RE: REQUEST FOR SOLE SOURCE APPROVAL

Instructions: Cost and/or pricing data requirements for contracts expected to exceed \$100,000 are applicable pursuant to HAR 3-122-123 & 124.

I. Pursuant to 103D-306, HRS, and Subchapter 9, Chapter 3-122, HAR, the Department requests sole source approval to purchase the following: **(Description of goods, services, or construction)**

Replace Impeller One in Pump #2 at Coco Palms SPS..

III. Estimated Cost: \$8,617.80

IV. Term ofContract or delivery time:

Net 30 days

V. The goods, services, or construction has the following unique features, characteristics, or capabilities:

The Smith & Loveless Impeller has superior clog resistant design to pass rags, wipes, and debris without plugging-something especially valuable in wastewater applications. This reduces downtime, maintenance, and emergency callouts. Off the shelf impellers may wear faster or suffer from corrosion if not selected specifically for wastewater.

VI. Describe how the unique features, characteristics, or capabilities are essential for the agency to accomplish its work:

The impeller is a critical rotating component, and when it becomes worn, it can no longer move fluid efficiently, causes vibration, and increases strain on the motor and bearings. If wear continues, the impeller can crack or break apart, which can cause internal pump damage and unexpected downtime.

VII. The following other possible sources for the goods, services, or construction were investigated but do not meet our needs because:

There are no other authorized vendors that sell Smith & Loveless parts or accessories in the State of Hawaii.

VIII. Person(s) recommended to negotiate the sole source contract:
