ

lacksquare

•

•

ŏ

Ŏ

•

- The County received \$13.9 million in grant funding with the passage of the American Recovery and Reinvestment Act of 2009 (ARRA). In the current year, 100% of all ARRA grants that had expenditures were audited and included in the OMB A-133 Single Audit Report for the fiscal year ended June 30, 2010.
- On March 24, 2010, the County issued \$60.0 million in General Obligation Bonds (2010A Series Bonds) to fund various capital improvement projects. The County has elected to treat the 2010A Series Bonds as "Build America Bonds (BABs)" and "Recovery Zone Economic Development Bonds (RZEDB)" totaling \$47.8 million and \$12.2 million, respectively. Pursuant to ARRA, the County will receive a "refundable tax credit" that subsidizes the interest paid on these bonds from the federal government equal to 35% for BABs and 45% for RZEDB.
- The assets of the governmental activities exceeded its liabilities at the close of the fiscal year by \$542.1 million in its government-wide financial statements, an increase of \$10.5 million from the prior year. Unrestricted net assets increased by \$16.8 million from the prior year and ended at \$67.6 million. Unrestricted net assets may be used to meet the County's ongoing obligations to citizens and creditors. The changes in governmental activities were from:
 - 1. Expenses totaling \$147.2 million, a decrease of \$7.7 million or 4.9% from the prior year.
 - 2. Program revenues totaling \$42.6 million, a decrease of \$3.4 million or 7.4% from the prior year.
 - 3. General revenues and transfers totaling \$115.1 million, a decrease of \$5.2 million or 4.3% from the prior year.
 - 4. Assets, including capital assets, increased by \$60.3 million.
- The assets of the business-type activities exceeded its liabilities at the close of the fiscal year by \$54.1 million in its government-wide financial statements, an increase of \$4.9 million from the prior year. Unrestricted net assets increased by \$1.4 million. The business-type activity recorded in the government-wide financial statements is identical to the proprietary funds except for some consolidation of inter-fund receivables and payables within the primary government. The changes in business-type activities were from:
 - 1. Expenses totaling \$12.7 million, a decrease of \$3.5 million or 21.6% from the prior year.
 - 2. Program revenues totaling \$10.7 million, a decrease of \$7.1 million or 39.9% from the prior year.
 - 3. General revenues and transfers totaling \$6.9 million, a decrease of \$5.8 million.
 - 4. Assets, including capital assets, increased by \$7.5 million.

As of the close of the fiscal year, the County's governmental fund financial statements reported combined ending fund balances of \$207.4 million or a 36.2% increase from the prior year. The County early adopted GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions* in fiscal year 2009, and the changes are reflected in the Fund financial statements and all supporting schedules including this Management Discussion and Analysis (MD&A).

-13-

The County's ending General Fund balance consisted of \$6.6 million in committed fund balance, \$19.1 in assigned fund balance and \$43.1 million in unassigned fund balance. General Fund balance at June 30, 2010 totaled \$68.8 million, an increase of \$14.7 million from the prior year. The unassigned fund balance increased by \$10.3 million or 31.4 % from the prior year, and is available for spending at the County's discretion.

OVERVIEW OF THE FINANCIAL STATEMENTS

BASIC FINANCIAL STATEMENTS

•

•

The Management Discussion and Analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements - The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. Accordingly, it presents the financial picture of the County from the economic resources measurement focus using the accrual basis of accounting.

The Statement of Net Assets presents information on all of the County's assets (including capital and infrastructure assets) and liabilities (including long-term debt), with the difference between assets and liabilities being net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses, including depreciation expenses, are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include General Government, Public Safety, Public Works, Highways and Streets, Sanitation, Public Welfare, and Cultural and Recreational expenses. The business-type activities of the County include the Public Housing Fund, the Sewer Fund, and the Golf Fund.

The government-wide financial statements include the governmental activities and business-type activities of the County (known as the primary government) and the Department of Water Supply (Department), which is a semi-autonomous entity, and is reported separately from the primary government as a discreetly presented component unit. Complete financial statements of the Department, which include its MD&A, may be obtained from the Department of Water at 4398 Pua Loke, Līhu'e, Kaua'i, Hawai'i, 96766.

Fund Financial Statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and GASB Statement 54 to define and classify the existing governmental fund types. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. The fund financial statements follow the government-wide financial statements in the Comprehensive Annual Financial Report (CAFR).

•

•

•

Ó

lacksquare

•

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the governmentwide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. These funds are reported using the modified-accrual basis of accounting.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities which is required for Generally Accepted Accounting Principles (GAAP) reporting.

The County's governmental fund types are the General, Special Revenue, Debt Service and Capital Projects Funds. Governmental fund financial statements include a Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances. The General Fund, Housing and Community Development Revolving Fund, Bond Fund, Federal Grants Fund, Grants CIP Fund, General CIP Fund, and Solid Waste Disposal Fund are considered major funds. Data from the other 17 non-major governmental funds are combined into a single, aggregated presentation as Other Governmental Funds. Budgetary comparisons have been provided for the General and major Special Revenue Funds (Housing and Community Development Revolving Fund and Solid Waste Disposal Fund), to demonstrate compliance with its annual appropriated budget as required for GAAP financial statements.

Proprietary Funds - Services which the County operates that are similar to a business-type activity are reported in proprietary funds. These proprietary funds provide the same type of financial information (long and short term) as the government-wide business-type activity financial statements, only in more detail. The County's major enterprise funds include the Public Housing Fund, the Sewer Fund and the Golf Fund.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements, and is part of the basic financial statements.

Other Required Supplementary Information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. The Combining Statement of Non-major Governmental Funds, the Combining Statement of Changes in Assets and Liabilities for Agency Funds, and the budgetary comparison schedules for legally adopted annual budgets of non-major funds are presented immediately following the notes to the financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Ŏ

•

By far the largest portion of the County's net assets is its investment in capital assets, net of related debt, at \$452.2 million or 83% of net assets. These net assets are categorized separately along with restricted net assets because they are not available for future spending.

The County's restricted net assets category represents 4% of the net assets. These restrictions of net assets are imposed by enabling legislation or parties outside the government (such as creditors, grantors, contributors, laws or regulations of other governments).

The difference between total net assets and the two categories just discussed (invested in capital assets, net of related debt and restricted net assets) is the unrestricted net assets, totaling \$67.6 million or 13% of net assets.

The following tables summarize the County's government-wide financial statements as of June 30, 2010 with comparison to fiscal year 2009.

		nmental vities 2009	Business-type Ac	<u>ctivities</u> 2009		Primary ernment 2009

The increase in County's real property taxes billed (revenues on full accrual basis) by \$0.6 million was the net result of the adjustments to its escrow account, refunds and overpayments triggered by the settlement of majority of tax appeal cases, omitted buildings and other clerical adjustments. Fiscal year 2010 net taxable values decreased by \$444.3 million, primarily due decreases in assessed and estimated real property values; a result of the declining market. The reduction in property values in fiscal year 2010 also resulted in a decrease to our tax relief programs by \$2.9 million. Real property tax rates were unchanged for all property classifications for the fiscal year ended June 30, 2010. There were approximately 472 new parcels recorded for fiscal year 2010. The County continued to provide tax relief to its citizens by extending the "Circuit Breaker," the "Personal Home Use Exemption (PHU)" and the Long Term Affordable Lease credits that resulted in \$9.9 million in credits and ended with \$92.5 million in real property tax revenues recorded in the Statement of Activities. Capital Grants and Contributions decreased by \$4.8 million, primarily due to a decrease in federal grant projects in the current year and the completion of Kīlauea bridge (\$5.2 million) in 2009.

A large increase in expenses came from the funding of other post-employment employee benefit (OPEB) cost, mainly for healthcare benefits of which qualified employees are promised specific benefits upon separation or retirement. The GASB 45 Accounting Pronouncement has allowed the County to amortize the unfunded accrued OPEB liability (\$135.7 million) as of July 1, 2009 over a 30 year closed period. The County early adopted GASB Statement 45 in fiscal year 2008 and has continued to pay the annual required contribution (ARC) as calculated by the actuary contracted by the statewide multi-employer trust agent (EUTF). The actuary also provided the information needed for financial statement reporting and footnote disclosures. EUTF administers the healthcare benefit plan and develops the annual funding requirements based on the present value of benefits of the actuarial accrued liability using the entry age normal method for calculation. It is the County's intention to continue to prefund the entire ARC in future years.

The County paid 100% of its estimated annual OPEB cost that amounted to \$23.4 million for fiscal years 2009 and 2010. The OPEB obligation for the County is estimated to be fully funded according to GASB 45 reporting purposes.

ANALYSIS OF GOVERNMENTAL FUNDS

 ${\color{black}\bullet}$

0

•

Ó

Ŏ

•

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with financerelated requirements.

Governmental funds - The focus of the County's governmental funds is to provide information on nearterm inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. The County early-implemented GASB 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which primarily establishes a hierarchy of fund balance classifications based on constraints placed on the use of these resources. The unassigned General Fund balance of \$43.1 million may serve as a useful measure of the government's net resources available for spending at the end of the fiscal year after assigning the amount needed for fiscal year 2011. The following table summarizes the changes in fund balances for the County's governmental funds as of June 30, 2010 with comparison to fiscal year 2009:

The Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets can be found on page 28. The major differences relate to certain financial resources and expenditures such as debt financing and capital outlays that are included in the changes in governmental fund balances but are not reported in the changes in net assets.

General Fund - The General Fund is the chief operating fund of the County. As stated earlier, the unassigned General Fund balance as of June 30, 2010 was \$43.1 million as compared to \$32.8 million of the previous year, or a \$10.3 million increase. The positive change in fund balance can be attributable to proceeds from capital leases of \$1.0 million, proceeds from insurance settlements of \$ 0.7 million, and revisions to the original appropriation of the General Capital Projects Fund, of which, resulted in a reduction to this fund and an increase to the General Fund by \$7.4 million.

