#### DEPARTMENT OF FINANCE County of Kaua'i, State of Hawai'i

4444 Rice Street, Suite 280, Līhu'e, Hawai'i 96766 TEL (808) 241-4200 FAX (808) 241-6529

December 15, 2011

Honorable Mayor Bernard P. Carvalho, Jr. Honorable Jay J. Furfaro, Council Chair And Members of the Kaua'i County Council County of Kaua'i 4444 Rice Street Lihu'e, Hawai'i 96766

Dear Mayor Carvalho, Chairman Furfarfo, and Members of the Council:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the County of Kaua'i (County), State of Hawai'i for the fiscal year ended June 30, 2011.

The CAFR was prepared by the Department of Finance, Accounting Division (Accounting Division). The accuracy of the financial statements and the completeness and fairness of their presentation are the responsibility of the County government. We believe the data presented in the CAFR are complete and accurate in all material respects and are provided in a manner designed to present the financial position and results of operations of the County. All disclosures necessary to convey the maximum understanding of the County's financial activities have been included.

The Department of Finance is tasked with the responsibility of establishing and maintaining an internal control structure and process that is designed to ensure that the assets of the County are protected from loss, theft, or misuse. Furthermore, it is the responsibility of Accounting Division to compile adequate accounting data to allow for the accurate preparation of financial statements in conformity with generally accepted accounting principles (GAAP).

Management is required to make decisions and judgments as to the concept of what constitutes reasonable assurance in reviewing the internal control mechanisms. Management must also weigh the cost of the control against the benefit that will likely be attained.

This report includes all funds of the County, including its component unit, the Department of Water (Department), established by the County Charter as a semi-autonomous body of the County government. This component unit is included in the County's reporting entity for fair presentation of the basic financial statements and to be in conformity with GAAP. The Board of Water Supply is appointed by the Mayor and is accountable for the activities of the Department. It would be potentially misleading if omitted in the County's financial reports because of its existing debt issuance, common employee benefits, and other fiscal dependence.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

The Reporting Entity

The County of Kaua'i, commonly known as The Garden Island, includes the populated island of Kaua'i and Ni'ihau of approximately 68,000 residents. The island of Kaua'i has an area of 549 square miles square miles and approximately 137 miles of coastline. Ni'ihau is a privately owned island encompassing approximately 70 square miles and is inhabited primarily by native Hawaiians who work on the Robinson Family ranch. Owners of the island grant limited access to the general public. Kaua'i is the smallest in size, population, and operating budget among the State's four counties. The County's largest industry is tourism, and the island's scenic and tourist attractions include the Waimea Canyon, coined the "Grand Canyon of the Pacific", the incomparable Na Pali Coast, with its secret beaches and hidden valleys, the Fern Grotto reached by riverboat cruises, and many others.

The County has operated under the Mayor-County Council form of government since 1969. The executive branch of the County is headed by the Mayor who is elected on a non-partisan basis for a four-year term and with a two term limit. The legislative branch is the County Council which is composed of seven members who are elected at-large on a non-partisan basis, for a two-year term with no limit on terms.

There are no subordinate or separate municipal entities within the County's jurisdiction. All powers of the County shall be carried into execution as provided by its Charter or by ordinance of the County Council and Mayor. The State of Hawai'i constitution sets limits on total bonded indebtedness of the County. Under the Constitution and laws of the State of Hawai'i, the full faith and credit of the County are pledged to the payment of the general obligation bonds issued. For the payment of the principal and interest on the bonds, the County has the power and is obligated to levy ad valorem taxes, without limitation as to rate or amount, on all real property subject to taxation by the County. The County did not issue any special assessment debt nor is there any overlapping bonded debt on general obligation bonds.

The County provides a full range of municipal services. These services include Public Safety (police, fire, civil defense, humane society, outreach program, highway safety grants, drug related grants, liquor control, lifeguards), Sanitation (wastewater, recycling and solid waste operations) Public Works (engineering, building and construction inspections and approvals, janitorial, and repair and maintenance of its facilities) Culture and Recreation (public pools, parks and beaches, golf course, neighborhood centers, recreation programs, beautification program, auditorium, stadium) Public Welfare (elderly affairs, transportation, housing, community development and assistance programs) Highways and Streets (highway repairs and maintenance, street lights) and General Government (mayor's office, council services, finance, prosecuting attorney, planning, personnel services, economic development, county attorney's office). The proprietary funds are accounted for separately from the above expense functions because combining the costs would obscure the matching of revenues and expenses of their required fund classification.

Services provided by the State of Hawai'i are excluded from this report. The State provides the following services: educational, health and welfare benefits, airport and harbor functions, hospitals, State highway system and the judicial system.

The major revenue sources of the County consist of the following: real property tax, transient accommodation tax, public service company tax, fuel tax, franchise tax, and motor vehicle weight tax. Other revenue sources include Federal and State grants, construction fees, development and impact fees, golf, and wastewater user fees. There are no personal taxes levied by the County.

**Economic Conditions and Outlook** 

Kauai's economy has demonstrated a more upbeat trend as compared to other Neighbor Island counties. Since the recession in 2009, Kaua'i has shown very slight, but positive increases over the last 24 months. There is conservative optimism as Kaua'i makes its way through a very tenuous global, national, and statewide economic recovery.

In addition to tourism, Kaua'i's Westside also benefits from the Pacific Missile Range Facility which employs close to 1,000 residents, the seed corn industry that has realized exponential growth during the last 10 years. The Westside of Kaua'i also boasts as having the largest coffee plantation in the nation, Kaua'i Coffee, and is another contributor to Kaua'i's job market and stable recovery.

**Tourism** 

Kaua'i is considered one of the premier vacation destinations in the Pacific Region. It has received several accolades within the travel industry. For the second consecutive year and third year out of the past five, Kaua'i has earned the distinction of being named Hawaii's Best Island as chosen by the readers of *Travel + Leisure* magazine in their 2010 World's Best Awards. In *Travel + Leisure*'s listing of World's Best Islands for 2010, Kaua'i ranked second overall, trailing only the Galapagos Islands.

There are several recognizable hotel chains on Kaua'i that are located throughout the island, which include the St. Regis Princeville Resort, Westin Princeville Ocean Resort Villas, Kaua'i Marriott Resort and Beach Club and the Grand Hyatt Kaua'i Resort and Spa, among others. Kaua'i's 14 hotel properties account for 2,657 units, or 25.5% of total units. In addition to Kauai's hotel inventory, which attracts both high-end and budget travelers, 2,626 timeshare units account for 25.2%, and 32 condo-hotels provide 2,179 units, or 20.9%, of total visitor accommodation inventory. Individual vacation units are additional options for visitors to Kaua'i, and there are 1,722 units or 16.5% to choose from.

Latest reports from the State of Hawaii DEBDT and Hawaii Tourism Authority reflect on Kaua'i visitor arrivals in October 2011 (YTD) of approximately 0.9 million or a 4.7% increase from the prior year. Overall visitor spending and spending per person per day (PPPD) increased in October (YTD) by \$990 million or 19.3% and \$172.80 or 13.1%, respectively.

Film

The film and television industry has a long and rich history on Kaua'i. From the first Hollywood movie Cane Fire in 1933 to Disney's Pirates of the Caribbean – On Stranger Tides in 2010, more than 74 films have been produced on Kaua'i. Major film activity was at its peak from 2007-2010 on Kaua'i. In more recent years, with the success of tourism industry and the scarcity of affordable hotel accommodations for large film crews, the business has evolved. The Kaua'i Film Commission, housed in the County of Kaua'i Office of Economic Development, has focused its efforts on attracting a larger number of smaller commercial productions. From infomercials and music videos, to reality television shows and photo shoots, the industry continues to infuse millions of dollars into Kauai's economy each year.

In 2010, four (4) major Hollywood feature movies were filmed on Kaua'i: Sony Pictures' "Soul Surfer" in February 2010, Fox Searchlights' "The Descendents" starring George Clooney in April 2010, Sony Pictures' "Just Go With It" with Jennifer Aniston and Adam Sandler in June 2010, and finally, blockbuster sequel, Disney's "Pirates of the Caribbean: On Stranger Tide" with Johnny Depp and Penelope Cruz in June 2010. Also, there were three (3) television shows filmed in early 2010.

Film expenditures on Kaua'i were approximately \$40 million, of which, included the hiring of 250+ local islanders as film crew, cast, security, office staff, caterers, and other. These expenditures include car and equipment rentals; hotel and vacation rental accommodations for cast and crew; food consumption at restaurants and supermarkets; location fees for private properties, and other.

Real Estate and Construction

A significant portion of real estate transactions are foreclosures and short sales, creating downward pressure on prices. Another indicator according to the Kaua'i Association of Realtors is that the number of realtors has dropped by 40% from the peak of 2008.

Sales have remained constant in the single-family sales market; however, current projections show median prices are on the rise. Condominium prices have been on a steady decline as sales have fallen by 9% and the median price by 26%.

The construction industry appears to be benefiting from resort-related building and public sector projects, adding more than 100 jobs over the course of last year. In the resort-related building sector, major renovations at the Sheraton Kaua'i Resort in its restaurants and lobby/front desk areas, along with public projects such as the continued widening of Kaumuali'i Highway in Līhu'e and the recently completed Bryan Baptiste Memorial Bridge in Wailua provide optimism for the Construction Industry on Kaua'i.

Future construction projects on the horizon include the Hokulei Village with its super-Safeway store anchor, Phase II of the Kaumuali'i Highway project projected at \$46 million, the Port Allen harbor repair, Kapa'a High School library, and LThu'e Airport improvements.

Agriculture / Energy

The County's agricultural industries are: 1) production of seed for crops such as corn, soy beans, and sunflower, 2) coffee, 3) raising cattle, in addition to other livestock, and 4) crops, including fruits (such as papayas, guavas, and bananas), vegetables and melons, taro, flowers and certain other specialty crops.

The seed corn industry has expanded its crop base and infrastructure. There are currently five parent seed corn operations on Kaua'i. Pioneer Hi-Bred International, Inc., Syngenta, Dow, Monsanto, and BASF have approximately 3,000 acres in production throughout Kaua'i's various micro-climates. Such micro-climates are ideal for the industry, enabling three crops per year to be grown and harvested.

Kaua'i coffee growers continue to produce the largest proportion of the State's annual coffee yield. With 3,400 acres, Kaua'i Coffee Company remains the largest coffee plantation in the United States, and has recently been purchased by Massimo Zannetti, USA.

Kaua'i produces two-thirds of the State's taro and poi, a staple of the Hawaiian diet and a culturally significant product.

Kaua'i boasts at having the largest solar farm in the State of Hawai'i with the Kapa'a Solar Project which was completed a year ago. Other renewable energy projects in the discussion and planning phase include Grove Farm's partnership with AES Solar in their project on the south side of Kaua'i, Kikiaola Land Company's solar and Sopogy's concentrated solar projects in Kekaha.

The County is doing its part to be a leader in energy efficiency and renewable energy technology with recently completed Photovoltaic installations at the Pilkoi building and the new Kaikea Fire Station in Kealia. The overall goal is to reduce energy costs to the County and taxpayers, as well as further reduce Kauai's dependence on imported fossil fuels.

Major Initiatives and Achievements

Of the 32,993 total taxable parcels, 9,310 parcels qualified for the tax relief programs in fiscal year 2011. The County continued to provide tax relief to its citizens by extending the "Circuit Breaker", "Personal Home Use Exemption (PHU)", and the long term affordable lease credits. These programs provided tax credits totaling \$6.6 million in fiscal year 2011 as compared to \$9.9 million in fiscal year 2010. Although tax credits may not have a direct effect on real property taxes billed, residents that have owned and lived in their homes since 2004 have received significant savings.

