

## 5.6 PUBLIC FACILITIES MAPS

The General Plan Public Facilities Maps are a new addition to this General Plan. The maps identify the locations of existing public facilities on Kauaʻi. These maps are intended to be used as a reference in planning public facilities and services to support future land uses and development. The Public Facilities Maps should be periodically reviewed and updated as additional data becomes available. The Public Facilities Maps are a general reference, and may not be used to determine whether adequate facilities or services exist to support or deny a proposed land use.

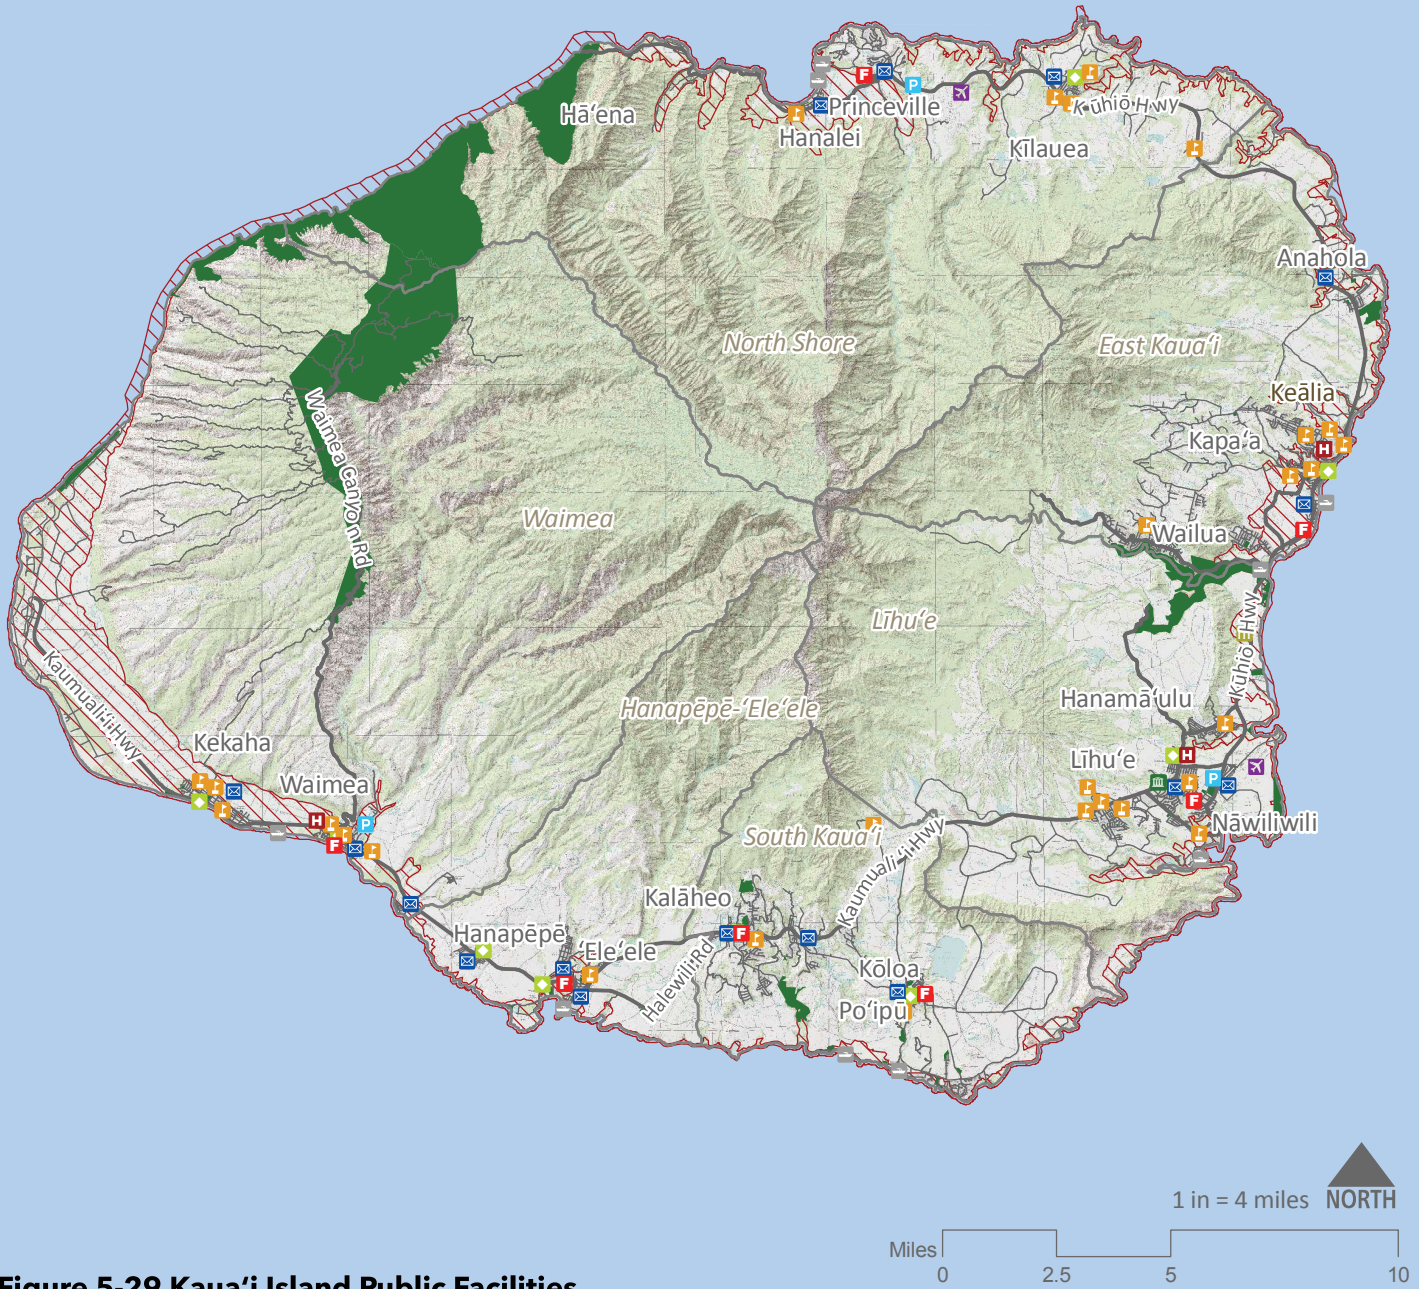

The Public Facilities Maps include the following information:

- Neighborhood Centers
- Post Offices
- Schools
- Police Stations
- Harbors
- Hospitals
- Civic Centers
- Correctional Center
- Airports
- Fire Stations
- Parks
- Planning District Boundaries
- Major Roads
- Extreme Tsunami Evacuation Zones