Total expenditures in the General Fund were relatively flat as compared to the prior year and amounted to \$89.8 million, a \$1.0 million or .01% decrease in expenditures primarily due to the implementation of expenditure control measures.

Õ

Total revenues in the General Fund remained relatively flat as compared to the prior year, amounting to \$116.7 million, or a decrease of \$0.2 million. Overall, revenues collected were down in fiscal year 2010 as compared to 2009. The decrease in revenues are primarily attributable to the slugglish local economy due to high levels of unemployment, bankruptcy and foreclosures, decreases in assessed valuations of real property, and decreasing visitor numbers throughout the State. Real property taxes collections amounted to \$91.5 million, a decrease of \$0.4 million as measured on the modified accrued basis of accounting. Other decreases in revenues came from public service company taxes that amounted to \$4.1 million, a \$0.3 million or 7% decrease over prior fiscal year. Transient accommodation tax collected decreased \$0.6 million to \$13.1 million collected. Interest earned increased by \$2.1 million to \$4.2 million collected due to an increase in available amounts invested, ultimately increasing interest earned on additional investments.

Other Major Governmental Funds - Overall, Major governmental funds expenditures increased by \$3.7 million from \$40.5 million to \$44.2 million in the current fiscal year. Significant variances included the following: Housing and Community Development decreased by \$2.8 million over prior year due to the completed construction of Kalepa Village IV (\$2.8 million) in 2009; Solid Waste Disposal Fund increased by \$3.7 million over prior year primarily due to an increase in special projects (\$1.8 million), additional equipment purchased (\$1.5 million), and other post-employment benefit costs (\$0.7 million); Bond Fund increased by \$12.3 million over prior year due to additional project expenditures including the purchase of land for future affordable housing projects (\$2.6 million), Kekaha landfill expansion (\$6.5 million), and completion of the Kaiakea fire station (\$4.1 million) in 2010; Grants CIP Fund decreased \$7.1 million over prior year primarily due to completed construction of Kīlauea bridge (\$5.2 million), Kapa'a bikepath (\$1.3 million), and ADA curb ramps (\$1.5 million) in 2009; General CIP Fund decreased \$2.4 million over prior year primarily due to matching for construction of Kīlauea bridge (\$1.3 million) in 2009.

All Other Governmental Funds - Expenditures in the current fiscal year decreased by \$4.1 million from \$35.9 million to \$31.8 million in the current fiscal year. This decrease from the prior year is primarily due to island-wide resurfacing projects totaling \$5.3 million in 2009.

BUDGETARY HIGHLIGHTS

ŏ

•

0

•

•

•

•

0

Ŏ

The General Fund exceeded its estimate of budgeted revenues by \$6.7 million. The General Fund lapsed \$16.0 million of budgeted appropriations at year end. The General Fund contribution to other funds amounted to \$13.0 million in the current year, a decrease of \$4.3 million as compared to the prior year. As mentioned earlier, revisions to the original appropriation of the General Capital Projects Fund were made in the current year, of which, off-set transfers out and ultimately resulted in an increase to the General Fund by \$7.4 million. Fund budgetary expenditures differ from the fund expenditures in that the encumbrances at year end are accounted for as expenditures for budgetary purposes. The original budget amount in the Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) include reappropriated and committed prior-period encumbrances.

The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) provides the reader the assurance of compliance to the budget ordinance. Only budgeted funds have this type of financial statements.

Estimated budgeted General Fund revenues for the fiscal year ended June 30, 2010 was \$110.0 million as compared to \$111.4 million in the prior year, a decrease of \$1.4 million. Positive revenue budget variances of \$6.7 million occurred primarily because of the volatility of predicting certain types of revenues and the conservative approach in estimated revenues. All of the revenue categories had positive variances as compared to the budgeted amounts. The major positive variances occurred in revenue from taxes (\$1.1 million), interest (\$2.9 million), and intergovernmental revenues (\$1.9 million).

Final amended budgeted expenditures in the General Fund for fiscal year ending 2010 was \$112.4 million, a decrease of \$4.0 million from the prior year mainly from collective bargaining raises and associated fringe costs budgeted in 2009 off-set by budget of other post-employment benefit costs at the department level in the current year versus prior year budgeting practice within the General Fund. As previously mentioned, the following variances are primarily attributable to the current year change in budgeting practice, whereby, OPEB costs were budgeted at the department level: General government function budget decreased by 23.6%, public safety function increased by 13.6%, public works function increased by 6.8%, culture and recreation function increased by 2.9%. Public welfare function decreased by 7.4% primarily due to budget reductions for new home buyer education and counseling seminars.

As mentioned earlier, the County has adopted a conservative budgeting approach, mainly due to an anticipation of certain expenditures within the year. Historically, budgeted areas such as salaries and wages, employee benefits, travel, and other, have been budgeted more than actual expenditures, resulting in favorable variances. The following represents major variances in the final amended budget to actual expenditures in the General Fund:

- Council Services had a favorable variance of approximately \$0.8 million, of which, can be primarily attributable to \$0.5 million in salaries, fringe and benefits due to vacancies, and \$0.2 in unused travel, building lease, and other miscellaneous expenses.
- Office of the County Attorney had a favorable variance of approximately \$0.9 million, of which, can be primarily attributable to unfilled positions and lower litigation costs.

- Office of the Prosecuting Attorney had a favorable variance of approximately \$0.6 million, of which, can be primarily attributable to salaries and wages, and employee benefits. The variance was due to unfilled positions and the hiring of several positions below the budgeted salary amounts.
- Accounting and Budgeting had a favorable variance of approximately \$0.8 million, of which, can be primarily attributable additional budget transfers in anticipation of higher OPEB cost payable in the current year.
- There were zero claims paid out of the Self-insurance account, whereby, creating a favorable variance of \$3.5 million. The unused portion accumulates and is carried over into the next fiscal year and so on. This amount will continue to increase, as purpose of this account is to prepare for unanticipated and unpredictable future events.

• Police Department had a favorable variance of approximately \$3.2 million, of which, can be primarily attributable to a high number of vacancies and unfilled positions. The amount of unexpended salaries and employee benefits amounted to \$2.3 million.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets - The County's capital assets for its governmental and business-type activities as of June 30, 2010 amounted to \$572.2 million, an increase of \$17.1 million. The net capital assets include land, buildings and improvements, machinery and equipment, infrastructure (roadways, bridges, sewer, and golf), and construction-in-progress, less accumulated depreciation. Most capital projects pass through construction-in-progress before being capitalized because of the multi-year completion process. The following is a summary of the capital assets as of June 30, 2010 in comparison to fiscal year 2009:

Government Activities Summary of Capital Assets (Amounts in millions)

		Total F	rimary

Additional information on the County's capital assets can be found in Note 6 in the notes to the basic financial statements.

-22-

Long-term debt - On March 24, 2010, \$60.0 million of General Obligation Bonds (2010A series bonds) to fund various capital projects were issued. At the end of the current fiscal year, the County's, long-term debt consisted of the following:

Governmental General Obligation Bonds of approximately \$124.9 million, an increase of \$56.3 million due to the issuance of \$60.0 million in new bonds and \$3.7 million amortized during the current year.

Business-type General Obligation and Revenue Bonds of approximately \$1.7 million, a decrease of \$0.3 million due to debt amortization.

State Sewer Revolving Fund loans of approximately \$17.5 million, an increase of \$3.4 million due to new borrowings of \$4.9 million and \$1.5 million in loan amortization.

Capital lease obligations outstanding of approximately \$3.1 million, including \$1.7 million new leases and \$1.0 million amortized during the year.

All three rating agencies, Moody's Investors Service, Standard and Poor's, and Fitch Ratings upgraded the County's ratings to Aa3, AA, and AA-, respectively. The County has never achieved such high ratings in the past and is a testament to the County's strong management and conservative fiscal policies.

The State Constitution limits the amount of general obligation debt a governmental entity may issue up to 15 percent of its net-assessed value of its real property. The current debt limitation for the County is \$2.8 billion. As of June 30, 2010 the County's current outstanding general obligation bonds were approximately \$125.8 million which represents only four percent of its debt limitation.

Additional information on the County's long-term debt can be found in Note 10 in the notes to the basic financial statements.

FUND FINANCIAL STATEMENTS

GOVERNMENTAL FUND FINANCIAL STATEMENTS

MAJOR FUNDS

General Fund

0

Accounts for all financial resources traditionally associated with the government which are not required legally, or by sound financial management, to be accounted for in another fund.

Special Revenue Funds

Housing and Community Development Revolving Fund

Accounts for home rehabilitation loans made to qualified individuals under the Department of Housing and Urban Development's Community Development Block Grants rehabilitation loan program. Monies collected are to be used to finance other eligible Community Development Block Grant projects.

Solid Waste Disposal Fund

Accounts for the costs of operating the County's solid waste disposal system. Financing is provided by charges to commercial users for solid waste disposal services and General Fund contributions for other users.

Federal Grants Fund

Accounts for federal grant revenues and related expenditures.

Capital Project Funds Grants Capital Improvement Fund Accounts for revenues and capital improvements financed by federal and state grants.

General Capital Improvement Fund

Accounts for the costs of capital projects financed by the General Fund.

Bond Fund

Accounts for proceeds from and the costs of constructing County capital improvements financed by general obligation bond proceeds.