The County's capital improvement projects that are in progress, completed, or substantially completed during the year include Kaiakea Fire Station, the renovation of the Historic County Building Annex, island-wide road resurfacing program, Kekaha Landfill Phase II Lateral Expansion, and construction of Paanau Village Phase II.

The County received an additional \$0.4 million American Recovery and Reinvestment Act of 2009 (ARRA) Funds in fiscal year 2011. The total amount received to date amounted to approximately \$16.3 million. As of June 30, 2011, the County of Kaua'i expended a total of \$7.2 million. The two major remaining projects with funds encumbered at the end of the fiscal year were Lydgate Kapa'a Bike Path and Waimea Waste Water Treatment Plant Expansion Phase I, totaling \$4.1 million and \$3.7 million, respectively.

The Department of Public Works administers the sewer credit relief for qualified low-income residential users for the sixth consecutive year. A total of 8,721 credits at \$20.00 per month were issued to eligible residential users that amounted to approximately \$0.2 million in savings to households in fiscal year 2011. The General Fund subsidized the sewer relief program.

Long-term Financial Planning

No new General Obligation Bonds (GO Bonds) were issued during the current fiscal year. The appropriated balance in the Bond Fund amounted to \$71 million. The following major projects have been appropriated for:

Alternate energy projects
Lighting retrofit installation
Park/Open Space land acquisition
Landfill site acquisition
Lihu'e stadium baseball field improvements
Piikoi building renovation
Island-wide SCADA system
Adolescent drug treatment center

'Ele'ele Wastewater Treatment Plant Improvements Wailua emergency bypass improvements Auto shop facility/storage County-wide store facility Materials recycling facility 'Aliomanu road erosion Kekaha landfill lateral expansion

**Budgeting Controls** 

The County maintains a budgetary control system that enables County departments to comply with legal provisions incorporated in the annual budget ordinance and capital improvement budgets as approved by the County Council.

The County Charter requires that the annual operating budget ordinance be balanced. Financial reports or "Detail Budget Reports" are provided monthly to each department, enabling management to monitor the enacted budget appropriations, including current budget amendments with the expenditures and encumbrances that were charged to the appropriation. The County does not perform formal multi-year forecasts and budgeting. Certain budget amendments need Council approval and are detailed in the operating budget ordinance and charter provisions.

**Employee Union Contracts** 

With the exception of Hawai'i Government Employee Association (HGEA), all other union contract information is not currently available, as they remain under negotiation.

Per Supplemental Agreement between the County and HGEA, effective July 1, 2011 through June 30, 2013, employees shall remain at the salary rate in effect on June 30, 2009.

Independent Audit

The County Charter requires an annual financial audit by licensed and independent certified public accountants at least once every two years, or as deemed necessary. The financial statements are audited on an annual basis. The basic financial statements in this report have been audited by N&K CPAs, Inc. The financial statements of the Department, an enterprise fund included in the government-wide financial statements as a discretely presented component unit, were audited by KMH LLP. The County is also required to have an annual "single audit" in conformity with the provisions of the Single Audit Act of 1984, as amended, and the U.S. Office of Management and Budget Circular A-133, "Audit of States, Local Governments, and Non-Profit Organizations." Information pertaining to this single audit, including the schedule of expenditures of federal awards, findings and recommendations, and the report of the independent accountants on the internal controls and compliance with all applicable laws and regulations are included in a separate report and has been audited by N&K CPAs, Inc.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its CAFR for the fiscal year ended June 30, 2010. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

The Certificate of Achievement is valid for period of a one year only. We believe our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility of another certificate. The County has received this award for the 14th consecutive year.

Acknowledgments

The preparation of the CAFR could not have been accomplished without the commitment, dedication, and efforts of the Accounting Division. We extend our appreciation to the other divisions within the Finance Department and the assistance provided from fiscal personnel in other County departments. We also thank the honorable Mayor Carvalho and the County Council for their interest and support in planning and conducting the financial operations of the County in a responsible and progressive manner.

Respectfully submitted,

Walland for b

Wallace G. Rezentes, Jr. Director of Finance

FINANCIAL SECTION

#### INDEPENDENT AUDITORS' REPORT

To the Chair and Members of the County Council County of Kaua'i Lihue, Kaua'i, Hawai'i

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County of Kaua'i, State of Hawai'i (County), as of and for the fiscal year ended June 30, 2011, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Department of Water, which is the discretely presented component unit. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Department of Water, is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information for the County, as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

#### N&K CPAs, Inc.

ACCOUNTANTS | CONSULTANTS

In accordance with Government Auditing Standards, we have also issued our report dated December 15, 2011, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual fund financial statements, and schedules listed in the table of contents under other supplementary information and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules listed in the table of contents under other supplementary information have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections as listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Nik CPAs arc.

Honolulu, Hawai'i December 15, 2011

The management of the County of Kaua'i (the County) offers to readers a narrative overview and analysis of the County's financial activities for the fiscal year ended June 30, 2011. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-7 of this report and the financial statements that follow this section.

#### **FINANCIAL HIGHLIGHTS**

- The assets of the governmental activities exceeded its liabilities at the close of the fiscal year by \$536.9 million in its government-wide financial statements, a decrease of \$5.2 million from the prior year. Unrestricted net assets decreased by \$2.2 million from the prior year and ended at \$65.4 million. Unrestricted net assets may be used to meet the County's ongoing obligations to citizens and creditors. The changes in governmental activities were due to:
  - Expenses totaling \$155.8 million, an increase of \$8.6 million or 5.8% from the prior year.
  - Program revenues totaling \$44.7million, an increase of \$2.1 million or 4.9% from the prior year.
  - General revenues and transfers totaling \$106 million, a decrease of \$9.1 million or 7.9% from the prior year.
  - Assets, including capital assets, remained relatively flat to the prior year, ending at \$753.2 million.
- The assets of the **business-type activities** exceeded its liabilities at the close of the fiscal year by \$66 million in its government-wide financial statements, an increase of \$11.9 million from the prior year. Unrestricted net assets increased by \$3.1 million. The business-type activities recorded in the government-wide financial statements are identical to the proprietary funds except for some consolidation of inter-fund receivables and payables within the primary government. The changes in business-type activities were due to:
  - Expenses totaling \$12.4 million, a decrease of \$0.3 million or 2.4% from the prior year.
  - Program revenues remained relatively flat to prior year, ending at \$10.8 million.
  - General revenues including transfers totaling \$13.4 million, an increase of \$6.5 million or 94.2%.
  - Assets, including capital assets, increased by \$11.2 million or 15% from the prior year.

As of the close of the fiscal year, the County's **governmental fund** financial statements reported combined ending fund balances of \$191.6 million or 7.6% decrease from the prior year. The County early adopted GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions in fiscal year 2009, and the changes are reflected in the Fund financial statements and all supporting schedules including this Management Discussion and Analysis (MD&A).

The County's ending General Fund balance consisted of \$0.5 million in restricted fund balance, \$5.4 million in committed fund balance, \$51.4 million in assigned fund balance and a zero balance in unassigned fund balance. The General Fund balance at June 30, 2011 amounted to \$57.3 million, a decrease of \$11.5 million from the prior year. The County reported an unassigned fund balance of zero due to the required amounts needed to cover revenue shortfalls and contributions to other funds in the upcoming 2012 fiscal year.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This MD&A serves as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements - The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business. Accordingly, it presents the financial picture of the County from the economic resources measurement focus using the accrual basis of accounting.

The Statement of Net Assets presents information on all of the County's assets (including capital and infrastructure assets) and liabilities (including long-term debt), with the difference between assets and liabilities being net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. As such, revenues and expenses, including depreciation expenses, are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the County that are primarily supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include General Government, Public Safety, Public Works, Highways and Streets, Sanitation, Cultural and Recreation, and Public Welfare. The business-type activities of the County include three enterprises: Public Housing, Sewer, and Golf.

The government-wide financial statements include the governmental activities and business-type activities of the County (known as the primary government) and the Department of Water Supply (Department), which is a semi-autonomous entity, and is reported separately from the primary government as a discreetly presented component unit. Complete financial statements of the Department, which include its MD&A, may be obtained from the Department of Water at 4398 Pua Loke, Līhu'e, Kaua'i, Hawai'i, 96766.

Fund Financial Statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and GASB Statement No. 54 to define and classify the existing governmental fund types. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. The fund financial statements follow the government-wide financial statements in the Comprehensive Annual Financial Report (CAFR).

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. These funds are reported using the modified-accrual basis of accounting.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities which is required for Generally Accepted Accounting Principles (GAAP) reporting.

The County's governmental fund types are the General, Special Revenue, Debt Service and Capital Project Funds. Governmental fund financial statements include a Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances. The General Fund, Housing and Community Development Revolving Fund, Solid Waste Fund, Bond Fund, Federal Grants Fund, Grants CIP Fund, and General CIP Fund are considered major funds. Balances from the remaining 17 non-major governmental funds are combined into a single, aggregated presentation as Other Governmental Funds. Budgetary comparisons have been provided for the General Fund, major Special Revenue Funds (Housing and Community Development Revolving Fund and Solid Waste Disposal Fund), and Capital Project Funds (Bond Fund, Grants CIP Fund, and General CIP Fund) to demonstrate compliance with its annual appropriated budget as required for GAAP financial statements.

Proprietary Funds - Services for which the County charges fees to customers are reported as proprietary funds. Similar to the government-wide financial statements, the proprietary fund statements report both long-term and short-term financial information. The County's proprietary funds include the Public Housing Fund, Sewer Fund, and Golf Fund.

**Fiduciary Funds** - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements, and is part of the basic financial statements.

Other Required Supplementary Information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. The combining statements referred to earlier in connection with non-major governmental funds and budgetary comparison schedules for legally adopted annual budgets are presented immediately following the notes to the financial statements.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

By far the largest portion of the County's net assets is its investment in capital assets, net of related debt, at \$453.2 million or 84.4% of net assets. These net assets are categorized separately along with restricted net assets because they are not available for future spending.

The County's restricted net assets category represents \$18.4 million or 3.4% of net assets. These restrictions on net assets are imposed by enabling legislation or parties outside the government (such as creditors, grantors, contributors, laws or regulations of other governments).

The difference between total net assets and the two categories just discussed (invested in capital assets, net of related debt and restricted net assets) is the unrestricted net assets, totaling \$65.4 million or 12.2% of net assets.

The following is a summary of the Statement of Net Assets as of June 30, 2011 and 2010:

The decrease in County's real property taxes billed (revenues on full accrual basis) by \$4.9 million was primarily attributable to decreasing net taxable values, adjustments to its escrow account, refunds and overpayments triggered by the settlement of majority of tax appeal cases, omitted buildings and other clerical adjustments. Net taxable values in the current fiscal year decreased by \$2.2 billion due to decreases in assessed and estimated real property tax values. Tax relief programs decreased by \$3.3 million due to the reduction in real property tax values. Real property tax rates remained unchanged for all property classifications during the current fiscal year. There were approximately 1,153 new parcels recorded in the current fiscal year. The County continued to provide tax relief to its citizens by extending the "Circuit Breaker," the "Personal Home Use Exemption (PHU)" and the Long Term Affordable Lease credits that resulted in \$6.6 million in credits and ended with \$87.6 million in real property tax revenues recorded in the Statement of Activities. Other increases in revenue were due to \$1.1 million increase in Lower Income Housing Assistance Program (Section 8) and an increase of \$3.1 million in other federal grant resources. Major projects funded by federal grants during fiscal year 2011 were Emergency Watershed Protection Service (\$3.9 million), Public Safety Interoperable Communications grant (\$1.2 million), and the US Department of Housing and Urban Development, Home Investment Partnership Program (\$2.1 million).

A large increase in expenses came from the funding of other post-employment employee benefit (OPEB) cost, mainly for healthcare benefits of which qualified employees are promised specific benefits upon separation or retirement. The GASB Statement No. 45 Accounting Pronouncement has allowed the County to amortize the unfunded accrued OPEB liability (\$207 million) as of July 1, 2009 over a 30 year closed period. The County early adopted GASB Statement No. 45 in fiscal year 2008 and has continued to pay the annual required contribution (ARC) as calculated by the actuary contracted by the statewide multi-employer trust agent (EUTF). The actuary also provided the information needed for financial statement reporting and footnote disclosures. EUTF administers the healthcare benefit plan and develops the annual funding requirements based on the present value of benefits of the actuarial accrued liability using the entry age normal method for calculation. It is the County's intention to continue to prefund the entire ARC in future years.

The County paid 100% of its estimated annual OPEB cost, of which, amounted to \$28.4 million in fiscal years 2010 and 2011. The OPEB obligation for the County is estimated to be fully funded according to GASB Statement No. 45 reporting purposes.

#### ANALYSIS OF GOVERNMENTAL FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

Governmental funds - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. The County early-implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, which primarily establishes a hierarchy of fund balance classifications based on constraints placed on the use of these resources.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$191.6 million, a decrease of \$15.8 million in comparison with prior year. Fund balances are reserved to indicate that it is not available for new spending because it has already been committed to liquidate contracts and purchase orders (\$24.2 million), pay debt service (\$4.1 million), and certain other restricted and/or designated purposes (\$163.3 million).

The following table summarizes the changes in fund balances for the County's governmental funds as of June 30, 2011 in comparison to fiscal year 2010:

#### (Amounts in millions)

				Major	Non-	major	Totals

The Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets can be found on page 28. The major differences relate to certain financial resources and expenditures such as debt financing and capital outlays that are included in the changes in governmental fund balances but are not reported in the changes in net assets.

General Fund - The General Fund is the chief operating fund of the County. Total revenues in the General Fund amounted to \$109.8 million, or a decrease of \$6.9 million in comparison to the prior year. As stated earlier, the unassigned General Fund balance as of June 30, 2011 ended with a zero balance as compared to \$43.1 million in the prior year. The decrease in the unassigned fund balance may be attributable to the cumulative effect of the following key factors:

- A decrease of \$4.6 million or 5% in property tax revenue due to declining property tax values.
- A decrease of \$1.1 million or 26.8% in public service company taxes due to a decline in revenues as reported by public utility companies.
- A decrease of \$3.5 million or 83.3% in interest earned due to a decrease in available amounts invested, ultimately decreasing the interest earned on investments.

- An increase of \$15.1 million or 116.2% in operating transfers out to other funds.
- An increase of \$3.9 million or 4.4% in total expenditures.
- Approximately \$50.3 million of fund balance were budgeted to cover revenue shortfalls, contributions to other funds, and the establishment of a reserve fund (effective July 1, 2011) in the upcoming 2012 fiscal year. Approximately \$23.4 million will be reclassified as restricted fund balance, effective July 1, 2011.

Major Governmental Funds - Major governmental fund revenues amounted to \$21.6 million, or a \$4.9 million increase in comparison to the prior year. The increases in revenues are primarily attributable to \$3.1 million increase in federal grant funding and \$1.1 million in interest earned in the Bond Fund. Total expenditures decreased by \$2.7 million from \$44.2 million to \$41.5 million in the current fiscal year. Significant variances included the following: Bond Fund decreased by \$7.6 million over prior year due to \$4.7 million in construction costs incurred for the Kekaha Landfill Lateral Expansion and the purchase of land for future affordable housing projects of \$2.6 million in 2010. General CIP Fund increased \$2.5 million from the prior year primarily due to the decommission of the upper and lower Kapahi reservoir totaling \$1.8 million, Keapana bridge replacement cost of \$0.4 million, and Kīlauea/Wailapa debris clearing costs of \$0.4 million. Federal Grants Fund increased \$3.3 million from the prior year primarily due to expenditures from the Public Safety Interoperable Communications grant of \$1.2 million and the US Department of Housing and Urban Development, Home Investment Partnership Program of \$2.1 million.

All Other Governmental Funds - Revenues remained relatively flat as compared to the prior year. Expenditures increased by \$6.1 million from \$31.8 million to \$37.9 million in the current fiscal year. This increase from the prior year is primarily due to the acquisition of land \$1.9 million, island-wide resurfacing projects totaling \$2.7 million, and an increase in debt service interest cost of \$1.9 million offset by a \$0.3 million decrease in state grant expenditures.

#### **BUDGETARY HIGHLIGHTS**

The General Fund exceeded its estimate of budgeted revenues by \$6.6 million. The General Fund lapsed \$12.2 million of budgeted appropriations at year end. The General Fund contribution to other funds amounted to \$28.1 million in the current year, an increase of \$15.1 million as compared to the prior year. Fund budgetary expenditures differ from the fund expenditures in that the encumbrances at year end are accounted for as expenditures for budgetary purposes. The original budget amount in the Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) include reappropriated and committed prior-period encumbrances.

The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) provides the reader the assurance of compliance to the budget ordinance. Only budgeted funds have this type of financial statements.

Estimated budgeted General Fund revenues for the fiscal year ended June 30, 2011 was \$103.2 million as compared to \$110 million in the prior year, a decrease of \$6.8 million. Positive revenue budget variances of \$6.6 million occurred primarily because of the volatility of predicting certain types of revenues and the conservative approach in estimated revenues. The major positive variances occurred in revenue from real property taxes of \$5.4 million and intergovernmental revenues of \$2.9 million. Public service taxes decreased approximately \$0.9 million, due to a decrease in revenues as reported by public utility companies. Also, interest earned decreased by \$1 million primarily due to a decrease in available amounts invested, ultimately decreasing the interest earned on investments.

Final amended budgeted expenditures in the General Fund for fiscal year ended June 30, 2011 remained relatively flat as compared to the prior year, ending at \$111.3 million or a decrease of \$1.1 million. The General government function budget remained relatively flat, increasing by 1.9%, public safety function increased by 3.6%, public works function decreased by 12%, culture and recreation function decreased by 14%, and public welfare function decreased by 6.9% as compared to prior year budgets.

The County continues to maintain a conservative budgeting approach, mainly due to an anticipation of certain expenditures within the year. Historically, budgeted areas such as salaries and wages, employee benefits, travel and other, have been budgeted more than actual expenditures, resulting in favorable variances. The following represent major variances in the final amended budget to actual expenditures in the General Fund:

- Council Services had a favorable variance of approximately \$0.8 million, of which, are
  primarily attributable to \$0.2 million in unexpended salaries, fringe and benefits due to
  vacancies, and \$0.6 million in unexpended travel, building lease, special projects, and
  other miscellaneous items.
- Office of the County Attorney had a favorable variance of approximately \$1.4 million, of which, are primarily attributable to \$1.2 million in unexpended consulting/litigation budgeted costs, \$0.1 in salaries, fringe and benefits due to vacancies, travel, and \$0.1 million of other miscellaneous expenses.
- Accounting Division had a favorable variance of approximately \$0.4 million primarily due to unexpended salary adjustments and vacation credit payout, of which, were anticipated in the current year.
- There was approximately \$0.3 million in claims paid out of the self insurance account, whereby, creating a favorable variance of \$3.7 million. The purpose of this account is to prepare for unanticipated and unpredictable future claims.
- Planning department had a favorable variance of \$0.4 million, of which, are primarily attributable to \$0.3 million in unexpended salaries, fringe and benefits due to vacancies.
- Police department had a favorable variance of \$1.2 million, of which, are primarily attributable to a high number of vacancies and unfilled positions. Approximately \$0.6 million were due to unexpended salaries, fringe and benefits, and \$0.6 million in unexpended training, travel, and other miscellaneous items.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets - The County's capital assets for its governmental and business-type activities as of June 30, 2011 amounted to \$585 million, an increase of \$12.8 million. The net capital assets include land, buildings and improvements, machinery and equipment, infrastructure (roadways, bridges, sewer, and golf), and construction-in-progress, less accumulated depreciation. Most capital projects pass through construction-in-progress before being capitalized because of the multi-year completion process. The following is a summary of the capital assets as of June 30, 2011 in comparison to fiscal year 2010:

#### Government Activities Summary of Capital Assets (Amounts in millions)

	(	Governmen	tal A	ctivities	Bu	siness-typ	e A	ctivities		ary nt

Total Capital Assets, net	\$	508.85	\$	504.12	\$	76,16	\$	68.10	\$	585.01	\$	572.22

Additional information on the County's capital assets can be found in Note 6 in the notes to the basic financial statements.

Long-term debt - No new General Obligation Bonds (GO Bonds) were issued during the current fiscal year; however, on July 7, 2011, the County issued approximately \$21 million in GO Bonds (Series 2011A Bonds) to be used primarily for the purpose of refunding the portion outstanding on the Series 2001A Bonds.

At the end of the current fiscal year, the County's, had total bonds and loans outstanding of \$139.7 million (\$121.1 million related to governmental activities and \$18.6 million related to business-type activities). Of this amount, \$122.2 million is comprised of debt backed by the full faith and credit of the government (general obligations), \$0.2 million is comprised of revenue bonds backed by income derived from acquired or constructed assets, and \$17.3 million represents State Revolving Fund (SRF) loans used to finance construction of wastewater projects.

At the end of the fiscal year, Standard and Poor's Ratings Services, Moody's Investors Service and Fitch, Inc. assigned the County's GO Bonds ratings of AA, Aa2, and AA, respectively.

State statutes limit the amount of general obligation debt the County may issue up to 15 percent of its net assessed valuation. The current debt limitation for the County is \$2.5 billion. As of June 30, 2011, the County's current outstanding debt applicable to the legal debt margin totaled \$117.8 million or 4.7% of the County's debt limitation.

Additional information on the County's long-term debt can be found in Note 10 in the notes to the basic financial statements.

#### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the County's finances. Questions concerning any information provided in this report or requests for additional information should be addressed to the Director of Finance, 4444 Rice Street, Suite 280, Līhu'e, Kaua'i, Hawai'i 96766.

**FUND FINANCIAL STATEMENTS** 

### **GOVERNMENTAL FUND FINANCIAL STATEMENTS**

### MAJOR FUNDS

### **General Fund**

Accounts for all financial resources traditionally associated with the government which are not required legally, or by sound financial management, to be accounted for in another fund.

### Special Revenue Funds

### Housing and Community Development Revolving Fund

Monies collected from the Home Disaster grant loans, Housing Preservation grant loans and Special Purpose Grant loans fund the Housing and Community Development Revolving Fund. This fund supports administrative costs for the Development staff and also supports the "Homebuyer Loan Program" for eligible homebuyers and future project development costs.

### Solid Waste Disposal Fund

Accounts for the costs of operating the County's solid waste disposal system. Financing is provided by charges to commercial users for solid waste disposal services and General Fund contributions for other users.

### **Federal Grants Fund**

Accounts for federal grant revenues and related expenditures.

### **Capital Project Funds**

### **Grants Capital Improvement Fund**

Accounts for revenues and capital improvements financed by federal and state grants.

### **General Capital Improvement Fund**

Accounts for the costs of capital projects financed by the General Fund.

### Bond Fund

Accounts for proceeds from and the costs of constructing County capital improvements financed by general obligation bond proceeds.

# COUNTY OF KAUA'I, HAWAI'I RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET ASSETS JUNE 30, 2011

Total Fund Balances -	Governmental	Funds
-----------------------	--------------	-------

\$ 191,595,812

Amounts reported for governmental activities in the Statement of Net Assets are different due to:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. These assets consist of:

Land	\$ 175,012,224
Construction work in progress	42,345,720
Buildings and improvements	95,422,828
Equipment	60,360,247
Infrastructure assets	638,435,827
Accumulated depreciation	(502,718,838)

Total Capital Assets, net

508,858,008

Some of the County's revenues will be collected after the year end but are not available soon enough to pay for the current period's expenditures and, therefore, are deferred in the funds.