### Purposes of the Public Facilities Maps

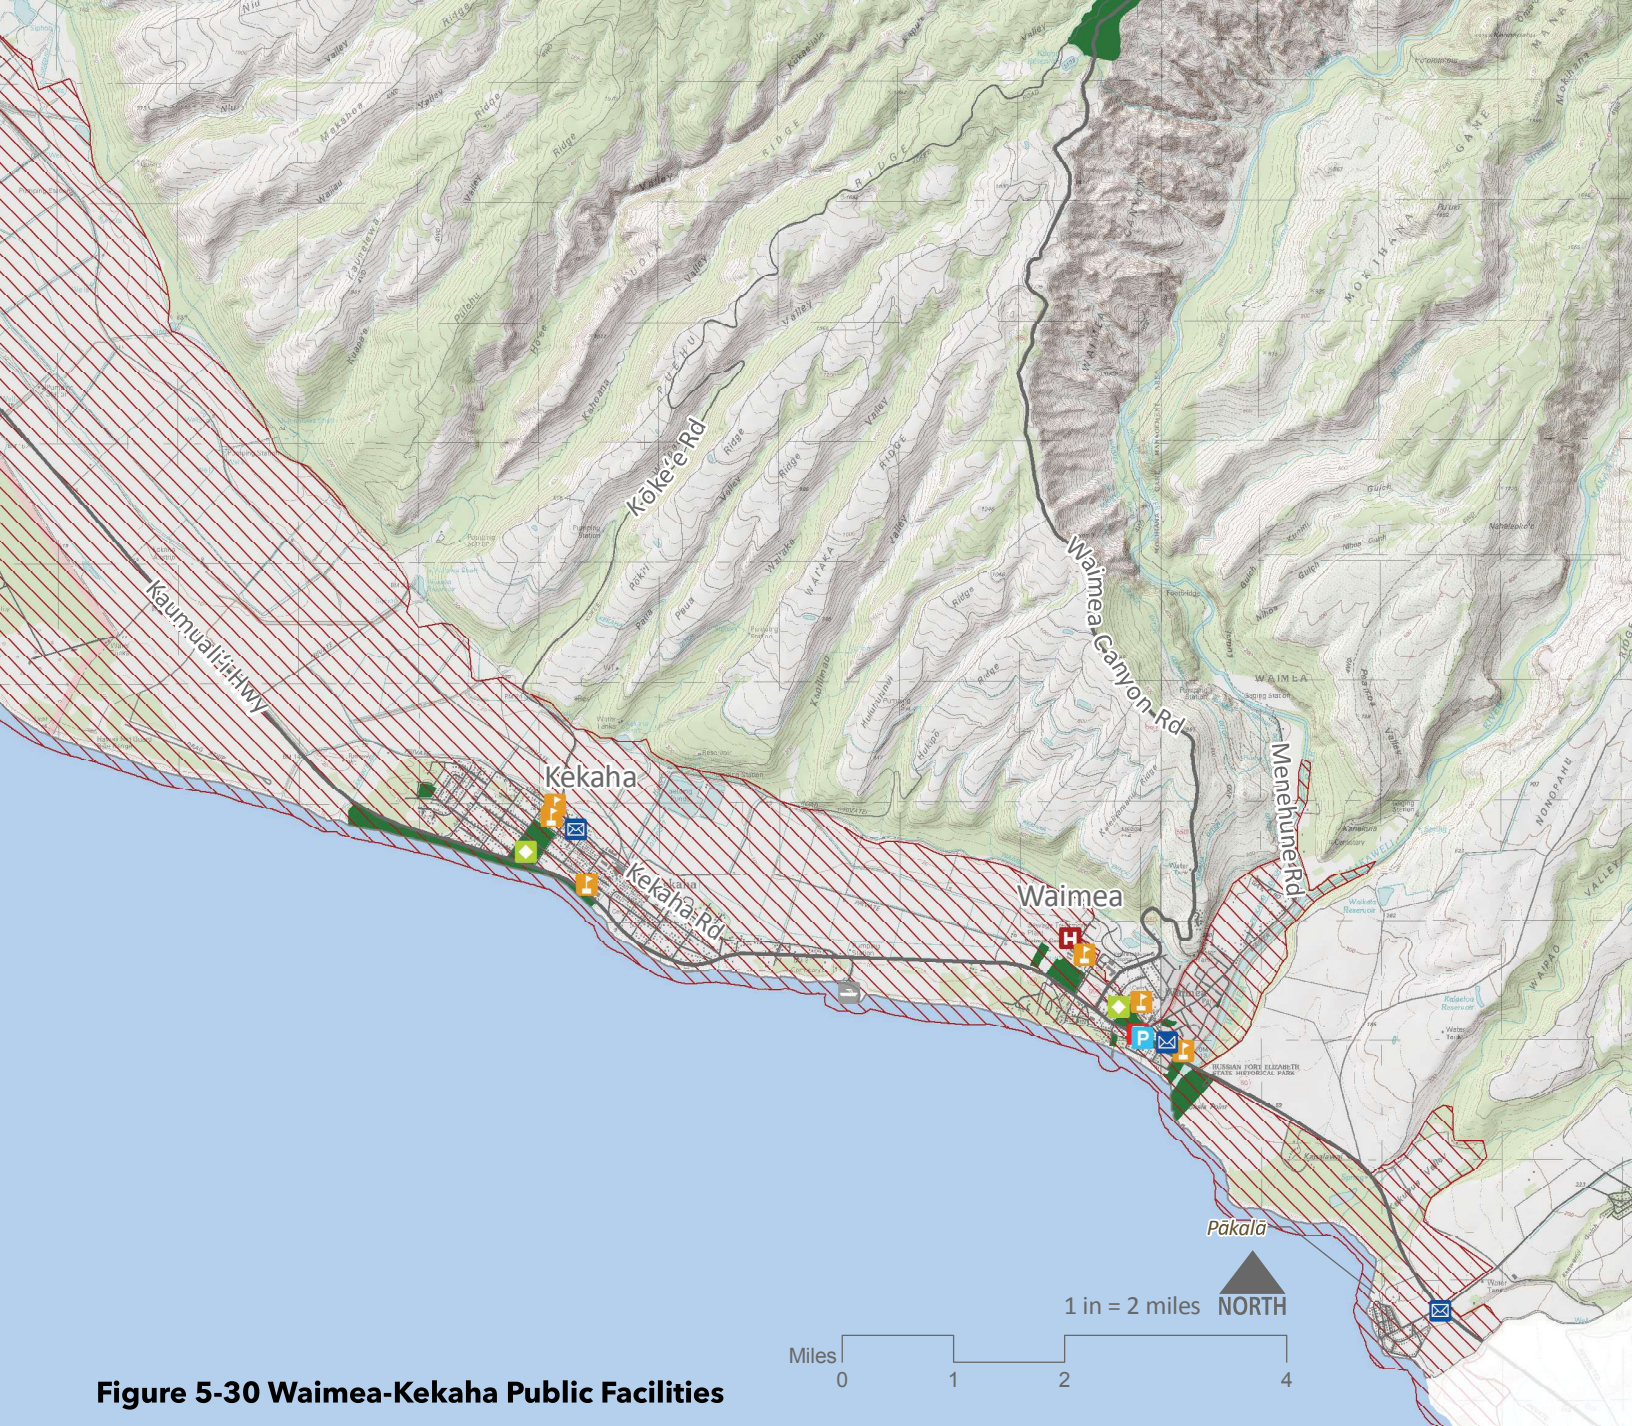

The purposes of the Public Facilities Maps are as follows:

- To depict the locations of existing public facilities. These facilities have been mapped using existing data sources and depict general locations that are intended to be representational, not precise.
- To be used as a planning tool in identifying existing areas that may need additional facilities, services, or mitigation plans for protection or relocation. They can also help ensure that future development is supported by adequate facilities.
- To be referenced in preparing Community Plans and Functional Plans.