COUNTY OF KAUA'I, HAWAI'I GOVERNMENTAL FUNDS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2010

Ō

Net Change in Fund Balance - Total Governmental Funds		\$ 55,045,046
Amounts reported for governmental activities in the Statement of Activities are different due to:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period:		
Capital outlay Depreciation expense	24,597,117 (13,539,851)	
Net Capital Outlay		11,057,266
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, CIP closures/transfers, contributed/donated capital assets) is to increase net assets.		380,039
Capital leases are recorded as current financial sources in the Statement of Revenues, Expenditures, and Changes in Fund Balances. However, in the Statement of Net Assets capital leases are recorded as long-term debt and capital assets.		(1,685,793)
Real property taxes in the Statement of Activities includes all billed amounts which differ from the current financial resource measurement of the governmental funds. This is the net difference of both measurement focuses.		993,587
Bond proceeds are reported as other financing sources in governmental funds and contribute to the increase in fund balance. Bond and capital lease principal payments are reported as an expenditure in governmental funds and reduce fund balance. In the government-wide statements, however, issuing debt increases long-term liabilities while debt repayment reduces long-term liabilities and affects the Statement of Activities.		,
Bond proceeds Bond principal retirement Capital lease payments Total Long-term Debt Repayment	(60,000,000) 3,685,000 <u>1,027,882</u>	(55,287,118)
Self insurance funds, which are blended with general funds, are used by management to charge the costs of insurance to individual funds. This amount represents a portion of the change in net assets which are reported in governmental activities.		(732,763)
Some items reported in the Statement of Activities do not involve current financial resources and, therefore, are not reported as expenditures in the governmental funds. These activities are:		(,)
Amortization of premium from bond issuance Amortization of deferred refunding costs Amortization of deferred bond issuance costs Issuance costs on 2010 bond issuance Decrease in compensated absences Decrease in claims and judgments Increase in landfill closure/postclosure care costs Increase in accrued interest payable	(53,088) 10,012 (15,469) (535,838) 168,968 2,927,366 (1,017,993) (741,103)	
Net Increase in Expenditures		742,855
Change in Net Assets - Governmental Activities		<u>\$_10,513,119</u>

The notes to the financial statements are an integral part of this statement.

PROPRIETARY FUND FINANCIAL STATEMENTS

MAJOR FUNDS

•

•

•

•

•

•

Ö

Public Housing Fund

Accounts for the acquisition, development, sale, and rental of low-income housing. Financing is provided by low-income housing sales and operating contributions.

Sewer Fund

Accounts for the costs of operating the County's sewer system. Financing is provided by charges to users for services.

Golf Fund

Accounts for the costs of operating the County's golf course. Financing is provided primarily by golf fees, rents, and concessions.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

•

Ō

Ŏ

•

The Financial Reporting Entity - The County of Kaua'i (County) is a municipal corporation governed by an elected Mayor and a seven-member County Council. The County operates under a County Charter, which was originally adopted in 1969 and last amended in 2002.

The accompanying financial statements present the operations of the County, the primary government, as well as its discretely presented component unit, the Department of Water (Department). The County's operations are organized into the following general functions: general government, public safety, public works, highways and streets, sanitation, culture and recreation, public welfare, housing, sewer, and other enterprises. For financial reporting purposes, the County includes all funds, agencies, boards, commissions, and authorities that are fiscally dependent upon the County and for which the County is financially accountable.

State of Hawai'i (State) agencies assume responsibility for several major functions often performed by local governments; including education, welfare, health, and judiciary functions. State agencies are not fiscally dependent on the County and, therefore, are not included in these financial statements. There are no separate city, county or township governments, nor any school districts, special districts, authorities, nor public corporations with overlapping authority presented in the accompanying financial statements.

The financial statements of the County have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its Codification of existing Governmental Accounting and Financial Reporting Standards, which, along with subsequent GASB pronouncements (*Statement and Interpretations*), constitutes GAAP for governmental units. The more significant of these accounting policies are described below.

The County follows GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis for State and Local Governments, GASB Statement No. 37, Basic Financial Statements - and Management's Discussion and Analysis for State and Local Governments: Omnibus, GASB Statement No. 38, Certain Financial Statement Note Disclosures, and GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post Retirement Benefits Other Than Pensions. The County has elected to earlyimplement GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. Mandatory adoption for GASB No. 54 is for the fiscal period ending June 30, 2011. The statements contained herein reflect the changes in fund balance reporting and presentation.

Discretely Presented Component Unit - The component unit column in the financial statements includes the financial data of the County's discretely presented component unit, the Department of Water (Department), which is a semi-autonomous proprietary agency of the County. It is reported in a separate column to emphasize that it is legally separate from the County.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

0

Ŏ

ð

۲

A majority of the members of the Department's governing body are appointed by the Mayor and confirmed by the County Council. The Department is granted corporate powers by the County Charter. The County Council does not have the authority to modify or approve the Department's budgets. Revenue bonds and loans payable of the Department are general obligations of the County. As the County would be obligated to repay these bonds in the event of default by the Department, the County is financially accountable for the debts of the Department. The Department is audited separately. Complete financial statements of the Department may be obtained from:

> Department of Water County of Kaua'i 4398 Pua Loke Street Līhu'e, Kaua'i, Hawai'i 96766

Government-wide Statements - The basic financial statements include both government-wide and fund financial statements. The reporting model under GASB Statement No. 34 focuses on the County as a whole in the government-wide financial statements and major individual funds in the fund financial statements. Both types of statements categorize primary activities as governmental or business-type. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

The government-wide financial statements (i.e., the *Statement of Net Assets* and the *Statement of Activities*) report information on all of the nonfiduciary activities of the County and the Department. For the most part, the effect of interfund activity has been removed from these statements. Internal activities are treated as reimbursements (reductions and increases in expenses) from various functional categories and accordingly adjusted in the *Statement of Activities*. Charges to governmental functions for centralized services are made to recover administrative costs incurred by the general government function as outlined in the operating budget ordinance and are also treated as reimbursements. Certain capital asset payments from governmental activities are treated as capital contributions in the business-type activities and, therefore, are capitalized. Interfund contributions are eliminated among governmental activities, but are recorded as transfers in the fund financial statements if between governmental and business-type activities, but are recorded as internal balances between governmental and business-type activities, but are recorded as internal balances between governmental and business-type activities, but are recorded as internal balances between governmental and business-type activities, but are recorded as internal balances between governmental and business-type activities, but are recorded as internal balances between governmental and business-type activities and receivables as well as long-term debt and obligations.

The *Statement of Activities* reflects the direct expenses of each functional category or identifiable activity, which are supported by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include (a) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Taxes and other items not properly included in program revenues are reported instead as general revenues.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements.

Fund Financial Statements - The financial transactions of the County are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that is comprised of assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The County reports the following major governmental funds:

•

•

•

•

•

Ŏ

•

۲

Ŏ

Ĩ

General Fund - Accounts for all financial resources traditionally associated with the government which are not required legally, or by sound financial management, to be accounted for in another fund.

Housing and Community Development Revolving Fund - Accounts for home rehabilitation loans made to qualified individuals under the Department of Housing and Urban Development's Community Development Block Grants rehabilitation loan program. Monies collected are used to finance other eligible Community Development Block Grant projects.

Solid Waste Disposal Fund - Accounts for the costs of operating the County's solid waste disposal system. Financing is provided by charges to commercial users for solid waste disposal services and General Fund contributions for other users.

Federal Grants Fund - Accounts for federal grant revenues and related expenditures.

Grants Capital Improvement Fund - Accounts for revenues and capital improvements financed by federal and state grants.

General Capital Improvement Fund - Accounts for the costs of capital projects financed by the General Fund.

Bond Fund - Accounts for proceeds from and the costs of constructing County capital improvements financed by general obligation bond proceeds.

The County reports the following major proprietary funds:

Public Housing Fund - Accounts for the acquisition, development, sale, and rental of low-income housing. Financing is provided by low-income housing sales and operating contributions.

Sewer Fund - Accounts for the costs of operating the County's sewer system. Financing is provided by service charges to users.

Golf Fund - Accounts for the costs of operating the County's golf course. Financing is provided primarily by golf fees, rents, and concessions.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

The County's fiduciary funds are limited to agency funds. Agency funds are custodial in nature and are used to receive and disburse funds for an entity/individual that is not part of the County. Agency funds function as a clearing account and do not measure results of operations. The County has the following agency funds:

- Trust and Agency Fund
- Treasury Trust Fund

•

•

Õ

Ŏ

• • •

Ŏ

• Real Property Trust Fund

The County has early adopted GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions (*required implementation date of June 2011). This statement establishes criteria for classifying governmental fund balances into specifically defined classifications. Classifications are hierarchical and are based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the funds may be spent. Application of the statement requires the County to classify and report amounts in the appropriate fund balance classifications. The County's accounting and finance policies are used to interpret the nature and/or requirements of the funds and their corresponding assignment of restricted, committed, assigned, or unassigned. The County is in the process of drafting a policy for its use of unrestricted fund balance amounts. During this early implementation phase, the Council permits funds to be expended in the following order: Committed, Assigned, and Unassigned.

The County reports the following classifications:

Nonspendable Fund Balance - Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form - such as inventory or prepaid insurance or (b) legally or contractually required to be maintained intact - such as a trust that must be retained in perpetuity.

Restricted Fund Balance - Restricted fund balances are restricted when constraints placed on the use of resources are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

Restrictions are placed on fund balances when legally enforceable legislation establishes the County's right to assess, levy, or charge fees to be used for a specific purpose - such as the County's gas sales tax revenue, which must be used to repair and construct roads. Legal enforceability means that the County can be compelled by an external party (e.g., citizens, public interest groups, the judiciary) to use resources created by enabling legislation only for the purposes specified by the legislation.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

•

•

Ō

Committed Fund Balance - Committed fund balances are amounts that can only be used for specific purposes as a result of constraints imposed by the Council of Kaua'i. Committed amounts cannot be used for any other purpose unless Council removes those constraints by taking the same type of action (e.g., legislation, resolution, ordinance). Committed fund balances include non-liquidated encumbrances at year end that are carried forward to the next fiscal year. Amounts in the committed fund balance classification may be used for other purposes with appropriate due process by Council. Committed fund balances differ from restricted balances because the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance - Assigned fund balances are amounts that are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (a) the Director of Finance or (b) an appointed body (e.g., a budget or finance committee) or official to which the Council has delegated the authority to assign, modify, or rescind amounts to be used for specific purposes.