2,956,207

Bond issuance costs are expensed in the governmental funds but are required to be amortized over the life of the bond issuance.

799,079

Accrued interest payable on outstanding bonds are expensed on the government-wide statement of activities.

(2,550,164)

Some liabilities are not due and payable in the current period and, therefore, are not reported in the funds. These liabilities consist of:

Bonds and loans payable	(121,877,681)
Capital leases	(4,783,617)
Compensated absences	(11,873,192)
Claims and judgments	(7,608,690)
Landfill closure/post-closure costs	(18,575,595)

Total Long-term Liabilities

(164,718,775)

Net Assets of Governmental Activities

\$ 536,940,167

### COUNTY OF KAUA'I, HAWAI'I GOVERNMENTAL FUNDS

## RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2011

\$ (15 754 707)

Net Change in Fund Balance - Total Governmental Funds		\$ (	15,754,707)
Amounts reported for governmental activities in the Statement of Activities are different due to:			
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period:			
Capital outlay Depreciation expense	\$ 18,108,631 (13,942,535)		
Net Capital Outlay			4,166,096
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, CIP closures/transfers, contributed/donated capital assets) is to increase net assets.			570,517
Capital leases are recorded as current financial sources in the Statement of Revenues, Expenditures, and Changes in Fund Balances. However, in the Statement of Net Assets, capital leases are recorded as long-term debt and capital assets.			(3,698,550)
Real property taxes in the Statement of Activities includes all billed amounts which differ from the current financial resource measurement of the governmental funds. This is the net difference of both measurement focuses.			709,576
Bond proceeds are reported as other financing sources in governmental funds and contribute to the increase in fund balance. Bond and capital lease principal payments are reported as an expenditure in governmental funds and reduce fund balance. In the government-wide statements, however, issuing debt increases long-term liabilities while debt repayment reduces long-term liabilities and affects the Statement of Activities.			
Bond principal retirement Capital lease principal payments	3,855,000 1,968,980		
Total Long-term Debt Repayment			5,823,980
Some items reported in the Statement of Activities do not involve current financial resources and, therefore, are not reported as expenditures in the governmental funds. These activities are:			
Amortization of premium from bond issuance Amortization of deferred refunding costs Amortization of deferred bond issuance costs Increase in compensated absences Decrease in claims and judgments Decrease in landfill closure/post-closure care costs Increase in accrued interest payable	53,088 (10,012) (42,261) (336,003) 678,015 3,006,597 (293,604)		
Net Increase in Expenditures			3,055,820
Change in Net Assets - Governmental Activities		\$	(5,127,268)

### PROPRIETARY FUND FINANCIAL STATEMENTS

### **MAJOR FUNDS**

### Public Housing Fund

Accounts for the acquisition, development, sale, and rental of low-income housing. Financing is provided by low-income housing sales and operating contributions.

### Sewer Fund

Accounts for the costs of operating the County's sewer system. Financing is provided by charges to users for services.

### **Golf Fund**

Accounts for the costs of operating the County's golf course. Financing is provided primarily by golf fees, rents, and concessions.

NOTES TO THE FINANCIAL STATEMENTS

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### The Financial Reporting Entity

The County of Kaua'i (County) is a municipal corporation governed by an elected Mayor and a seven-member County Council. The County operates under a County Charter, which was originally adopted in 1969 and last amended in 2010.

The accompanying financial statements present the operations of the County, the primary government, as well as its discretely presented component unit, the Department of Water. The County's operations are organized into the following general functions: general government, public safety, public works, highways and streets, sanitation, culture and recreation, public welfare, housing, sewer, and other enterprises. For financial reporting purposes, the County includes all funds, agencies, boards, commissions, and authorities that are fiscally dependent upon the County and for which the County is financially accountable.

State of Hawai'i (State) agencies assume responsibility for several major functions often performed by local governments; including education, welfare, health, and judiciary functions. State agencies are not fiscally dependent on the County and, therefore, are not included in these financial statements. There are no separate city, county or township governments, nor any school districts, special districts, authorities, nor public corporations with overlapping authority presented in the accompanying financial statements.

The financial statements of the County have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its Codification of existing Governmental Accounting and Financial Reporting Standards, which, along with subsequent GASB pronouncements (Statement and Interpretations), constitutes GAAP for governmental units. The more significant of these accounting policies are described below.

The County follows GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis for State and Local Governments, GASB Statement No. 37, Basic Financial Statements - and Management's Discussion and Analysis for State and Local Governments: Omnibus, GASB Statement No. 38, Certain Financial Statement Note Disclosures, and GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post Retirement Benefits Other Than Pensions. The County has elected to early-implement GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. Mandatory adoption for GASB No. 54 is for the fiscal year ended June 30, 2011. The statements contained herein reflect the changes in fund balance reporting and presentation.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Discretely Presented Component Unit

The component unit column in the financial statements includes the financial data of the County's discretely presented component unit, the Department of Water (Department), which is a semi-autonomous proprietary agency of the County. It is reported in a separate column to emphasize that it is legally separate from the County.

A majority of the members of the Department's governing body are appointed by the Mayor and confirmed by the County Council. The Department is granted corporate powers by the County Charter. The County Council does not have the authority to modify or approve the Department's budgets. Revenue bonds and loans payable of the Department are general obligations of the County. As the County would be obligated to repay these bonds in the event of default by the Department, the County is financially accountable for the debts of the Department. The Department is audited separately. Complete financial statements of the Department may be obtained from:

Department of Water County of Kaua'i 4398 Pua Loke Street Līhu'e, Kaua'i, Hawai'i 96766

### Government-wide Statements

The basic financial statements include both government-wide and fund financial statements. The reporting model under GASB Statement No. 34 focuses on the County as a whole in the government-wide financial statements and major individual funds in the fund financial statements. Both types of statements categorize primary activities as governmental or business-type. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the County and the Department. For the most part, the effect of interfund activity has been removed from these statements. Internal activities are treated as reimbursements (reductions and increases in expenses) from various functional categories and accordingly adjusted in the Statement of Activities. Charges to governmental functions for centralized services are made to recover administrative costs incurred by the general government function as outlined in the operating budget ordinance and are also treated as reimbursements. Certain capital asset payments from governmental activities are treated as capital contributions in

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

the business-type activities and, therefore, are capitalized. Interfund contributions are eliminated among governmental activities, but are recorded as transfers in the fund financial statements if between governmental and business-type activities. Interfund payables and reported receivables have been eliminated among governmental activities, but are recorded as internal balances between governmental and business-type activities. In the *Statement of Net Assets*, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column and (b) are on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The Statement of Activities reflects the direct expenses of each functional category or identifiable activity, which are supported by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include (a) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Taxes and other items not properly included in program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements.

### **Fund Financial Statements**

The financial transactions of the County are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that is comprised of assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The County reports the following major governmental funds:

General Fund - Accounts for all financial resources traditionally associated with the government which are not required legally, or by sound financial management, to be accounted for in another fund.

Housing and Community Development Revolving Fund - Monies collected from the Home Disaster grant loans, Housing Preservation grant loans, and Special Purpose grant loans fund the Housing and Community Development Revolving Fund. This fund supports administrative costs for the Development staff and also supports the "Homebuyer Loan Program" for eligible homebuyers and future project development costs.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Solid Waste Disposal Fund - Accounts for the costs of operating the County's solid waste disposal system. Financing is provided by charges to commercial users for solid waste disposal services and General Fund contributions for other users.

Federal Grants Fund - Accounts for federal grant revenues and related expenditures.

Grants Capital Improvement Fund - Accounts for revenues and capital improvements financed by federal and state grants.

General Capital Improvement Fund - Accounts for the costs of capital projects financed by the General Fund.

Bond Fund - Accounts for proceeds from and the costs of constructing County capital improvements financed by general obligation bond proceeds.

The County reports the following major proprietary funds:

Public Housing Fund - Accounts for the acquisition, development, sale, and rental of low-income housing. Financing is provided by low-income housing sales and operating contributions.

Sewer Fund - Accounts for the costs of operating the County's sewer system. Financing is provided by service charges to users.

Golf Fund - Accounts for the costs of operating the County's golf course. Financing is provided primarily by golf fees, rents, and concessions.

The County's fiduciary funds are limited to agency funds. Agency funds are custodial in nature and are used to receive and disburse funds for an entity/individual that is not part of the County. Agency funds function as a clearing account and do not measure results of operations. The County has the following agency funds:

- Trust and Agency Fund
- Treasury Trust Fund
- Real Property Trust Fund

The County has adopted GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This statement establishes criteria for classifying governmental fund balances into specifically defined classifications. Classifications are hierarchical and are based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the funds may be spent. Application of the statement requires the County to classify and report amounts in the

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

appropriate fund balance classifications. The County's accounting and finance policies are used to interpret the nature and/or requirements of the funds and their corresponding assignment of restricted, committed, assigned, or unassigned. Effective July 1, 2011, the County adopted and implemented its Reserve Policy with respect to its use of unrestricted fund balance amounts.

The County reports the following classifications:

Nonspendable Fund Balance - Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form - such as inventory or prepaid insurance or (b) legally or contractually required to be maintained intact - such as a trust that must be retained in perpetuity.

Restricted Fund Balance - Restricted fund balances are restricted when constraints placed on the use of resources are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

Restrictions are placed on fund balances when legally enforceable legislation establishes the County's right to assess, levy, or charge fees to be used for a specific purpose - such as the County's gas sales tax revenue, which must be used to repair and construct roads. Legal enforceability means that the County can be compelled by an external party (e.g., citizens, public interest groups, the judiciary) to use resources created by enabling legislation only for the purposes specified by the legislation.

Committed Fund Balance - Committed fund balances are amounts that can only be used for specific purposes as a result of constraints imposed by the Council of Kaua'i. Committed amounts cannot be used for any other purpose unless Council removes those constraints by taking the same type of action (e.g., legislation, resolution, ordinance). Committed fund balances include non-liquidated encumbrances at year end that are carried forward to the next fiscal year. Amounts in the committed fund balance classification may be used for other purposes with appropriate due process by Council. Committed fund balances differ from restricted balances because the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance - Assigned fund balances are amounts that are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (a) the Director of Finance or (b) an appointed body (e.g., a budget or finance committee) or official to which the Council has delegated the authority to assign, modify, or rescind amounts to be used for specific purposes.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assigned fund balance includes (a) all remaining amounts that are reported in governmental funds (other than the General Fund) that are not classified as nonspendable, restricted, or committed, and (b) amounts in the General Fund that are intended to be used for a specific purpose. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service, or permanent fund, are assigned for purposes in accordance with the nature of their fund type. Assignment within the General Fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the County itself.

Appropriated Assigned Fund Balance is an appropriation of existing fund balance to eliminate a projected budgetary deficit in the subsequent year's budget in an amount no greater than the projected excess of expected expenditures over expected revenues.

Unassigned Fund Balance - Unassigned fund balance is the residual classification for the General Fund. This classification represents General Fund balance that has not been assigned to other funds, and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements and the proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable means the amounts are determinable. Revenues are considered to be available when they are collectable within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recognized when a liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, claims and judgments, and landfill post-closure costs are recognized only when payment is due.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Significant revenues that are susceptible to accrual are as follows:

- Property taxes collected within sixty days after year end
- Rents and concessions
- Federal and State financial assistance (to the extent that related expenditures that are eligible for reimbursements have been incurred)
- Interest
- Revenues collected by the State on behalf of the County, such as fuel taxes and transient accommodation taxes

All other revenue items are considered to be measurable and available only when cash is received.

Intergovernmental revenues are susceptible to accrual based on the compliance, legal, and contractual requirements of the individual programs. There are essentially two types of these revenues. For one type of revenues, monies must be expended for a specific purpose or project and revenues are recognized to the extent of such expenditures. Revenues of this type are deferred for monies received in advance of expenditures and accrued for expenditures in advance of monies received. For the other type of revenues, monies are virtually unrestricted as to the purpose of the expenditure. These resources are recognized as revenues when received, or earlier if susceptible to the accrual criteria.

Proprietary funds are reported using the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized as incurred. All proprietary funds follow applicable GASB guidance or FASB Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins issued on or before November 30, 1989, that do not conflict with, or contradict, GASB pronouncements.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds are charges to customers for services. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The County's fiduciary funds are limited to agency funds which uses the economic resource measurement focus, however use the accrual basis of accounting to recognize receivables and payables. Because, by definition, these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Cash and Cash Equivalents

The County's cash and cash equivalents include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash on deposit with financial institutions is collateralized in accordance with State statutes.

### Investments

The County generally invests in certificates of deposit, repurchase agreements, money market funds, and government agency securities with federally insured financial institutions and mutual funds. Investments are reported at fair value. The County's investments are consistent with the investment guidelines contained in the Hawai'i Revised Statutes (HRS).

HRS authorizes the County to invest, with certain restrictions, in obligations of the State of Hawai'i, the United States or agencies of the United States, time certificates of deposit and repurchase agreements with federally insured banks and savings and loan associations authorized to do business in the State of Hawai'i.

### Real Property Taxes

Real property taxes are assessed and billed annually. The County's real property taxes, which are levied on July 1 and billed on July 20 of each year, are based on assessed valuations as of the previous January 1. Real property taxes are due in two equal installments on August 20 and February 20. Accordingly, all real property taxes receivable as of June 30 are delinquent and are reported as deferred revenue for amounts not collected within 60 days after the fiscal year end in the fund financial statements. A lien for real property taxes attaches as of July 1 of each year.

### Receivables

Loans receivable consist of housing rehabilitation loans made with federal funds by the Housing and Community Development Revolving Fund (HCDRF), Federal Grants Fund, and special revenue funds. The loans are partially offset by a deferred revenue account. Revenue is recognized and included in intergovernmental revenues when the loans made with federal funds are collected.

Receivables of the Department are recognized when revenue is earned, including charges for services rendered but not billed, net of allowance for doubtful accounts approximating \$338,000 of billed receivables.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Receivables for federal and state financial assistance are recognized as revenue, in all fund types, as related expenditures are made.

### Real Property Held for Sale

Inventory of real property held for sale consists of dwelling units available for sale and is stated at the lower of cost or net realizable value.

### Materials and Supplies

Materials and supplies are stated at the lower of average cost (which approximates the firstin, first-out method) or market.

### Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The County defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life of more than one year. The Department defines capital assets as assets with an initial, individual cost of more than \$1,000. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the asset constructed.

Depreciation on all assets is provided for on the straight-line basis over the following estimated useful lives:

### Primary Government

Motor vehicles	3 to 15 years
Furniture and equipment	5 to 20 years
Building and improvements	20 to 50 years
Transmission and distribution equipment	25 to 40 years
Infrastructure	30 to 60 years

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Component Unit

Motor vehicles	7 to 10 years
Furniture and equipment	5 to 20 years
Building and improvements	40 to 50 years
Transmission and distribution equipment	18 to 63 years

#### Restricted Assets

The County sets aside certain resources for the repayment of enterprise fund revenue bonds. These resources are classified as restricted assets on the *Statement of Net Assets* and *Balance Sheet* because their use is limited by bond covenants. The Department sets aside certain resources to fund future capital improvements of the water supply system.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted funds first, then unrestricted resources as they are needed.

#### Interfund Transactions

Interfund receivables and payables are reported in each fund. Transfers of financial resources between agencies and activities within the same fund, which are recorded as revenues by the transferee and expenditures by the transferor, have been eliminated. Transactions that represent reimbursements to a fund for expenditures or expenses initially made from it that are properly applicable to another fund are recorded as expenditures or expenses in the reimbursing fund and as reductions of expenditures or expenses in the fund that is reimbursed.

Transfers include operating subsidies and authorized transfers from funds receiving revenues to funds that will expend those resources.

Interfund receivables and payables represent borrowing arrangements between governmental fund types that are current interfund loans and expected to be paid off within one year. Advances to and from other funds represent borrowing arrangements between nongovernmental fund types that are noncurrent. All other outstanding current balances between funds are reported as "Due To/From Other Funds."

### Net Assets

Net assets are comprised of the various net earnings (losses) from operating and nonoperating revenues, expenses, operating transfers, and contributed capital. Net assets are classified in the following three components: invested in capital assets, net of related debt; restricted; and unrestricted. Invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation and outstanding debt attributable to the acquisition, construction or improvement of those assets. Debt related to unspent proceeds or other restricted cash and investments at year end is not included in the calculation of the amount invested in capital assets, net of related debt. Restricted net assets consists of net assets for which constraints are placed thereon by external parties, such as lenders,

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

grantors, contributors, laws, regulations, and enabling legislation, including self-imposed legal mandates. Restricted net assets are based on the same criteria used to report restricted governmental fund balances. Unrestricted net assets consist of all other net assets not included in the above categories.

### Compensated Absences

Vacation leave and other compensated absences are accrued as a liability as the benefits are earned if the leave is attributable to past service and it is probable that the employees will be compensated for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

Vacation pay is recognized as an expenditure in the governmental fund types when the amounts, if any, are due and payable. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured as a result of employee retirement or termination. Vacation credit payout is recorded in the respective funds where the employees' salary is incurred.

#### Sick Leave

Permanent full-time County employees accrue sick leave. Sick leave is calculated based upon current compensation levels. Sick pay can be taken only in the event of illness and is not convertible to pay upon termination of employment. Sick pay is recognized when leave is taken because it does not vest when earned. As a result, no liability for sick pay is recognized in the accompanying financial statements. Accumulated sick leave (including the Department) was approximately \$31.7 million at June 30, 2011.

### Capital Leases

Leases that substantially transfer all of the risks and benefits of ownership are accounted for as capital leases. Capital leases are included in capital assets and, where appropriate, are amortized over the shorter of their economic useful lives or lease terms. The related capital lease obligations are included in long-term liabilities in the government-wide financial statements.

### Long-term Obligations

In the government-wide financial statements, Proprietary Fund financial statements, and Component Unit financial statements, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, Proprietary Fund, or Component Units statement of net assets. Initial-issue bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective-interest method. The difference between the reacquisition price of refunding bonds and the net carrying amount of refunded debt (deferred amount on refunding) is amortized over the shorter of the life of the refunding debt or the remaining life of the refunded debt. Bonds payable are reported net of the unamortized portion of applicable premium, discount, or deferred amount on refunding. Bond issuance costs,

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

including underwriters' discount, are reported as deferred bond issuance costs. Amortization of bond premiums or discounts, issuance costs, and deferred amounts on refunding is included in interest expense.

In the fund financial statements, Governmental Funds recognize bond premiums, discounts, and issuance costs during the period issued. The face amount of debt issued is reported as other financing sources. Premiums received are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### Facility Reserve Charges

The Department assesses a fee to commercial and residential developers based upon the number and size of water meters installed at the respective projects which, together with interest earned thereon, provides for the funding of system capital improvements which are included as restricted for utility plant construction in the *Statement of Net Assets*. Expenditures of these monies are restricted by the Department ordinances to water supply system capital improvements.

#### Use of Estimates

The preparation of the basic financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues, expenses/expenditures, and other financing sources and uses during the reported period. Actual results could differ from these estimates.

#### NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING

Annual appropriated budgets are adopted for the following funds:

General

Housing and Community Development Revolving

Solid Waste Disposal

Highway

Liquor

Beautification

Criminal Asset Forfeiture

Public Access

Parks and Playground Capital Improvement

Sewer Trust

Development Capital Improvement Bikeway Capital Improvement

Highway Capital Improvement Open Space Capital Improvement

Public Housing Enterprise

Sewer Enterprise

Golf Enterprise

Budgets are adopted on a basis consistent with U.S. GAAP except that expenditures include encumbrances as budgetary expenditures in the year the commitments are made and exclude claims and judgments and landfill closure and postclosure liabilities. Annual appropriations, except enterprise funds, lapse at fiscal year end. Project ordinances are adopted for capital projects funds.

# NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING (Continued)

The County uses the following procedures in establishing the budgetary data reflected in the financial statements:

- On or before March 15, the Mayor submits a proposed operating and capital projects budget for the year commencing the following July 1 to the County Council. The operating and capital project budgets include proposed expenditures and the means to finance them.
- Public hearings are conducted to obtain citizen comments. The Council may amend the Mayor's budget. On or before June 7 of the fiscal year currently ending, the Council legally enacts the budget through the passage of a budget ordinance.
- Amendments to the enacted budget ordinances may be proposed by the Mayor and enacted by the Council (under the same procedures prescribed for the enactment of the annual budget ordinance), provided that no amendment increases the aggregate of authorized expenditures to an amount greater than the estimate of available financial resources for the fiscal year.
- The Mayor is authorized to transfer appropriations between programs within a department without Council approval; however, any transfer that alters the total expenditures of any department must be approved by the Council.

Formal budgetary integration is employed in the annual operating budgets as a management control device during the year for the General Fund and Special Revenue Funds (except for Section 8, Plans and Permits, and State Grants). Accordingly, budget figures are included in the respective Statement/Schedules of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual. The Capital Projects Funds budgets were adopted on a project basis and they are included in this presentation.

Formal budgetary integration is also employed for the Public Housing, Sewer, and Golf Funds. Accordingly, budget figures are included as additional information in the respective Schedules of Revenues, Expenditures, and Changes in Fund Equity - Budget and Actual for these funds.

Formal budgetary integration is not employed for the Debt Service Fund, Bond Fund, Agency Funds, certain Special Revenue Funds, and Capital Projects Funds, as noted above. Budgetary control for these funds is achieved through bond indentures, contractual or grant provisions, project oversight, and legislation.

Flexible budgeting is employed for the Department. Expenditures may not exceed appropriations at the departmental level. Individual fund budgetary comparisons (by object code and by year of appropriation) are reported in separate budgetary reports, which can be obtained from the County's Director of Finance.

## NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING (Continued)

The final budget figures presented include all amendments during the year. Amendments to the budget ordinance for the fiscal year were made in compliance with the procedures described above. Several budget amendments were made during the year.

### **NOTE 3 - BUDGET TO GAAP RECONCILIATION**

Encumbrance accounting is employed as an extension of formal budgetary integration in the General Fund and budgeted Special Revenue Funds. Capital Projects Funds also employ encumbrance accounting to reserve for construction contracts. Actual expenditures on a budgetary basis include current year reserves for encumbrances and exclude payments on prior year encumbrances. Encumbrances outstanding at year end do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year. Budgeted deficiencies are funded by the estimated unreserved-undesignated fund balances as of June 30, 2011.

The County's budget is prepared differently from GAAP. Therefore, the Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - General Fund, Housing and Community Development Revolving Fund, and Solid Waste Disposal Fund are presented on the budgetary basis, using budgetary expenditure categories.

The following is a reconciliation of the differences between the budgetary basis and GAAP basis for the excess of revenues and other sources over expenditures and other uses for the aforementioned financial statements:

	General Fund	Housing and Community Development Revolving Fund	Solid Waste Disposal Fund
GAAP excess (deficiency) of revenues and other financing sources over (under) expenditures and other financing uses	\$ (11,535,70	9) \$ (95,862)	\$ 1,946,255
Encumbrances and unexpended allotments, current year	(5,411,603	(110,517)	(2,532,921)
Non-GAAP budgetary basis excess (deficiency) of revenues and other financing sources over (under) expenditures and other financing uses	\$ (16,947,312	2) \$ _(206,379)	\$ _(586,666)

#### NOTE 4 - DEPOSITS AND INVESTMENTS

The County maintains a cash and investment pool that is used by all funds, including the Department. Each of the fund's and component unit's portion of this pool are displayed in the accompanying financial statements.