Assigned fund balance includes (a) all remaining amounts that are reported in governmental funds (other than the General Fund) that are not classified as nonspendable, restricted, or committed, and (b) amounts in the General Fund that are intended to be used for a specific purpose. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service, or permanent fund, are assigned for purposes in accordance with the nature of their fund type. Assignment within the General Fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the County itself.

Appropriated Assigned Fund Balance is an appropriation of existing fund balance to eliminate a projected budgetary deficit in the subsequent year's budget in an amount no greater than the projected excess of expected expenditures over expected revenues.

Unassigned Fund Balance - Unassigned fund balance is the residual classification for the General Fund. This classification represents General Fund balance that has not been assigned to other funds, and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation - The government-wide financial statements and the proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable means the amounts are determinable. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recognized when a liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, claims and judgments, and landfill post-closure costs are recognized only when payment is due.

Significant revenues that are susceptible to accrual are as follows:

- Property taxes collected within sixty days after year end
- *Rents and concessions*
- Federal and State financial assistance (to the extent that related expenditures that are eligible for reimbursements have been incurred)
- Interest

Ŏ

0

•

Ŏ

• Revenues collected by the State on behalf of the County, such as fuel taxes and transient accommodation taxes

All other revenue items are considered to be measurable and available only when cash is received.

Intergovernmental revenues are susceptible to accrual based on the compliance, legal, and contractual requirements of the individual programs. There are essentially two types of these revenues. For one type of revenues, monies must be expended for a specific purpose or project and revenues are recognized to the extent of such expenditures. Revenues of this type are deferred for monies received in advance of expenditures and accrued for expenditures in advance of monies received. For the other type of revenues, monies are virtually unrestricted as to the purpose of the expenditure. These resources are recognized as revenues when received, or earlier if susceptible to the accrual criteria.

Proprietary funds are reported using the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized as incurred. All proprietary funds follow applicable GASB guidance or FASB *Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins* issued on or before November 30, 1989, that do not conflict with, or contradict, GASB pronouncements.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds are charges to customers for services. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The County's fiduciary funds are limited to agency funds which have no measurement focus, however use the accrual basis of accounting to recognize receivables and payables. Because, by definition, these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

•

•

•

•

•

0

•

•

•

Cash and Cash Equivalents - The County's cash and cash equivalents include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash on deposit with financial institutions is collateralized in accordance with State statutes.

Investments - The County generally invests in certificates of deposit, repurchase agreements, money market funds, and government agency securities with federally insured financial institutions and mutual funds. Investments are reported at fair value. The County's investments are consistent with the investment guidelines contained in the Hawai'i Revised Statutes (HRS).

HRS authorizes the County to invest, with certain restrictions, in obligations of the State of Hawai'i, the United States or agencies of the United States, time certificates of deposit and repurchase agreements with federally insured banks and savings and loan associations authorized to do business in the State of Hawai'i.

Real Property Taxes - Real property taxes are assessed and billed annually. The County's real property taxes, which are levied on July 1 and billed on July 20 of each year, are based on assessed valuations as of the previous January 1. Real property taxes are due in two equal installments on August 20 and February 20. Accordingly, all real property taxes receivable as of June 30 are delinquent and are reported as deferred revenue for amounts not collected within 60 days after the fiscal year end in the fund financial statements. A lien for real property taxes attaches as of July 1 of each year.

Receivables - Loans receivable consist of housing rehabilitation loans made with federal funds by the Housing and Community Development Revolving Fund (HCDRF) and Federal Grants Fund, special revenue funds. The loans are partially offset by a deferred revenue account. Revenue is recognized and included in intergovernmental revenues when the loans made with federal funds are collected.

Receivables of the Department are recognized when revenue is earned, including charges for services rendered but not billed, net of allowance for doubtful accounts approximating \$218,000 of billed receivables.

Receivables for federal and state financial assistance are recognized as revenue, in all fund types, as related expenditures are made.

Real Property Held for Sale - Inventory of real property held for sale consists of dwelling units available for sale and is stated at the lower of cost or net realizable value.

Materials and Supplies - Materials and supplies are stated at the lower of average cost (which approximates the first-in, first-out method) or market.

Capital Assets - Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The County defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life of more than one year. The Department defines capital assets as assets with an initial, individual cost of more than \$1,000. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the asset constructed.

Depreciation on all assets is provided for on the straight-line basis over the following estimated useful lives:

Primary Government	
Motor vehicles	3 to 15 years
Furniture and equipment	5 to 20 years
Buildings and improvements	20 to 50 years
Transmission and distribution equipment	25 to 40 years
Infrastructure	30 to 60 years
Component Unit	
Motor vehicles	7 to 10 years
Equipment and machinery	5 to 20 years
Buildings and improvements	40 to 50 years
Transmission and distribution equipment	18 to 63 years

Duine and Carry and A

0

•

•

Restricted Assets - The County sets aside certain resources for the repayment of enterprise fund revenue bonds. These resources are classified as restricted assets on the Statement of Net Assets and Balance Sheet because their use is limited by bond covenants. The Department sets aside certain resources to fund future capital improvements of the water supply system.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted funds first, then unrestricted resources as they are needed.

Interfund Transactions - Interfund receivables and payables are reported in each fund. Transfers of financial resources between agencies and activities within the same fund, which are recorded as revenues by the transferee and expenditures by the transferor, have been eliminated. Transactions that represent reimbursements to a fund for expenditures or expenses initially made from it that are properly applicable to another fund are recorded as expenditures or expenses in the reimbursing fund and as reductions of expenditures or expenses in the reimbursing fund and as reductions of expenditures or expenses in the fund that is reimbursed.

Transfers include operating subsidies and authorized transfers from funds receiving revenues to funds that will expend those resources.

Interfund receivables and payables represent borrowing arrangements between governmental fund types that are current interfund loans and expected to be paid off within one year. Advances to and from other funds represent borrowing arrangements between nongovernmental fund types that are noncurrent. All other outstanding current balances between funds are reported as "Due To/From Other Funds."

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

۲

•

•

۲

۲

Ŏ

Ò

۲

۲

Ŏ

۲

Net Assets - Net assets are comprised of the various net earnings (losses) from operating and nonoperating revenues, expenses, operating transfers, and contributed capital. Net assets are classified in the following three components: invested in capital assets, net of related debt; restricted; and unrestricted. Invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation and outstanding debt attributable to the acquisition, construction or improvement of those assets. Debt related to unspent proceeds or other restricted cash and investments at year end is not included in the calculation of the amount invested in capital assets, net of related debt. Restricted net assets consists of net assets for which constraints are placed thereon by external parties, such as lenders, grantors, contributors, laws, regulations, and enabling legislation, including self-imposed legal mandates. Restricted net assets are based on the same criteria used to report restricted governmental fund balances. Unrestricted net assets consist of all other net assets not included in the above categories.

Compensated Absences - Vacation leave and other compensated absences are accrued as a liability as the benefits are earned if the leave is attributable to past service and it is probable that the employees will be compensated for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

Vacation pay is recognized as an expenditure in the governmental fund types when the amounts, if any, are due and payable. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured as a result of employee retirement or termination. Vacation credit payout is recorded in the respective funds where the employees' salary is incurred.

Sick Leave - Permanent full-time County employees accrue sick leave. Sick leave is calculated based upon current compensation levels. Sick pay can be taken only in the event of illness and is not convertible to pay upon termination of employment. Sick pay is recognized when leave is taken because it does not vest when earned. As a result, no liability for sick pay is recognized in the accompanying financial statements. Accumulated sick leave (including the Department) was approximately \$32.4 million at June 30, 2010.

Capital Leases - Leases that substantially transfer all of the risks and benefits of ownership are accounted for as capital leases. Capital leases are included in capital assets and, where appropriate, are amortized over the shorter of their economic useful lives or lease terms. The related capital lease obligations are included in long-term liabilities in the government-wide financial statements.

Long-Term Obligations - In the government-wide financial statements, Proprietary Fund financial statements, and Component Unit financial statements, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, Proprietary Fund, or Component Units statement of net assets. Initial-issue bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective-interest method. The difference between the reacquisition price of refunding bonds and the net carrying amount of refunded debt (deferred amount on refunding) is amortized over the shorter of the life of the refunding debt or the remaining life of the refunded debt. Bonds payable are reported net of the unamortized portion of applicable premium, discount, or deferred amount on refunding. Bond issuance costs, including underwriters' discount, are reported as deferred bond issuance costs. Amortization of bond premiums or discounts, issuance costs, and deferred amounts on refunding is included in interest expense.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

In the fund financial statements, Governmental Funds recognize bond premiums, discounts, and issuance costs during the period issued. The face amount of debt issued is reported as other financing sources. Premiums received are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In Fiscal Year 2010, the County issued Build America Bonds and Recovery Zone Economic Development Bonds that provide for 35% and 45%, respectively, in federal subsidies on the total interest requirements.

Facility Reserve Charges - The Department assesses a fee to commercial and residential developers based upon the number and size of water meters installed at the respective projects which, together with interest earned thereon, provides for the funding of system capital improvements which are included as restricted for utility plant construction in the *Statement of Net Assets*. Expenditures of these monies are restricted by the Department ordinances to water supply system capital improvements.