### Deposits

The deposits of the County consist of cash and cash equivalents, money market accounts, and non-negotiable certificates of deposit. At year end, the carrying values (book balances) of these deposits with banks and savings institutions approximated \$73,520,000 and the balances carried by the bank were approximately \$78,787,000. All of these deposits are covered by federal depository insurance or collateralized by securities held by financial institutions in the County's name.

#### Investments

As of June 30, 2011, the County and the Department held approximately \$126,404,000 and \$51,817,000, respectively, or 75% and 85% of their investments in Federal Government Sponsored Entities and Government Securities. The fair value of the investments approximate cost.

#### Interest Rate Risk

County

Total

As a means of limiting exposure to fair value losses arising from rising interest rates, State law limits the County from holding investments with maturities in excess of five years.

As of June 30, 2011, the County and the Department had the following investments:

			Maturity	(in y	ears)
	Fair Value	_1	ess than 1	_	1-5
Government Sponsored Entities	\$ 115,929,374	\$	17,014,864	\$	98,914,510
Government Securities	10,474,360				10,474,360
Money Market Funds	5,378,944		-		5,378,944
Repurchase Agreements	5,041,257		5,041,257		
	136,823,935		22,056,121		114,767,814
Certificates of Deposit	32,079,003		20,392,713		11,686,290

168,902,938

S

42,448,834

126,454,104

## NOTE 4 - DEPOSITS AND INVESTMENTS (Continued)

## Department

Department				Maturity	(in y	ears)
	_	Fair Value	_L	ess than 1	_	1-5
Government Sponsored Entities	\$	42,861,000	\$	5,498,000	\$	37,363,000
Government Securities		8,956,000		-		8,956,000
Money Market Funds		6,256,000		1,000,000		5,256,000
Other Fixed Income		480,000		480,000		-
U.S. Corporates		105,000				105,000
		58,658,000		6,978,000		51,680,000
Certificates of Deposit		2,559,000		2,559,000		
Total	s	61,217,000	\$	9,537,000	\$	51,680,000

### Credit Risk

State law limits investments to the top rating issued by nationally recognized statistical rating organizations (NRSRO's). The County has no investment policy that would further limit its investment choices. As of June 30, 2011, the County's investments had a AA or greater rating.

#### Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the County's investments are held in its name.

#### Concentration of Credit Risk

The County places no limit on the amount which may be invested in any one issuer. As of June 30, 2011, the County and the Department held more than 5% of their investments in the following:

	_	County	Department			
FHLB - Federal Home Loan Bank	\$	38,813,603	22.9%	\$14,204,462	23.2%	
FHLMC - Freddie Mac		26,230,258	15.5%	3,002,225	4.9%	
FNMA - Fannie Mae		32,027,506	18.9%	16,176,497	26.4%	
FFCB - Federal Farm Credit Bank		18,858,009	11.2%	9,478,425	15.5%	
U.S. Treasury		10,474,360	6.2%	8,956,375	14.6%	
Blackrock Liquidity Funds		5,378,944	3.2%	6,255,837	10.2%	
Total	\$	131,782,680	77.8%	\$58,073,821	94.8%	

### **NOTE 5 - RECEIVABLES**

Receivables as of June 30, 2011, for the County's individual major funds and non-major funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

Governmental Activities:

	G	eneral Fund		Community Development Revolving Fund	300	olid Waste Disposal		Federal Grants Fund		rants Capital reprovement Fund		and Fund	G	Other overnmental Funds		Total

### **NOTE 9 - CAPITAL LEASES**

The County leases machinery and equipment under non-cancelable leases expiring at various dates through February 2020 which meet the criteria for capitalization. These capital leases are financed from General Fund resources.

The estimated value of the leased machinery and equipment at the inception of the leases net of accumulated depreciation, amounted to \$7,344,619. The related present value of the remaining obligations under the capital leases which amounted to \$4,783,617 at June 30, 2011 and are included in the capital assets and long-term liabilities, accordingly.

The future minimum obligations under capital leases at June 30, 2011, are as follows:

Fiscal Year Ending June 30,		Principal	_1	nterest	Total			
2012	\$	1,077,025	\$	210,285	\$	1,287,310		
2013		1,119,508		167,802		1,287,310		
2014		738,498		123,554		862,052		
2015		554,339		89,565		643,904		
2016		436,531		63,728		500,259		
2017-2020		857,716		100,986		958,702		
Totals	\$	4.783,617	\$	755,920	\$	5,539,537		

On February 19, 2004, the Department entered into a Water Treatment and Delivery Agreement (Agreement) with an unrelated third party developer. The Agreement requires the developer to build, operate, and maintain a surface water treatment plant (SWTP) with a capacity of 3.0 million gallons per day (MGD). The Department is required to purchase, at a minimum, 2.0 MGD, and to provide the developer a credit towards its facility reserve charge. The term of the Agreement is 15 years and the Agreement provides the Department with the option of accepting the dedication of the SWTP at no cost after the reimbursement date, as defined. The Department commenced water purchases on January 1, 2006.

The capital lease obligation is amortized at an implicit rate of approximately 6%. The annual requirements to amortize capital lease obligation as of June 30, 2011, are approximately as follows:

# NOTE 9 - CAPITAL LEASES (Continued)

Fiscal Year Ending June 30,	<u> </u>	Principal	_1	nterest	_	Total
2012	\$	513,000	\$	279,000	\$	792,000
2013		545,000		247,000		792,000
2014		579,000		213,000		792,000
2015		615,000		177,000		792,000
2016		653,000		139,000		792,000
2017-2019		1,946,000		166,000		2,112,000
Totals	\$	4.851,000	\$	1,221,000	\$	6,072,000

The utility plant related to the SWTP facility was approximately \$7,181,000 as of June 30, 2011. The provision for accumulated depreciation related to the SWTP facility was approximately \$2,943,000 as of June 30, 2011.

### **NOTE 10 - LONG-TERM LIABILITIES**

General Obligation Bonds - The County issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. These bonds have been issued by the County for both primary government and component unit activities.

General obligation bonds are direct obligations of the County. The County has pledged its full faith and credit. Additionally, the Department has pledged to maintain and collect revenues sufficient to pay all operating costs and to pay the principal and interest on such bonds as they become due.

The County and the Department issued general obligation bonds through the Build America Bonds and Recovery Zone Economic Development Bonds programs that provide 35% and 45%, respectively, in federal subsidies on the total interest requirements. The interest is paid to the County and the Department on a semi-annual basis corresponding with the interest payment dates to the bondholders. Subsidy payments of \$695,323 and \$275,435 were received in fiscal year 2011 for Build America Bonds and Recovery Zone Economic Development Bonds, respectively.

# NOTE 10 - LONG-TERM LIABILITIES (Continued)

General obligation bonds payable reported on the government-wide Statement of Net Assets at June 30, 2011, are comprised of the following individual issues:

	Amount
Governmental Activities:	
General obligation bonds, 2010 Series A, original amount \$47,835,000, due in annual installments of \$1,490,000 to \$3,570,000 through August 2033, interest payments semi-annually from 1.955% to 5.763% (before the federal subsidy).	\$ 47,835,000
General obligation bonds, 2010 Series A, original amount \$12,165,000, due in annual installments of \$3,140,000 to \$9,025,000 through August 2034, interest payments semi-annually from 5.863% to 5.913% (before the federal subsidy).	12,165,000
General obligation bonds, 2005 Series A, original amount \$42,180,000, due in annual installments of \$1,120,000 to \$3,355,000 through August 2029, interest payments semi-annually from 3.25% to 5%.	38,465,000
General obligation bonds, 2001 Series A, original amount \$33,635,000, due in annual installments of \$865,000 to \$2,355,000 through August 2025, interest payments semi-annually from 4% to 5.625%.	21,455,000
General obligation taxable bonds, 2000 Series B, original amount \$2,820,000, due in annual installments of \$250,000 to \$325,000 from August 2014, interest payments semi-annually from 8% to 8.1%.	1,150,000
Total Governmental Activities	\$ 121,070,000
Business-type Activities:	
General obligation bonds, 2005 Series A, original amount \$1,565,000, due in annual installments of \$145,000 to \$190,000 through August 2017, interest payments semi-annually from 3.25% to 5%.	\$1,160,000
Total Business-type Activities	\$1,160,000

Totals	\$ <u>71,611,500</u>	\$49,464,000	\$ 121,075,500		

At June 30, 2011, approximately \$20.5 million of primary government and \$8.9 million of component unit general obligation bonds outstanding are considered defeased.

#### Revenue Bonds:

Revenue bonds are direct obligations where the County pledges income derived from acquired or constructed assets to pay debt service.

At June 30, 2011, the long-term debt of the Public Housing Enterprise Fund comprised approximately of \$205,000 of 1992 series Rental Housing revenue bonds (original amount \$4.2 million) with the final annual installment of \$205,000 due in April 2012. Interest on bonds are payable semi-annually at 7.25%.

Annual requirements to retire revenue bonds payable at June 30, 2011, are approximately as follows:

Fiscal Year Ending June 30,	_	Principal	fr	nterest	Total		
2012	\$	205,000	s	15,000	\$	220,000	
Totals	\$	205,000	\$	15,000	\$	220,000

## Loans Payable: Business-type Activities

The County has a construction loan agreement with the State totaling approximately \$2.6 million to fund a portion of the construction cost of the Kapa'a Wastewater Treatment Plant. Principal, interest, and loan fee payments are due quarterly in equal installments of \$46,272. Interest is accrued at 3.5% per annum. The loan was interest-free during the period of construction.

\$ 645,449

During fiscal year 1995, the County entered into an additional construction loan agreement with the State totaling approximately \$700,000 to fund a change order related to the Kapa'a Wastewater Treatment Plant. Principal, interest, and loan fee payments are due in semi-annual installments of \$23,925 (\$47,850 annually). Interest is accrued at 3.06% per annum.

148,091

During fiscal year 1993, the County entered into a construction loan agreement with the State totaling approximately \$14.1 million to fund a portion of the construction cost of the Līhu'e Wastewater, Phase IV Project. A supplemental loan agreement reduced the principal amount to approximately \$13.4 million. Principal, interest, and loan fee payments are due quarterly in equal installments of \$239,699 (\$958,796) annually). Interest is accrued from the date of the Stateissued warrant (March 7, 1994) or check for each subsequent loan amount disbursed to the County at 3.78% per annum. The construction loans are general obligation debt of the County that do not specify a dedicated revenue source to be used for repayment of the loans. The construction of each of these plants was completed during fiscal year 1997. The County determined that the funding source for repayment of these loans will be from the Sewer Enterprise Fund.

2,338,971

During fiscal year 2006, the County entered into a new construction agreement with the State to fund a cesspool conversion project. The agreement allows the County to request reimbursement for project related expenditures from the State. Principal and interest payments are due in semi-annual installments of \$44,582 (\$89,164 annually). A loan fee is assessed at 1% of the outstanding principal balance. Interest is accrued at 2.13% per annum.