Use of Estimates - The preparation of the basic financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues, expenses/expenditures, and other financing sources and uses during the reported period. Actual results could differ from these estimates.

NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING

Ō

۲

•

۲

Annual appropriated budgets are adopted for the following funds:

General	Sewer Trust
Housing and Community Development Revolving	Development Capital Improvement
Solid Waste Disposal	Bikeway Capital Improvement
Highway	Highway Capital Improvement
Liquor	Open Space Capital Improvement
Beautification	Public Housing Enterprise
Criminal Asset Forfeiture	Sewer Enterprise
Public Access	Golf Enterprise
Parks and Playground Capital Improvement	~ •

Budgets are adopted on a basis consistent with US GAAP except that expenditures include encumbrances as budgetary expenditures in the year the commitments are made and exclude claims and judgments and landfill closure and postclosure liabilities. Annual appropriations, except enterprise funds, lapse at fiscal year end. Project ordinances are adopted for capital projects funds.

NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING - Continued

0

The County uses the following procedures in establishing the budgetary data reflected in the financial statements:

- On or before March 15, the Mayor submits a proposed operating and capital projects budget for the year commencing the following July 1 to the County Council. The operating and capital project budgets include proposed expenditures and the means to finance them.
- Public hearings are conducted to obtain citizen comments. The Council may amend the Mayor's budget.
- On or before June 7 of the fiscal year currently ending, the Council legally enacts the budget through the passage of a budget ordinance.
- Amendments to the enacted budget ordinances may be proposed by the Mayor and enacted by the Council (under the same procedures prescribed for the enactment of the annual budget ordinance), provided that no amendment increases the aggregate of authorized expenditures to an amount greater than the estimate of available financial resources for the fiscal year.
- The Mayor is authorized to transfer appropriations between programs within a department without Council approval; however, any transfer that alters the total expenditures of any department must be approved by the Council.

Formal budgetary integration is employed in the annual operating budgets as a management control device during the year for the General Fund and Special Revenue Funds (except for Section 8, Plans and Permits, and State Grants). Accordingly, budget figures are included in the respective *Statement/Schedules of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual.* The Capital Projects Funds budgets were adopted on a project basis and they are included in this presentation.

Formal budgetary integration is also employed for the Public Housing, Sewer, and Golf Funds. Accordingly, budget figures are included as additional information in the respective *Schedules of Revenues, Expenditures, and Changes in Fund Equity - Budget and Actual* for these funds.

Formal budgetary integration is not employed for the Debt Service Fund, Bond Fund, Agency Funds, certain Special Revenue Funds, and Capital Projects Funds, as noted above. Budgetary control for these funds is achieved through bond indentures, contractual or grant provisions, project oversight, and legislation.

Flexible budgeting is employed for the Department. Expenditures may not exceed appropriations at the departmental level. Individual fund budgetary comparisons (by object code and by year of appropriation) are reported in separate budgetary reports, which can be obtained from the County's Director of Finance.

The final budget figures presented include all amendments during the year. Amendments to the budget ordinance for the fiscal year were made in compliance with the procedures described above. Several budget amendments were made during the year.

NOTE 3 - BUDGET TO GAAP RECONCILIATION

•

•

Encumbrance accounting is employed as an extension of formal budgetary integration in the General Fund and budgeted Special Revenue Funds. Capital Projects Funds also employ encumbrance accounting to reserve for construction contracts. Actual expenditures on a budgetary basis include current year reserves for encumbrances and exclude payments on prior year encumbrances. Encumbrances outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year. Budgeted deficiencies are funded by the estimated unreserved-undesignated fund balances as of June 30, 2010.

The County's budget is prepared differently from GAAP. Therefore, the Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - General Fund, Housing and Community Development Revolving Fund, and Solid Waste Disposal Fund are presented on the budgetary basis, using budgetary expenditure categories.

The following is a reconciliation of the differences between the budgetary basis and GAAP basis for the excess of revenues and other sources over expenditures and other uses for the aforementioned financial statements:

		General Fund	Con Deve	sing and nmunity clopment ving Fund	Solid Waste Disposal Fund
GAAP excess (deficiency) of revenues and other financing sources over (under) expenditures and other financing uses	\$	14,659,123	\$	(60,043)	\$ (1,079,515)
Encumbrances and unexpended allotments, current year Non-GAAP budgetary basis excess (deficiency)		<u>(6,634,690</u>)		(20,854)	(1,875,977)
of revenues and other financing sources over (under) expenditures and other financing uses	<u>\$</u>	<u>8,024,433</u>	<u>\$</u>	<u>(80,897</u>)	<u>\$_(2,955,492</u>)

NOTE 4 - DEPOSITS AND INVESTMENTS

The County maintains a cash and investment pool that is used by all funds, including the Department. Each of the fund's and component unit's portion of this pool are displayed in the accompanying financial statements.

Deposits - The deposits of the County and the Department consist of cash and cash equivalents, money market accounts, and non-negotiable certificates of deposit. At year end, the carrying values (book balances) of these deposits with banks and savings institutions approximated \$22,147,000 and the balances carried by the bank were approximately \$32,241,000. Of these deposits, \$1,000,000 is covered by federal depository insurance and the remaining amount is collateralized by securities held by financial institutions in the County's name.

NOTE 4 - DEPOSITS AND INVESTMENTS - Continued

Investments - As of June 30, 2010, the County and the Department held \$179,993,732 and \$68,329,000, respectively, or 91% and 98% of their investments in Federal Government Sponsored Entities and Government Securities. The fair value of the investments approximate cost.

Interest Rate Risk - As a means of limiting exposure to fair value losses arising from rising interest rates, State law prohibits the County from holding investments with maturities in excess of five years.

As of June 30, 2010, the County and the Department had the following investments:

	County	<u>Department</u>
Government Sponsored Entities Government Securities Money Market Funds Other Fixed Income US Corporates	\$ 117,018,606 63,703,465 3,346,896	\$ 50,776,000 13,381,000 4,067,000 105,000
Certificates of Deposit	184,068,967 <u>13,472,311</u>	68,329,000 <u>3,053,000</u>
Total	<u>\$ 197,541,278</u>	<u>\$71,382,000</u>

Credit Risk - State law limits investments to the top rating issued by nationally recognized statistical rating organizations (NRSRO's). The County has no investment policy that would further limit its investment choices. As of June 30, 2010, the County's investments had a AA or greater rating.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the County's investments are held in its name.

Concentration of Credit Risk - The County places no limit on the amount which may be invested in any one issuer. As of June 30, 2010, the County and the Department held \$129,143,403 and \$49,789,714, respectively, or more than 65% and 70% of their investments in the following:

		County			Department		
FNDN -	Fannie Mae Discount Note	\$	2,997,966	1.5%	\$	-	0.0%
FMCDN -	Freddie Mac Discount Note		3,994,467	2.0%		995,771	1.4%

Golf Enterprise Fund	Sewer Enterprise Fund	347,554
Other Governmental Funds	General Funds	 15,465,331
		\$ 31,946,675

NOTE 7 - INTERFUND RECEIVABLES/PAYABLES - Continued

Interfund receivables/payables are recorded to cover the temporary cash shortages in the respective funds. There are no interfund balances that are not expected to be repaid by June 30, 2011.

Internal balances consist of the following at June 30, 2010:

Receivable Fund	Payable Fund	Amount
Grants CIP Fund	Sewer Enterprise Fund	\$ 1,214,905
General Fund	Golf Fund	1,044,365
		<u>\$ 2,259,270</u>

Transfers for the fiscal year ended June 30, 2010 consisted of the following:

			Transfers out:					
				neral Capital provement	Go	Other vernmental		
	_ <u>G</u>	eneral Fund	_	Fund		Funds		Total
Transfers in:								
Golf Enterprise Fund	\$	822,392	\$	-	\$	-	\$	822,392

	<u>\$</u>	20,345,807	<u>\$</u>	<u>7,353,765</u>	<u>\$</u>	<u>2,975,000</u>	<u>\$</u>	<u>30,674,572</u>

Transfers are recorded to fund the short-term operating requirements of individual funds. During fiscal year ending June 30, 2010, an amendment to the capital budget was adopted to reduce the General CIP Fund appropriations for projects; the funding was changed to the Bond Fund. As a result, a transfer totaling \$7,353,765 was made out of the General CIP Fund back to the General Fund.

NOTE 8 - NET ASSETS

 At June 30, 2010 net assets consisted of the following:

NOTE 9 - CAPITAL LEASES

•

Ŏ

The County leases machinery and equipment under non-cancelable leases expiring at various dates through October 2015 which meet the criteria for capitalization. These capital leases are financed from General Fund resources.

The estimated value of the leased machinery and equipment at the inception of the leases net of accumulated depreciation, amounted to \$4,520,540. The related present value of the remaining obligations under the capital leases which amounted to \$3,054,047 at June 30, 2010 and are included in the capital assets and long-term liabilities, accordingly.

The future minimum obligations under capital leases at June 30, 2010 are as follows:

Year Ending June 30.	<u> </u>	Principal		Interest	Total		
2011	\$	954,328	\$	120,310	\$	1,074,638	
2012		698,830		83,936		782,766

On February 19, 2004, the Department entered into a Water Treatment and Delivery Agreement (Agreement) with an unrelated third party developer. The Agreement requires the developer to build, operate, and maintain a surface water treatment plant (SWTP) with a capacity of 3.0 million gallons per day (MGD). The Department is required to purchase, at a minimum, 2.0 MGD, and to provide the developer a credit towards its facility reserve charge. The term of the Agreement is 15 years and the Agreement provides the Department with the option of accepting the dedication of the SWTP at no cost after the reimbursement date, as defined. The Department commenced water purchases on January 1, 2006.

NOTE 9 - CAPITAL LEASES - Continued

The capital lease obligation is amortized at an implicit rate of approximately 6%. The annual requirements to amortize capital lease obligation as of June 30, 2010 are approximately as follows:

Year Ending June 30.		Principal		Interest		Total
2011	\$	483,000	\$	309,000	\$	792,000
2012		513,000		279,000		792,000
2013		545,000		247,000		792,000
2014		579,000		213,000		792,000
2015		615,000		177,000		792,000
2016-2019		<u>2,598,830</u>		305,000		<u>2,903,830</u>
Totals	<u>\$</u>	<u>5,333,830</u>	<u>\$</u>	1,530,000	<u>\$</u>	<u>6,863,830</u>

The utility plant related to the SWTP facility was approximately \$7,181,000 as of June 30, 2010 and 2009. The provision for accumulated depreciation related to the SWTP facility was approximately \$2,412,000 and \$1,881,000 as of June 30, 2010 and 2009, respectively.

NOTE 10 - LONG-TERM LIABILITIES

General Obligation Bonds - The County issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. These bonds have been issued by the County for both primary government and component unit activities.

General obligation bonds are direct obligations of the County. The County has pledged its full faith and credit. Additionally, the Department has pledged to maintain and collect revenues sufficient to pay all operating costs and to pay the principal and interest on such bonds as they become due.

The County and the Department issued general obligation bonds through the Build America Bonds and Recovery Zone Economic Development Bonds programs that provide 35% and 45%, respectively, in federal subsidies on the total interest requirements. The interest is paid to the County and the Department on a semi-annual basis corresponding with the interest payment dates to the bondholders. No subsidy payment was received prior to June 30, 2010.

NOTE 10 - LONG-TERM LIABILITIES - Continued

General obligation bonds payable reported on the government-wide *Statement of Net Assets* at June 30, 2010 are comprised of the following individual issues:

Governmental Activities:

•••••

•

General obligation bonds, 2010 Series A, original amount \$47,835,000, due in annual installments of \$1,490,000 to \$3,570,000 through August 2033, interest payments semi- annually from 1.955% to 5.763% (before the federal subsidy).	\$	47,835,000
General obligation bonds, 2010 Series A, original amount \$12,165,000, due in annual installments of \$3,140,000 to \$9,025,000 through August 2034, interest payments semi- annually from 5.863% to 5.913%.		12,165,000
General obligation bonds, 2005 Series A, original amount \$42,180,000, due in annual installments of \$1,120,000 to \$3,355,000 from August 2008 through August 2029, interest payments semi-annually from 3.25% to 5%.		39,745,000

Totals	<u>\$72,081,000</u>	<u>\$52,541,561</u>	<u>\$124,622,561</u>

At June 30, 2010, approximately \$21.4 million of primary government and \$8.9 million of component unit general obligation bonds outstanding are considered defeased.

Revenue Bonds:

Ŏ

Ŏ

•

•

•

Revenue bonds are direct obligations where the County pledges income derived from acquired or constructed assets to pay debt service.

At June 30, 2010, the long-term debt of the Public Housing Enterprise Fund comprised approximately of \$395,000 of 1992 series Rental Housing revenue bonds (original amount \$4.2 million) which are due in annual installments of \$180,000 to \$205,000 through April 2012. Interest on bonds are payable semi-annually at 7.25%.

Annual requirements to retire revenue bonds payable at June 30, 2010 are approximately as follows:

Year Ending June 30,		Principal		Interest		Total
2011 2012	\$	190,000 20 <u>5,000</u>	\$	29,000 15,000	\$	219,000 220,000

•

Ó

•

Ò

0

ė ė

•

During fiscal year 1995, the County entered into an additional construction loan agreement with the State totaling approximately \$700,000 to fund a change order related to the Kapa'a Wastewater Treatment Plant. Principal, interest, and loan fee payments are due in semi-annual installments of \$23,925 (\$47,850 annually). Interest is accrued at 3.06% per annum.

- During fiscal year 1993, the County entered into a construction loan agreement with the State totaling approximately \$14.1 million to fund a portion of the construction cost of the Līhu'e Wastewater, Phase IV Project. A supplemental loan agreement reduced the principal amount to approximately \$13.4 million. Principal, interest, and loan fee payments are due quarterly in equal installments of \$239,699 (\$958,796 annually). Interest is accrued from the date of the State-issued warrant (March 7, 1994) or check for each subsequent loan amount disbursed to the County at 3.78% per annum. The construction loans are general obligation debt of the County that do not specify a dedicated revenue source to be used for repayment of the loans. The construction of each of these plants was completed during fiscal year 1997. The County determined that the funding source for repayment of these loans will be from the Sewer Enterprise Fund.
- During fiscal year 2006, the County entered into a new construction agreement with the State to fund a cesspool conversion project. The agreement allows the County to request reimbursement for project related expenditures from the State. The County requested approximately \$450,000, and \$700,000 respectively for the years ended June 30, 2007, and 2006. Principal and interest payments are due in semi-annual installments of \$36,692 (\$73,384 annually). A loan fee is assessed at 1% of the outstanding principal balance. Interest is accrued at 2.13% per annum.
- During fiscal year 2007, the County entered into a construction agreement with the State totaling approximately \$2.2 million to fund a wastewater effluent system. Principal and interest payments are due in semi-annual installments of \$58,425 (\$116,850 annually). A loan fee is assessed at .25% of the outstanding principal balance. Interest is accrued at .50% per annum.

- During fiscal year 2009, the County entered into a new construction agreement with the State totaling approximately \$2.1 million to continue to fund the wastewater effluent system. Principal and interest payments are due in semi-annual installments of \$55,611 (\$111,222 annually). A loan fee is assessed at .25% of the outstanding principal balance. Interest is accrued at .50% per annum.
- During fiscal year 2009, the County entered into a second new construction agreement with the State totaling approximately \$3.9 million to fund sewer system improvements. Principal and interest payments are due in semi-annual installments of \$107,880 (\$215,760 annually). A loan fee is assessed at .25% of the outstanding principal balance. Interest is accrued at .50% per annum.
- During fiscal year 2009, the County entered into a third new construction agreement with the State totaling approximately \$436,000 to fund wastewater pump station improvements. Principal and interest payments are due in semi-annual installments of \$12,051 (\$24,102 annually). A loan fee is assessed at .25% of the outstanding principal balance. Interest is accrued at .50% per annum.
- During fiscal year 2010, the County entered into a new construction agreement with the Sate totaling approximately \$4.9 million to fund the wastewater plant digester repair. Principal and interest payments are due in semi-annual installments of \$137,553 (\$275,106 annually). A loan fee is assessed at .25% of the outstanding principal balance. Interest is accrued at .50% per annum.

NOTE 11 - EMPLOYEE BENEFIT PLANS

Ō

Ŏ

Ō

Pension - Substantially all eligible employees of the County (including the Department) are members of the Employees' Retirement System of the State of Hawai'i (ERS), a cost-sharing, multiple-employer defined benefit pension plan. The ERS provides retirement benefits, as well as, death, and disability benefits. HRS Section 88 establishes or amends benefit provisions. Prior to June 30, 1984, the plan consisted of only a contributory option. In 1984, legislation was enacted to add a new noncontributory option for members of the ERS who are also covered under Social Security. Persons employed in positions not covered by Social

NOTE 11 - EMPLOYEE BENEFIT PLANS - Continued

Ö

•

Security are precluded from the noncontributory option. The noncontributory option provides for reduced benefits and covers most eligible employees hired after June 30, 1984. Employees hired before that date were allowed to continue under the contributory option or to elect the new contributory option and receive a refund of employee contributions. Both options provide for a monthly retirement allowance based on the employee's age, years of credited service, and Average Final Compensation (AFC). The AFC is the average salary earned during the five highest paid years of service, including the vacation payment, if the employee became a member prior to January 1, 1971. The AFC for members hired on or after that date and prior to January 1, 2003 is based on the three highest paid years of service, excluding the vacation payment. Effective January 1, 2003, the AFC is the highest three calendar years or highest five calendar years plus lump sum vacation payment or, highest three school contract years, or last 36 credited months or last 60 credited months plus lump sum vacation payment. All benefits vest after five and ten years of credited service under the contributory and noncontributory options, respectively. Members, except police officers, under the contributory option contribute at a rate of 15% of their salary. Members who are police officers have a mandatory contribution rate of 19.70% of their salary.

On July 1, 2006, a new hybrid contributory plan became effective pursuant to Act 179, SLH of 2004. Members in the hybrid plan are eligible for retirement at age 62 with five years of credited service or age 55 with 30 years of credited service. Members will receive a benefit multiplier of 2% for each year of credited service in the hybrid plan. The benefit payment options are similar to the current contributory plan. Almost 58,000 current members, all members of the noncontributory plan and certain members of the contributory plan, are eligible to join the new hybrid plan. Most of the new employees hired from July 1, 2006 are required to join the new hybrid plan.

The ERS provides basic pension benefits to individuals receiving pensions. Employer contributions to the ERS are comprised of normal cost plus level annual payments required to liquidate the unfunded accrued liability over the closed period ending June 30, 2029. The ERS uses the Entry Age Normal Actuarial Cost method to calculate the unfunded accrued liability.

The County's (including the Department's) payroll for employees covered by the plan for the year ended June 30, 2010 was approximately \$65.8 million. The total payroll for the County's employees for the year ended June 30, 2010 was approximately \$68 million. The County is required to contribute an actuarially determined amount to the ERS. Contributions made to the ERS by the County, and employees for the year ended June 30, 2010 were approximately \$10.7 million and \$4.2 million, respectively. The County's actuarially determined contribution is 1% of the total current year actuarially determined contribution requirements for all employers. The County's contributions to ERS for fiscal years 2010, 2009, and 2008 were approximately \$10.7 million, and \$8.8 million, respectively. Contributions for fiscal years 2009 and 2008 were equal to the required contributions for each respective year.