During fiscal year 2007, the County entered into a construction agreement with the State totaling approximately \$2.2 million to fund a wastewater effluent system. Principal and interest payments are due in semi-annual installments of \$58,425 (\$116,850 annually). A loan fee is assessed at .25% of the outstanding principal balance. Interest is accrued at .50% per annum.		1,687,755
During fiscal year 2009, the County entered into a new construction agreement with the State totaling approximately \$2.1 million to continue to fund the wastewater effluent system. Principal and interest payments are due in semi-annual installments of \$55,611 (\$111,222 annually). A loan fee is assessed at .25% of the outstanding principal balance. Interest is accrued at .50% per annum.		1,707,892
During fiscal year 2009, the County entered into a second new construction agreement with the State totaling approximately \$4.5 million to fund sewer system improvements. Principal and interest payments are due in semi-annual installments of \$108,486 (\$216,972 annually). A loan fee is assessed at .25% of the outstanding principal balance. Interest is accrued at .50% per annum.		3,332,336
During fiscal year 2009, the County entered into a third new construction agreement with the State totaling approximately \$952,000 to fund wastewater pump station improvements. Principal and interest payments are due in semi-annual installments of \$12,051 (\$24,102 annually). A loan fee is assessed at .25% of the outstanding principal balance. Interest is accrued at .50% per annum.		381,065
During fiscal year 2010, the County entered into a new construction agreement with the Sate totaling approximately \$4.9 million to fund the wastewater plant digester repair. Principal and interest payments are due in semi-annual installments of \$137,553 (\$275,106 annually). A loan fee is assessed at .25% of the outstanding principal balance. ## NOTE 11 - EMPLOYEE BENEFIT PLANS

#### Pension

Substantially all eligible employees of the County (including the Department) are members of the Employees' Retirement System of the State of Hawai'i (ERS), a cost-sharing, multipleemployer defined benefit pension plan. The ERS provides retirement benefits, as well as, death, and disability benefits. HRS Section 88 establishes or amends benefit provisions. Prior to June 30, 1984, the plan consisted of only a contributory option. In 1984, legislation was enacted to add a new noncontributory option for members of the ERS who are also covered under Social Security. Persons employed in positions not covered by Social Security are precluded from the noncontributory option. The noncontributory option provides for reduced benefits and covers most eligible employees hired after June 30, 1984. Employees hired before that date were allowed to continue under the contributory option or to elect the new contributory option and receive a refund of employee contributions. Both options provide for a monthly retirement allowance based on the employee's age, years of credited service, and Average Final Compensation (AFC). The AFC is the average salary earned during the five highest paid years of service, including the vacation payment, if the employee became a member prior to January 1, 1971. The AFC for members hired on or after that date and prior to January 1, 2003 is based on the three highest paid years of service, excluding the vacation payment. Effective January 1, 2003, the AFC is the highest three calendar years or highest five calendar years plus lump sum vacation payment or, highest three school contract years, or last 36 credited months or last 60 credited months plus lump sum vacation payment. All benefits vest after five and ten years of credited service under the contributory and noncontributory options, respectively. Members, except police officers, under the contributory option contribute at a rate of 15% of their salary. Members who are police officers have a mandatory contribution rate of 19.70% of their salary.

On July 1, 2006, a new hybrid contributory plan became effective pursuant to Act 179, SLH of 2004. Members in the hybrid plan are eligible for retirement at age 62 with five years of credited service or age 55 with 30 years of credited service. Members will receive a benefit multiplier of 2% for each year of credited service in the hybrid plan. The benefit payment options are similar to the current contributory plan. Almost 58,000 current members, all members of the noncontributory plan and certain members of the contributory plan, are eligible to join the new hybrid plan. Most of the new employees hired from July 1, 2006, are required to join the new hybrid plan.

The ERS provides basic pension benefits to individuals receiving pensions. Employer contributions to the ERS are comprised of normal cost plus level annual payments required to liquidate the unfunded accrued liability over the closed period ending June 30, 2029. The ERS uses the Entry Age Normal Actuarial Cost method to calculate the unfunded accrued liability.

## NOTE 11 - EMPLOYEE BENEFIT PLANS (Continued)

The County's (including the Department's) payroll for employees covered by the plan for the fiscal year ended June 30, 2011, was approximately \$67.8 million. The County is required to contribute an actuarially determined amount to the ERS. Contributions made to the ERS by the County, and employees for the fiscal year ended June 30, 2011, were approximately \$10.9 million and \$4.4 million, respectively. The County's actuarially determined contribution is 1% of the total current year actuarially determined contribution requirements for all employers. The County's contributions to ERS for fiscal years 2011, 2010, and 2009 were approximately \$10.9 million, \$10.7 million, and \$10.6 million, respectively. Contributions for fiscal years 2011, 2010 and 2009 were equal to the required contributions for each respective year.

ERS issues a Comprehensive Annual Financial Report (CAFR) that includes financial statements and required supplementary information which may be obtained from the following address:

Employees' Retirement System of the State of Hawai'i 201 Merchant Street, Suite 1400 Honolulu, Hawai'i 96813

The following data was obtained from the disclosures contained in the CAFR for the fiscal year ended June 30, 2008. Number of employers as of June 30, 2008 was:

State 1
Counties 4

Total employers

## Basis of Accounting

The financial statements of the ERS are prepared using the accrual basis of accounting. Employer and member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

#### Method Used to Value Investments

Plan investments are reported at fair value. Where appropriate, the fair value includes disposition costs. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future

## NOTE 11 - EMPLOYEE BENEFIT PLANS (Continued)

principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments and real estate owned are based on independent appraisals and estimated values. Investments that do have an established market are reported at estimated fair value.

## Deferred Compensation Plan

The County has a Deferred Compensation Plan (Plan) created in accordance with Internal Revenue Code Section 457. The Plan, available to all employees, permits them to defer a portion of their salary until future years. Participation in the Plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The Small Business Job Protection Act of 1996 requires that all plan assets and income be placed in trust, custodial account or annuity contract for the exclusive benefit of the participants and their beneficiaries.

The County has met the requirements for the Small Business Job Protection Act of 1996 for its Internal Revenue Code Section 457 Plan, and in accordance with the criteria set forth in the GASB Statement No. 32, Accounting and Financial Reporting Code Section 457 Deferred Compensation Plans, the County has excluded the plan assets and liabilities from the government-wide financial statements because the County does not have significant administrative involvement in the Plan or perform the investment function for the Plan. All such amounts are not subject to the claims of the County's general creditors.

### NOTE 12 - POST EMPLOYMENT HEALTHCARE PLAN

### Plan Description

The County provides certain healthcare and life insurance benefits to all qualified employees through the Hawai'i employer - Union Health Benefit Trust Fund (EUTF), an agent multiple-employer defined benefit plan, established through Chapter 87A of the Hawai'i Revised Statutes (HRS). The EUTF was established to provide a single delivery system of health benefits for state and county workers, retirees, and their dependents. As an agency of the State, the EUTF contracts with providers of medical, dental, vision, and life insurance plans. The EUTF plan currently provides medical, dental, vision, and life insurance benefits. The EUTF issues an annual financial report that is available to the public. That report may be obtained by writing to:

EUTF 201 Merchant Street, Suite 1520 Honolulu, Hawai'i 96813

# NOTE 12 - POST EMPLOYMENT HEALTHCARE PLAN (Continued)

For employees hired before July 1, 1996, the County pays the entire base monthly contribution for employees retiring with 10 years or more of credited service and 50% of the base monthly contribution for employees retiring with fewer than 10 years of credited service. A retiree can elect a family plan to cover dependents.

For employees hired after June 30, 1996 but before July 1, 2001, and who retire with less than 10 years of service, the County makes no contributions. For those retiring with at least 10 years but fewer than 15 years of service, the County pays 50% of the base monthly contribution. For those retiring with a least 15 years but fewer than 25 years of service, the County pays 75% of the base monthly contribution. For those employees retiring with at least 25 years of service, the County pays 100% of the base monthly contribution. Retirees in this category can elect a family plan to cover dependents.

For employees hired on or after July 1, 2001, and who retire with less than 10 years of service, the County makes no contributions. For those retiring with at least 10 years but fewer than 15 years of service, the County pays 50% of the base monthly contribution. For those retiring with at least 15 years but fewer than 25 years of service, the County pays 75% of the base monthly contribution. For those employees retiring with at least 25 years of service, the County pays 100% of the base monthly contribution. Only single plan coverage is provided for retirees in this category. Retirees can elect family coverage but must pay the difference.

## **Funding Policy**

Effective July 1, 2006, EUTF implemented GASB Statement No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pensions. GASB 43 establishes accounting and financial reporting standards for plans that provide other postemployment benefits (OPEB) other than pensions. GASB Statement No. 43 requires defined benefit OPEB plans that are administered as trust or equivalent arrangement to prepare a statement of plan assets and a statement of changes in plan assets.

The reporting of active and retiree (including their respective beneficiaries) healthcare benefits provided through the same plan should separate those benefits for accounting purposes between active and retiree healthcare benefits. Accordingly, the County reports the retiree healthcare benefits as OPEB in conformity with GASB Statement No. 43 and the active employee healthcare benefits as risk financing in conformity with GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, as amended.

Effective July 1, 2007, the County implemented GASB Statement No. 45, Accounting and Financial Reporting by Employer for Postemployment Benefits Other Than Pensions, which requires reporting the OPEB liability on an accrual basis. Because the Statement was implemented on a prospective basis, the OPEB liability at transition was zero.

## NOTE 12 - POST EMPLOYMENT HEALTHCARE PLAN (Continued)

The County's base contribution levels to EUTF are established by Statutes. The retiree is responsible to pay the difference if the base contribution is less than the cost of the monthly premium.

### Annual OPEB Cost

The County's annual OPEB cost for each plan is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters in GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The net OPEB obligation is determined based upon current year contributions and any short-term differences which are amounts that will be contributed within one year or the next actuarial determination date. At June 30, 2011, the County's post-retirement payable of \$10,995,965 is considered a short-term difference and has been included in the respective annual OPEB contributions. At June 30, 2011, the Department's post-retirement payable of \$845,959 is considered a short-term difference and has been included in the respective annual OPEB contributions. The following table presents the annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB liability.

# NOTE 12 - POST EMPLOYMENT HEALTHCARE PLAN (Continued)

# Funding Status and Funding Progress

The funded status of the Plan as of July 1, 2009, the effective date of the biannual OPEB valuation, was as follows:

Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded Actuarial Accrued Liability (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
7/1/2009	\$ 13,493,000	\$ 207,039,000	\$ 193,546,000	7%	\$ 65,885,000	294%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, is designed to present multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

## Actuarial methods and assumptions

Projections of benefits for financial reporting purposes are based on the plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Significant methods and assumptions were as follows:

	County
Actuarial valuation date	July 1, 2009
Actuarial cost method	Entry age normal
Amortization method	Level percentage of payroll, period ending June 30, 2037
Remaining amortization period	30 years
Actuarial assumptions:	
Investment rate of return	7%
Projected salary increases	3.5%
Medical and Rx Pre-65	10.5% initial; 5% ultimate
Medical and Rx Post-65	10.25% initial; 5% ultimate
Dental	6.0% initial; 4% ultimate
Vision	4.0% initial; 3% ultimate
Medicare Part B	14.63% initial, 5% ultimate

## NOTE 12 - POST EMPLOYMENT HEALTHCARE PLAN (Continued)

The number of participants as of July 1, 2009, the effective date of the biannual OPEB valuation, follows. There have been no significant changes in the number of covered participants or the type of coverage since

	County	Department
Active employees	1,076	74
Retired employees	633	30
Deferred vested employees	85	_4
Total	1,794	108

### NOTE 13 - COMMITMENTS AND CONTINGENCIES

### Claims and Judgments

The County is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County maintains certain comprehensive general liability and property insurance, public official and law enforcement liability insurance, and excess auto liability insurance for claims. It is the opinion of management and legal counsel that such claims and lawsuits are either covered by the County's insurance policies, if they should exceed the County's retained risk, or are recorded in the government-wide financial statements. There was no reduction in insurance coverage during the year from coverage in the prior year. During the past four fiscal years, the amount of settlements in cases covered by insurance have not exceeded the insurance coverage. The County is substantially self-insured for its vehicles as well as for all other perils including workers' compensation and general liability below \$500,000. Claims against the County are paid out of the General Fund.

Liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claims liabilities, including IBNR, are based on the estimated ultimate cost of settling the claims, and include incremental costs for the hiring of special counsel and expert witnesses. Claims liabilities are estimated on a case-by-case review of all claims and the application of historical experience to outstanding claims. Estimates of IBNR are based on historical experience. The liability for claims and judgments is reported on the government-wide *Statement of Net Assets*. At June 30, 2011, the amount of this liability was approximately \$7.6 million. This is the County's best estimate based on available information. Changes in the reported liability since July 1, 2010, are given below:

## NOTE 13 - COMMITMENTS AND CONTINGENCIES (Continued)

Fiscal Year	Liability at Beginning of Year	Current Year Claims and Changes In Estimates	Claim Payments and Adjustments	Liability at End of Year
2010	\$ 11,214,061	\$ 2,724,332	\$ (5,651,688)	\$ 8,286,705
2011	\$ 8,286,705	\$ 2,045,481	\$ (2,723,496)	\$ 7,608,690

### **Purchase Commitments**

The outstanding portion of contractual commitments for capital projects, supplies, and other expenditures at June 30, 2011, was approximately \$24.2 million. Contractual commitments are generally reflected in the governmental fund financial statements as committed fund balance.

### NOTE 14 - LANDFILL CLOSURE AND POST-CLOSURE CARE COSTS

GASB Statement No. 18, Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs, which is based on the October 9, 1991 United States Environmental Protection Agency (EPA) rule, "Solid Waste Disposal Facility Criteria," establishes closure requirements for all municipal solid waste landfills that receive waste after October 9, 1991. In accordance with GASB Statement No. 18, the County estimates in advance the total cost of closure and post-closure care during the life of those landfills rather than after their closings. Federal and State laws and regulations require the County to place final covers on certain landfill sites when they stop accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. Annual additions to the liability for closure and post-closure care costs are based on landfill capacity used as of each balance sheet date.

The County has three landfill sites - Kekaha Landfill Phases I and II, and Halehaka Landfill. The County has closed the Kekaha Landfill Phase I and Halehaka Landfill. The County estimates the closure costs for the Kekaha Landfill Phase II to be approximately \$8.9 million based on estimates provided by project engineers. At June 30, 2011, approximately 85% of the total capacity of the Kekaha Landfill Phase II had been used, and the estimated remaining landfill life is approximately three and a half years.

The total estimated closure costs accrued in the government-wide financial statements for the Kekaha Landfill Phase II, and the remaining post-closure costs for the Kekaha Landfill Phases I and II, and Halehaka Landfill was approximately \$18.6 million, which may change due to inflation, technology or applicable laws or regulations. This amount is fully accrued in the government-wide financial statements.

## NOTE 14 - LANDFILL CLOSURE AND POST-CLOSURE CARE COSTS (Continued)

The County is required by state and federal laws and regulations to assure that the funds for corrective action closure and post-closure care will be available when needed. The County charges commercial businesses a tipping fee for each ton of waste deposited at the Kekaha Landfill Phase II. The tipping fees will be used to offset the cost of closing the landfill. As of June 30, 2011, the County has collected approximately \$7.2 million in tipping fees and a portion of this amount is included in the Solid Waste Fund. As of June 30, 2011, the County met applicable financial assurance requirements specified in 40 CFR Section 258.

The County is currently in the design phase of the lateral expansion of the Kekaha Landfill Lateral Expansion, Cell II. Upon completion, it is anticipated to extend the life of the Kekaha Landfill by an additional 3.2 years. Cell II of the lateral expansion will provide additional capacity for waste by the construction of a baseliner and leachate collection system in the area between Phase I and Phase II, further extending the landfill footprint. Department of Public Works, Solid Waste Division has identified additional options to further extend the life of Kekaha Landfill and is currently investigating the feasibility of those options.

# 76

## COUNTY OF KAUA'I, HAWAI'I NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2011

# **NOTE 15 - FUND BALANCE CONSTRAINTS**

The constraints on fund balance as listed in aggregate in the Statement of Revenues, Expenditures, and Changes in Fund Balance are detailed according to balance classification and fund.

#### NOTE 16 - COMPONENT UNIT DISCLOSURES

Safe Drinking Water Act - The Department is subject to the requirements of the Safe Drinking Water Act (the Act) which is administered by the State of Hawai'i Department of Health on behalf of the United States Environmental Protection Agency. Management indicated that the Department is in full compliance with the requirements of the Act and is not aware of any matters under the Act that materially affected or are currently affecting the Department's customer service area.

#### **NOTE 17 - RELATED PARTY TRANSACTIONS**

The Department charges the County for fire protection services (hydrant use) at agreed-to rates that approximate the costs for such services. The County provides certain services to the Department and charges the Department for these services at an amount equal to the charge for fire protection services. The amounts charged approximated \$944,000 for the fiscal year ended June 30, 2011.

#### NOTE 18 - NEW PRONOUNCEMENTS FOR FINANCIAL REPORTING

GASB has issued the following Statements applicable to the County:

- Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements, which will be effective for years beginning after December 15, 2011.
   This Statement improves financial reporting by addressing issues related to service concession arrangements. The County does not expect this Statement will have a material effect on its financial statements.
- Statement No. 61, The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34, which will be effective for years beginning after June 15, 2012. This Statement modifies certain requirements for inclusion of Component Units in the financial reporting entity. The County is currently evaluating the impact that GASB No. 61 will have on its financial statements.
- Statement No. 62, Codification of Accounting and Financial Reporting Guidance
  Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, is effective
  for reporting periods beginning after December 15, 2011. The objective of this
  Statement is to enhance the usefulness of the Codification of Governmental
  Accounting and Financial Reporting Standards by incorporating guidance that
  previously could only be found in certain FASB and AICPA pronouncements. The
  County does not expect that this will have a material effect on its financial statements.

## NOTE 18 - NEW PRONOUNCEMENTS FOR FINANCIAL REPORTING (Continued)

- Statement No. 63 Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, which will become effective for financial statements for periods beginning after December 15, 2011. Statement No. 63 provides financial statement presentation guidance for these elements; however, it does not identify any additional items that should be recognized within these element classifications. Statement No. 63 only will apply to items that have been specifically identified by GASB as deferred outflows of resources or deferred inflows of resources. The County does not expect that this Statement will have a material effect on its financial statements.
- Statement No. 64 Derivative Instruments: Application of Hedge Accounting
  Termination Provisions an amendment of GASB Statement No. 53, which will
  become effective for financial statements for periods beginning after June 15, 2011.
  The requirements of this Statement enhance comparability and improve financial
  reporting by clarifying the circumstances in which hedge accounting should continue
  when a swap counterparty, or a swap counterparty's credit support provider, is
  replaced. The County does not expect that this Statement will have a material effect on
  its financial statements.

#### **NOTE 19 - SUBSEQUENT EVENTS**

Only July 7, 2011, the County issued approximately \$26.1 million of Series 2011A general obligation bonds. The proceeds from the bonds will be utilized to defease Series 2001A general obligation debt. The Department's share of this issue approximated \$5.13 million.

OTHER SUPPLEMENTARY INFORMATION

### COUNTY OF KAUA'I, HAWAI'I COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES FOR THE FISCAL YEAR ENDED JUNE 30, 2011

#### Special Revenue Funds

#### **Highway Fund**

Accounts for the costs of maintaining the County's highways and streets. Financing is provided primarily by fuel, motor vehicle weight and public utility franchise taxes, licenses, and permits.

#### Liquor Fund

Accounts for the costs of operating the County's Liquor Department. Financing is provided by liquor licenses and permits.

#### Beautification Fund

Accumulates monies for the beautification of highways and streets and defrays the cost of disposing of abandoned vehicles. Financing is provided by motor vehicle registration fees. This fund was established for financing projects planned by the Mayor's Committee on Beautification.

#### Criminal Assets Forfeiture Fund

Accounts for monies or forfeited non-cash or tangible property received to be used solely for the Kaua'i Police Department for law enforcement purposes as delineated in the Comprehensive Crime Control Act of 1984 and The Attorney General's Guidelines on Seized and Forfeited property.

#### Plans and Permits Revolving Fund

Accounts for monies collected from new permits and penalties.

#### Section 8 Fund

Accounts for a contract with the federal government pursuant to Section 8 of the Housing and Community Development Act of 1974. Funds are to be expended for housing assistance payments for lower-income families and for administrative costs.

#### State Grants Fund

Accounts for expenditures of state and county grants.

#### Public Access Fund

Accumulates monies for the acquisition of land or property entitlements for land conservation purposes. This fund is appropriated at a minimum of .5% of the certified real property tax revenues for public access, open space, and natural resources preservation.

#### Park Maintenance and Improvements Fund

Accounts for monies collected and expended for parks.

### COUNTY OF KAUA'I, HAWAI'I COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2011

#### **Debt Service Fund**

#### **Debt Service Fund**

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, debt principal, interest, and related costs.

#### Capital Projects Funds

#### Parks and Playground Capital Improvement Fund

Accounts for the costs of developing County parks and playgrounds financed by assessments to developers of residential projects.

#### Sewer Trust Fund

Accounts for the costs of expanding the County's sewer system financed by assessments to developers of subdivisions. Construction of the sewer system improvements is financed by general obligation debt that covers multiple public improvements. Repayment of the debt applicable to the sewer system will be made from General Fund sources. Accordingly, all sewer trust fund capital improvements are accounted for in the Capital Projects Fund and recorded as contributed capital in the Sewer Enterprise Fund upon completion.

#### **Development Capital Improvement Fund**

Accounts for capital improvements financed by assessments to developers of residential, hotel, commercial or industrial projects.

#### **Bikeway Capital Improvement Fund**

Accumulates monies for the construction and maintenance of bikeways and related activities financed by bicycle license fees.

#### Special State Capital Improvement Fund

Accounts for the costs of capital projects financed by State of Hawai'i grants-in-aid to Counties. There was no activity in this fund during fiscal year ended June 30, 2011.

#### **Highway Capital Improvement Fund**

Accounts for the costs of projects financed by the Highway Fund.

#### Open Space Capital Improvement Fund

Accumulates monies for the acquisition of land or property entitlements for public recreation, and preservation, protection and conservation of important areas.

### COUNTY OF KAUA'I, HAWAI'I COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2011

#### Fiduciary Funds

#### Trust and Agency Fund

Accounts for the collection and payment to other governments of monies collected by the County on behalf of the other governments. Monies consist primarily of the collection of State of Hawai'i motor vehicle weight taxes.

#### **Treasury Trust Fund**

Accounts for monies collected for specific purposes by various agencies of the County as escrow agent or custodian.

#### Real Property Trust Fund

This fund is used for the purpose of making refunds and adjustments relating to real property taxes.

Note (1): As of fiscal year 2008, a new Department of Parks and Recreation was established. Therefore, positions previously reported under the Department of Public Works were transferred to the Department of Parks and Recreation.

Note (2): Prior to fiscal year 2008, Culture and Recreation reflected the Agency on Recreation employees. Parks employees were reported under Public Works. Starting fiscal year 2008, all of the employees of the Department of Parks and Recreation are reported under Culture and Recreation, with the exception of Golf activities. Full-time equivalents include permanent, temporary, exempt and contract positions.

in gallons	4,226,000	4,300,000	4,300,000	4,030,000	4,466,000	4,490,000	4,663,000	4,407,000	4,249,000	4,263,000
Wastewater:										
Average daily sewage										
treatment in gallons	2.414,000	2,392,000	2,710,000	2,451,000	2,720,222	2,720,000	2,550,000	2,550,000	2,550,000	2,550,000

Note 1: From 2004 through 2006, the number of athletic field permits issued is calculated by adding every day of use on each permit issued.

Note 2: Since the establishment of the parks department in 2007, these numbers reflect the number of athletic field permits issued. It is noted that a permit may entitle the user to multiple days of usage.

Note 3: Since the establishment of the parks department in 2007, the number of community center admissions reflect the total reservations by users at the neighborhood centers that includes all rooms, centers and gyms at all sites.

Note 4: Prior year correction noted by the Department of Public Works, Solid Waste Division.

Indicators are not available for the general government function.