ERS issues a *Comprehensive Annual Financial Report (CAFR)* that includes financial statements and required supplementary information which may be obtained from the following address:

Employees' Retirement System of the State of Hawai'i 201 Merchant Street, Suite 1400 Honolulu, Hawai'i 96813

NOTE 11 - EMPLOYEE BENEFIT PLANS - Continued

0

۲

•

The following data was obtained from the disclosures contained in the CAFR for the year ended June 30, 2008. Number of employers as of June 30, 2008 was:

State	1
Counties	4
Total employers	5

Basis of Accounting - The financial statements of the ERS are prepared using the accrual basis of accounting. Employer and member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments - Plan investments are reported at fair value. Where appropriate, the fair value includes disposition costs. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments and real estate owned are based on independent appraisals and estimated values. Investments that do have an established market are reported at estimated fair value.

Deferred Compensation Plan - The County has a Deferred Compensation Plan (Plan) created in accordance with Internal Revenue Code Section 457. The Plan, available to all employees, permits them to defer a portion of their salary until future years. Participation in the Plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The Small Business Job Protection Act of 1996 requires that all plan assets and income be placed in trust, custodial account or annuity contract for the exclusive benefit of the participants and their beneficiaries.

The County has met the requirements for the Small Business Job Protection Act of 1996 for its Internal Revenue Code Section 457 Plan, and in accordance with the criteria set forth in the GASB Statement No. 32, "Accounting and Financial Reporting Code Section 457 Deferred Compensation Plans," the County has excluded the plan assets and liabilities from the government-wide financial statements because the County does not have significant administrative involvement in the plan or perform the investment function for the plan. All such amounts are not subject to the claims of the County's general creditors.

NOTE 12 - POST EMPLOYMENT HEALTHCARE PLAN

Plan Description - The County provides certain healthcare and life insurance benefits to all qualified employees through the Hawai'i employer - Union Health Benefit Trust Fund (EUTF), an agent multiple-employer defined benefit plan, established through Chapter 87A of the Hawai'i Revised Statutes (HRS). The EUTF was established to provide a single delivery system of health benefits for state and county workers, retirees, and their dependents. As an agency of the State, the EUTF contracts with providers of medical, dental, vision, and life insurance plans. The EUTF plan currently provides medical, dental, vision, and life insurance plans. The EUTF plan currently provides medical, dental, vision, and life insurance plans. The EUTF plan currently provides medical, dental, vision, and life insurance plans. The EUTF plan currently provides medical, dental, vision, and life insurance benefits. The EUTF issues an annual financial report that is available to the public. That report may be obtained by writing to:

EUTF

201 Merchant Street, Suite 1520 Honolulu, Hawai'i 96813

۲

۲

ē

For employees hired before July 1, 1996, the County pays the entire base monthly contribution for employees retiring with 10 years or more of credited service and 50% of the base monthly contribution for employees retiring with fewer than 10 year of credited service. A retiree can elect a family plan to cover dependents.

For employees hired after June 30, 1996 but before July 1, 2001, and who retire with less than 10 years of service, the County makes no contributions. For those retiring with at least 10 years but fewer than 15 years of service, the County pays 50% of the base monthly contribution. For those retiring with a least 15 years but fewer than 25 years of service, the County pays 75% of the base monthly contribution. For those employees retiring with at least 25 years of service, the County pays 100% of the base monthly contribution. Retirees in this category can elect a family plan to cover dependents.

For employees hired on or after July 1, 2001, and who retire with less than 10 years of service, the County makes no contributions. For those retiring with at least 10 years but fewer than 15 years of service, the County pays 50% of the base monthly contribution. For those retiring with at least 15 years but fewer than 25 years of service, the County pays 75% of the base monthly contribution. For those employees retiring with at least 25 years of service, the County pays 100% of the base monthly contribution. Only single plan coverage is provided for retirees in this category. Retirees can elect family coverage but must pay the difference.

Funding Policy - Effective July 1, 2006, EUTF implemented GASB Statement No. 43, *Financial Reporting* for Postemployment Benefit Plans Other Than Pensions. GASB 43 establishes accounting and financial reporting standards for plans that provide other postemployment benefits (OPEB) other than pensions. GASB 43 requires defined benefit OPEB plans that are administered as trust or equivalent arrangement to prepare a statement of plan assets and a statement of changes in plan assets.

The reporting of active and retiree (including their respective beneficiaries) healthcare benefits provided through the same plan should separate those benefits for accounting purposes between active and retiree healthcare benefits. Accordingly, the County reports the retiree healthcare benefits as OPEB in conformity with GASB 43 and the active employee healthcare benefits as risk financing in conformity with GASB 5tatement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, as amended.

Effective July 1, 2007, the County implemented GASB Statement No. 45, Accounting and Financial Reporting by Employer for Postemployment Benefits Other Than Pensions, which requires reporting the OPEB liability on an accrual basis. Because the Statement was implemented on a prospective basis, the OPEB liability at transition was zero.

The County's base contribution levels to EUTF are established by Statutes. The retiree is responsible to pay the difference if the base contribution is less than the cost of the monthly premium.

Annual OPEB Cost - The County's annual OPEB cost for each plan is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters in GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The net OPEB obligation is determined based upon current year contributions and any short-term differences which are amounts that will be contributed within one year or the next actuarial

NOTE 12 - POST EMPLOYMENT HEALTHCARE PLAN - Continued

determination date. At June 30, 2010, the County's post-retirement payable of \$181,000 is considered a short-term difference and has been included in the respective annual OPEB contributions. At June 30, 2010 and 2009, the Department's post-retirement payable of \$0 and \$238,509, respectively, is considered a short-term difference and has been included in the respective annual OPEB contributions. The following table presents the annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, the net OPEB liability, and the funding status:

County:

•

Fiscal Year Ending June 30,	Annual OPEB <u>Cost</u>		Percentage of Annual OPEB Cost Contributed	Net OPEB <u>Obligation</u>		
2009 2010		1,510,000 1,926,000	100.0% 100.0%	\$ \$	-	
Department:						
Fiscal Year Ending June 30,	Annual OPEB		Percentage of Annual OPEB Cost Contributed	Net OPEB <u>Obligation</u>		
2009 2010	\$ \$	72 8, 000 756,000	100.0% 109.4%	\$ \$	- (71,000)	

Funding Status and Funding Progress - The funded status of the Plan as of July 1, 2009, the effective date of the biannual OPEB valuation, was as follows:

		County	Department of Water			
Actuarial A Assets	Accrued Liability (AAL)	\$149,185,000 <u>13,493,000</u>	\$ 9,702,000 <u>930,000</u>			
Unfunded	AAL (UAAL)	<u>\$135,692,000</u>	<u>\$_8,772,000</u>			
		2010	2009			
Covered payroll Unfunded actuarial accrued (UAAL) as of July 1, 2009		Department of Water \$ 4,424,000	<u>County</u> \$ 62,849,000	Department of Water \$ 4,476,000		

NOTE 12 - POST EMPLOYMENT HEALTHCARE PLAN - Continued

Ŏ

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, is designed to present multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Significant methods and assumptions were as follows:

	County
Actuarial valuation date	July 1, 2009
Actuarial cost method	Entry age normal
Amortization method	Level percentage of payroll, period ending June 30, 2037
Remaining amortization period	30 years
Actuarial assumptions:	
Investment rate of return	7%
Projected salary increases	3.5%
Medical and Rx Pre-65	10.5% initial; 5% ultimate
Medical and Rx Post-65	10.25% initial; 5% ultimate
Dental	6.0% initial; 4% ultimate
Vision	4.0% initial; 3% ultimate
Medicare Part B	14.63% initial, 5% ultimate

The number of participants as of July 1, 2009, the effective date of the biannual OPEB valuation, follows. There have been no significant changes in the number of covered participants or the type of coverage since that date:

	<u>County</u>	<u>Department</u>
Active employees	1,076	74
Retired employees	633	30
Deferred vested employees	85	4
Total	<u> </u>	<u> </u>

NOTE 13 - COMMITMENTS AND CONTINGENCIES

•

Ō

•

Ŏ

۲

Ū Ū

Claims and Judgments - The County is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County maintains certain comprehensive general liability and property insurance, public official and law enforcement liability insurance, and excess auto liability insurance for claims. It is the opinion of management and legal counsel that such claims and lawsuits are either covered by the County's insurance policies, if they should exceed the County's retained risk, or are recorded in the government-wide financial statements. There was no reduction in insurance coverage during the year from coverage in the prior year. During the past three fiscal years, the amount of settlements in cases covered by insurance have not exceeded the insurance coverage. The County is substantially self-insured for its vehicles as well as for all other perils including workers' compensation and general liability below \$500,000. Claims against the County are paid out of the General Fund.

Liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claims liabilities, including IBNR, are based on the estimated ultimate cost of settling the claims, and include incremental costs for the hiring of special counsel and expert witnesses. Claims liabilities are estimated on a case-by-case review of all claims and the application of historical experience to outstanding claims. Estimates of IBNR are based on historical experience. The liability for claims and judgments is reported on the government-wide *Statement of Net Assets*. At June 30, 2010, the amount of this liability was approximately \$8.3 million. This is the County's best estimate based on available information. Changes in the reported liability since July 1, 2009 are given below:

Fiscal <u>Year</u>	Liability at Beginning of Year	Claim	Current Year Claims and Changes In Estimates		Claim Payments I Adjustments	Liability at End of Year
2009	\$ 10,791,207	\$	7,567,743	\$	(7,144,889)	\$ 11,214,061
2010	\$ 11,214,061	\$	2,724,332	\$	(5,651,688)	\$ 8,286,705

Purchase Commitments - The outstanding portion of contractual commitments for capital projects, supplies, and other expenditures at June 30, 2010, was approximately \$22.3 million. Contractual commitments are generally reflected in the governmental fund financial statements as committed fund balance.

NOTE 14 - LANDFILL CLOSURE AND POST-CLOSURE CARE COSTS

GASB Statement No. 18, "Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs," which is based on the October 9, 1991 United States Environmental Protection Agency (EPA) rule, "Solid Waste Disposal Facility Criteria," establishes closure requirements for all municipal solid waste landfills that receive waste after October 9, 1991. In accordance with GASB Statement No. 18, the County estimates in advance the total cost of closure and post-closure care during the life of those landfills rather than after their closings. Federal and State laws and regulations require the County to place final covers on certain landfill sites when they stop accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. Annual additions to the liability for closure and post-closure care costs are based on landfill capacity used as of each balance sheet date.

NOTE 14 - LANDFILL CLOSURE AND POST-CLOSURE CARE COSTS - Continued

The County has three landfill sites - Kekaha Landfill Phases I, and II, and Halehaka Landfill. The County has closed the Kekaha Landfill Phase I and Halehaka Landfill. The County estimates the closure costs for the Kekaha Landfill Phase II to be approximately \$12.5 million based on estimates provided by project engineers. At June 30, 2010, approximately 98% of the total capacity of the Kekaha Landfill Phase II had been used, and the estimated remaining landfill life is approximately one year.

The total estimated closure costs accrued in the government-wide financial statements for the Kekaha Landfill Phase II, and the remaining post-closure costs for the Kekaha Landfill Phases I, and II, and Halehaka Landfill was approximately \$21.6 million, which may change due to inflation, technology or applicable laws or regulations. This amount is fully accrued in the government-wide financial statements.

The County is required by state and federal laws and regulations to assure that the funds for corrective action closure and post-closure care will be available when needed. The County charges commercial businesses a tipping fee for each ton of waste deposited at the Kekaha Landfill Phase II. The tipping fees will be used to offset the cost of closing the landfill. As of June 30, 2010, the County has collected approximately \$6.6 million in tipping fees and a portion of this amount is included in the Solid Waste Fund. As of June 30, 2010, the County met applicable financial assurance requirements specified in 40 CFR Section 258.

Safe Drinking Water Act - The Department is subject to the requirements of the Safe Drinking Water Act (the Act) which is administered by the State of Hawai'i Department of Health on behalf of the United States Environmental Protection Agency. Management indicated that the Department is in full compliance with the requirements of the Act and is not aware of any matters under the Act that materially affected or are currently affecting the Department's customer service area.

NOTE 17 - RELATED PARTY TRANSACTIONS

The Department charges the County for fire protection services (hydrant use) at agreed-to rates that approximate the costs for such services. The County provides certain services to the Department and charges the Department for these services at an amount equal to the charge for fire protection services. The amounts charged approximated \$925,133 for the year ended June 30, 2010.

NOTE 18 - NEW PRONOUNCEMENTS FOR FINANCIAL REPORTING

GASB has issued the following Statements applicable to the County:

- Statement No. 51 "Accounting and Financial Reporting for Intangible Assets" This Statement requires that all intangible assets not specifically excluded by its scope provisions be classified as capital assets. This Statement also establishes guidance specific to intangible assets related to amortization. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2009. The adoption of this statement has not had an impact on the County's financial statements.
- Statement No. 53 "Accounting and Financial Reporting for Derivative Instruments" This Statement is intended to improve how state and local governments report information about derivative instruments financial arrangements used by governments to manage specific risks or make investments in their financial statements. The Statement specifically requires governments to measure most derivative instruments at fair value in their financial statements that are prepared using the economic resources measurement focus and the accrual basis of accounting. The guidance in this Statement also addresses hedge accounting requirements. The adoption of this statement has not had an impact on the County's financial statements.
- Statement No. 55 "The Hierarchy of Generally Accepted Accounting Principles of State and Local Governments" effective upon issuance in March 2009. This Statement incorporates the hierarchy of generally accepted accounting principles (GAAP) for state and local governments into the GASB's authoritative literature. The "GAAP hierarchy" consists of the sources of accounting principles used in the preparation of financial statements of state and local governmental entities that are presented in conformity with GAAP, and the framework for selecting those principles. The County believes that this Statement will make it easier to identify and apply all relevant guidance when preparing future financial statements.

NOTE 18 - NEW PRONOUNCEMENTS FOR FINANCIAL REPORTING - Continued

- Statement No. 56 "Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards" effective upon issuance in March 2009. This Statement incorporates into the GASB's authoritative literature certain accounting and financial reporting guidance presented in the American Institute of Certified Public Accountants' Statement on Auditing Standards. The three issues not included in the authoritative literature that establishes accounting principles are: related party transactions, going concern considerations, and subsequent events. The GASB believes that presentation of principles used in the preparation of financial statements is more appropriately included in accounting and financial reporting standards rather than in the auditing literature. The County believes that the Statement will improve financial reporting by bringing the authoritative accounting and financial reporting literature together in one place.
- Statement No. 57 "OPEB Measurements by Agent Employers and Agent Multiple Employer Plans" - The objective of this Statement is to address issues related to the use of the alternative measurement method and the frequency and timing of measurements by employers that participate in agent multiple-employer other post employment benefit (OPEB) plans. Statement No. 57 amends Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, to permit an agent employer that has an individual-employer OPEB plan with fewer that 100 total plan members to use the alternative measurement method, as its option, regardless of the number of total plan members in the agent multiple-employer OPEB plan in which it participates.
- Statement No. 59 "Financial Instruments Omnibus" This Statement is intended to update and improve existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools for which significant issues have been identified in practice. Statement No. 59 amends the following previous GASB Statements: No. 4, No. 53, No. 25, No. 43, No. 40, and No. 31. The requirements of this Statement will improve financial reporting by providing more complete information, by improving consistency of measurements, and by providing clarifications of existing standards.

OTHER SUPPLEMENTARY INFORMATION

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

Special Revenue Funds

Highway Fund

Accounts for the costs of maintaining the County's highways and streets. Financing is provided primarily by fuel, motor vehicle weight and public utility franchise taxes, licenses, and permits.

Liquor Fund

Accounts for the costs of operating the County's Liquor Department. Financing is provided by liquor licenses and permits.

Beautification Fund

Accumulates monies for the beautification of highways and streets and defrays the cost of disposing of abandoned vehicles. Financing is provided by motor vehicle registration fees. This fund was established for financing projects planned by the Mayor's Committee on Beautification.

Criminal Assets Forfeiture Fund

Accounts for monies or forfeited non-cash or tangible property received to be used solely for the Kaua'i Police Department for law enforcement purposes as delineated in the Comprehensive Crime Control Act of 1984 and The Attorney General's Guidelines on Seized and Forfeited property.

Plans and Permits Revolving Fund

Accounts for monies collected from new permits and penalties.

Section 8 Fund

•

Accounts for a contract with the federal government pursuant to Section 8 of the Housing and Community Development Act of 1974. Funds are to be expended for housing assistance payments for lower-income families and for administrative costs.

State Grants Fund

Accounts for expenditures of state and county grants.

Public Access Fund

Accumulates monies for the acquisition of land or property entitlements for land conservation purposes. This fund is appropriated at a minimum of .5% of the certified real property tax revenues for public access, open space, and natural resources preservation.

Park Maintenance and Improvements Fund

Accounts for monies collected and expended for parks.

<u>Debt Service Fund</u>

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, debt principal, interest, and related costs.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES - CONTINUED

Capital Projects Funds

Parks and Playground Capital Improvement Fund

Accounts for the costs of developing County parks and playgrounds financed by assessments to developers of residential projects.

Sewer Trust Fund

•

0

•

Accounts for the costs of expanding the County's sewer system financed by assessments to developers of subdivisions. Construction of the sewer system improvements is financed by general obligation debt that covers multiple public improvements. Repayment of the debt applicable to the sewer system will be made from General Fund sources. Accordingly, all sewer trust fund capital improvements are accounted for in the Capital Projects Fund and recorded as contributed capital in the Sewer Enterprise Fund upon completion.

Development Capital Improvement Fund

Accounts for capital improvements financed by assessments to developers of residential, hotel, commercial or industrial projects.

Bikeway Capital Improvement Fund

Accumulates monies for the construction and maintenance of bikeways and related activities financed by bicycle license fees.

Special State Capital Improvement Fund

Accounts for the costs of capital projects financed by State of Hawai'i grants-in-aid to Counties. There was no activity in this fund during fiscal year ending June 30, 2010.

Highway Capital Improvement Fund

Accounts for the costs of projects financed by the Highway Fund.

Open Space Capital Improvement Fund

Accumulates monies for the acquisition of land or property entitlements for public recreation, and preservation, protection and conservation of important areas.

Fiduciary Funds

Trust and Agency Fund

Accounts for the collection and payment to other governments of monies collected by the County on behalf of the other governments. Monies consist primarily of the collection of State of Hawai'i motor vehicle weight taxes.

Treasury Trust Fund

Accounts for monies collected for specific purposes by various agencies of the County as escrow agent or custodian.

Real Property Trust Fund

This fund is used for the purpose of making refunds and adjustments relating to real property taxes.

Note (1): As of fiscal year 2008 a new Department of Parks and Recreation was established. Therefore, positions previously reported under the Department of Public Works were transferred to the Department of Parks and Recreation.

Note (2): Prior to fiscal year 2008 Culture and Recreation reflected the Agency on Recreation employees. Parks employees were reported under Public Works. Starting fiscal year 2008 all of the employees of the Department of Parks and Recreation are reported under Culture and Recreation, with the exception of Golf activities. Full-time equivalents include permanent, temporary, exempt and contract positions.
